PROPOSE CHANGES IN FINANCING "HAWKEYE"

COMMITTEE SUBMITS COMMUNICATION TO IOWAN.

Certain Students Allege That Profits Should be in Proportion to Quality.

"Just at this time the university organizations are making arrangements to have their pictures in the "Hawkeye," and everyone is hoping that this year's annual will be the best yet. The quality of each year's "Hawkeye" depends primarily upon the attitude of the board of managers on this question. How much of the money received shall we invest in improving the quality of the "Hawkeye" and how much shall we put in our own pockets?

"All business experience shows that the best way to encourage excellence in quality is not to pay in advance but to pay in proportion to the merits of the finished product. Under the present system the managers of the "Hawkeye" are handicapped by receiving a considerable part of their pay in advance. For instance, the managers receive $12 for running a cut of an organization which costs them less than $3. This collecting of profits in advance naturally dampens the managers' ambition to produce a first class "Hawkeye." The question then looks like this: Now that we have this money what is the largest amount we can keep in our own pockets and what is the least amount we can invest in the "Hawkeye" and still hold the students to their agreements to purchase copies?

"Some call this taking of big profits in advance at the expense of the quality of the annual, graft. That is a mistake. The fault lies rather with the student body in that they have followed the custom of paying profits in advance. Several organizations are now discussing the advisability of making a change such that profits will be high in proportion as the quality of the annual is high. At present the less funds put into the making of a good "Hawkeye" the larger the managers' profits. The plan is to pay the manager the cost price for running cuts in the "Hawkeye" thus protecting them from financial risk. Then the managers by selling the "Hawkeye" on its merits will find that the better the "Hawkeye" the bigger the sales and the bigger the profits. Making the profit depend upon quality will insure Iowa the best possible "Hawkeye" and remove all suspicion of graft.

"In order to secure this improve-

(Continued on page two)

HIGH PRAISE FOR BROWNING HIS LIFE WAS WORK OF ART

Newton Offers Explanation of Browning's Obscurity.

Replying to the charge of obscurity commonly brought against Robert Browning, the Rev. Joseph Newton said that "Whoso follows the path of a thinker will have to think. Browning's mind was a veritable bee hive and the incredible swiftness of his thought further explains the difficulty experienced by his readers."

"It was the unique qualities of Browning's genius which made him such a supreme interpreter of religion" said Mr. Newton. "In his power to draw out the soul of woman he was incomparably greater than Shakespeare. And he did it without the faults of idealization or degradation. Another of his unique qualities was his exclusive attention in his writings to individual men. With man in the abstract he had nothing to do. He believed in the sanctity of human difference."

The speaker paid high tribute to Browning's wife and showed how beneficial to each was their mutual influence. "It was a marriage of the ideal and the real" he said. "Elizabeth Barrett, by most conservative estimate, was half angel and half song bird. She was a complete woman. To her there was no line of demarkation between earth and heaven."

"Browning's faith was a triumph" declared the lecturer. "Though the wonder and the gloom of the earth was in his heart, he had that keen vision of the optimist who sees through the shadows and on to the victory beyond. His Christian poetry is but a series of these visions. His faith never wavered. His philosophy of life was built on it. This briefly tated was, "We are here in the world to grow into a larger life, yet by a strange irony we are beset with limitations which seem to retard us."

Owing to the increased popularity of the lectures, they are being held in the Auditorium. Four of the series of seven remain. Next week's subject will be, "Emerson."

Octave Thanet Program.

The Octave Thanets will give the following Dickens program Saturday evening:

Dickens as a Reformer—Clara Talstrupp.

Review "David Copperfield"—Mable Myers.

"Dicken's Characters"—Maud Walz

Reading "Nicholas Nickleby"—Mable Horner.

Scene "Cricket on the Hearth"—Lelah Crum, Elsie Snavely, Zora Wells, Golda Leighton.

JUNIOR PROM TONIGHT; INNOVATIONS PLANNED

SPECIAL PROVISION IS MADE FOR SPECTATORS.

Decorations Will Not Interfere with View from Gallery—Grand March will be Featured.

The Junior Prom to be held tonight in the armory promises to be an elaborate function. The committee has introduced several innovations entirely new here and in fact new to this part of the country. Expensive and elaborate decorations have been planned and an extravagant color scheme has been worked out.

A special effort has been made this year to accomodate the spectators in the gallery. The committee in planning the decorations has arranged to raise the ceiling extremely high and the natural sag of the bunting will be prevented by the stretching of piano wire under the entire bunting covering. This will do away with all obstruction to the onlookers in the gallery.

The gallery will be opened at 6:30 p. m. in order to accomodate those who wish to come early to watch the people as they come, and in order to handle the large crowd anticipated.

The grand march will begin at 8 promptly and will be led by Mr. and Mrs. W. J. McChesney. A particularly novel and spectacular feature will be made of the grand march, making a decided innovation in university circles.

The patronesses will be Mrs. G. E. MacLean, Mrs. W. J. McChesney, Mrs. Max Mayer and Miss Anna M. Klingenhagen, the dean of women.

Twilight Musical Tomorrow.

A special program will be the feature of the Twilight musical to be given tomorrow afternoon at 4:30 in the Methodist Episcopal church. Miss Anna Dvorsky will be the pianist and Frank Callendar will be the tenor soloist.

Higbee at Baconian Tonight.

The weekly meeting of the Baconian club will be held this evening at 7:30 in the hall of physics. Prof. F. G. Higbee will read a paper on "Our Inland Seas."

Class Day Program.

The following class day program has been announced by the chairman of the class day committee, Miss Dora Holman:

Address of welcome—Charles Kauffman. Ivy Oration—Earl Stewart. Class Poem—Hannah Parry. Class Prophecy—Meta Raney. Farewell Address—Chester Corey.

ORATIONS AT IRVING—ZETS TO DEBATE—PHILOS POSTPONE

Special Features Also Arranged for Societies.

Should the coal mines of the country be controlled by the government? This proposition will be debated this evening in Zetagathian hall. The program of Irving Institute will consist of three orations by men who are entered in the N. O. L. contest. This will afford them practice for the preliminary which comes on February 12. Owing to semester examinations, the Philos have postponed their regular program.

Besides these orations and debate, there will be speeches, music, readings, and other enjoyable features which make the programs entertaining. The student body and public are at all times welcome to these programs which begin at 8 o'clock in Close hall. The above programs will be as follows:

Zetagathian society—Music. Declamation, Nathan. Debate, "Resolved that the United States government should have exclusive control over all its coal mines." Affirmative, Bruins, Walker. Negative, Robbins, Weber. Reading, Hawkins. Oration, Frank Jones. Music.

Irving Institute—Music. Oration, "The Soldier of Public Opinion," N. A. Crawford, Jr. Oration, "A World-Folly," Leon Powers.
Oration, "Poverty and Philanthropy" Harry Langland. Music.

Harvard Professor to Lecture.

The lecture on "The Olympic Games" which is to be given Saturday evening, February 5th, by Prof. Charles Burton Gulick of Harvard university, promises to be one of the most interesting events of the season. Dr. Gulick is on an extended lecture tour under the auspices of the Archaeological Institute of America, touching at such places as Detroit, St. Louis, Kansas City, Milwaukee and Chicago, and we are fortunate in having a lecture from him here. The subject on which he will speak is one of great interest and Mr. Gulick is well qualified to treat it. He has studied and travelled in Germany and Greece, has written numerous philological and archaeological articles, and is the author of a book widely used on "The Life of the Ancient Greeks." He is also associate editor of the College Series of Greek Authors. The lecture is open to the public without admission. Prof. C. H. Weller, secretary of the Iowa Society of the Institute, has the lecture in charge.

While in Iowa City Prof. Gulick will be the guest of Professor S. H. Bush.

IOWA QUINTET BEATEN; MINNESOTA IS VICTOR

HAWKEYES TAKE COUNT BY 22 TO 18 IN FIERCE GAME.

Long Shots Win for Minnesota—Lawler Stars for Visitors, West and Hyland for Iowa.

In a game as replete in roughness as that played on the local floor Saturday night between the Grinnell and Iowa quintete, the Old Gold five went down in defeat last evening to the fast squad from Minnesota, the final count being 22 to 18.

Similar to the battle between these fives at Minneapolis two weeks ago, the first half ended in a draw, each team having 10 to its credit.

West at guard did star work for the locals, piling up three pretty baskets in addition to breaking up Minnesota's plays in veteran style. Hyland also put up his usual order of play, getting two goals and mixing in the fray at every opportunity, the one basket caged by his rival coming while the Hawkeyes were resting with the idea in mind that the referee had blown his whistle for time. Captain Stewart had an unusual amount of "pepp" last night and put up a fine exhibition in spite of the fact that he got no baskets from the field. His team work was of a stellar brand.

Lawler was the star for the visitors. He was after the ball every minute of play and his passing and dribbling was a feature of the game. Hanson also piled up eight points for his men.

Although Iowa was defeated last night, there is no possible objection to be made to the game which they put up against the Gophers. Ryden was out of the tilt, weakening the team to a great extent. Sallander and Schmidt each put up a good game in his position but their newness to the game naturally slowed up the pace for the locals.

Minnesota was lucky with her long shots, a couple of lengthy trials dropping neatly in the net without even touching the rim. In general the contest was rough and as a result the game was slow, owing to the frequent calling of fouls.

The squad will play at Drake tonight and at Ames tomorrow night. Since the latter has defeated the Blue and White five twice in succession, both times by overwhelming scores, but little is to be feared from the Des Moines team. However, Clyde William's men at the farm are in fine fettle and declare themselves to be out for the championship rag. Consequently, doubts are entertained

by some as to the possible outcome of the battle at Ames.

Summary is as follows:

Iowa.		Minnesota.
Sallander, Schmidt	R.F.	Lawler
Stewart (C)	L.F.	Hanson (C)
Hyland	C.	Walker
Thomas, Murphy	L.G.	Anderson Wanless
West	R.G.	Rosenwald

Goals from field: Sallander 1, Hyland 2, West 3, Lawler 4, Hanson 4, Walker 1, Anderson 1. Goals from foul: Stewart 6 in 9 trials, Hanson 2 in 11 trials. Referee: Reynolds of Chicago. Umpire: Davis of Milwaukee.

Hesperian Program Saturday.

The Hesperians will give the following program Saturday evening, February 5th:

Declamation—Lydia Potraz.
Short Story—Hilda Ellyson.
Current Events—Mary Negus.

AMUSEMENTS.

"Hackett a College Man."

Mr. Hackett who will again play "Classmates" at the Coldren Tuesday is an enthusiastic college man and a member of the Theta Delta Chi and Lambda Sigma fraternities, being one of the founders of the latter. Several social entertainments are being planned for him while here as well as theatre parties, and his engagement is sure to prove one of the artistic and social events at the Coldren this season.

"The Climax" Tonight.

"The Climax," one of the head liners on the Coldren's list of 1910 offerings, will be seen this evening at the local play house. The play will be produced by one of the most capable of the road companies. With a capable cast the play is expected to be one of the real drawing cards of the present season.

Wednesday is Limit.

The final date for registration has been given out as Wednesday of next week at 5:30 o'clock. Registrar E. C. Barrett announced yesterday that the registration was proceeding especially well this semester, more than the usual number of students having already enrolled. Mr. Barrett wishes it known that grades cannot be given out at this time owing to the press of other work but that this will be attended to soon as possible.

Burch is Dead.

"Burch," the idol and mascot of Iowa's football team, is no more. Last Monday when "Uncle Jimmy" Barry went to his cage back of the grand stand to feed him, Burch was found curled up in a corner lifeless. Just what was the cause of his sad demise is not known as he had been getting along famously in his quarters.

Burch was brought from Idaho last year by Coach Griffith and was the cause of a great deal of merriment and fun among the football men and students. Last fall he was too big to be manageable and has since been kept in his cage.

1911 HAWKEYES SOLD BY "Y. W." MEMBERS

SUBSCRIPTION CAMPAIGN TO OPEN TOMORROW.

Girls Will Solicit Subscribers in University Building—"No Subscription, No Book."

Business Manager C. H. Crowe has completed preparations for the sale of the 1911 Hawkeye, and subscriptions will be taken this week. The plan which will be used in placing the book on sale is substantially the same as that used last year. With the exception of a very small number for the alumni, the number of books printed will exactly correspond to the number of subscriptions taken. The success with which this plan was attended last year has led to its use again, as the management finds that a much better book can be put out if the sale of every copy is guaranteed.

The taking of subscriptions will commence at 8 o'clock Monday morning. A novel feature of the campaign this year is the fact that it will be carried on mainly by members of the Y. W. C. A. Girls will be stationed in all university buildings, and subscriptions are expected to come in thick and fast.

The expenses of the various religious movements carried on at Iowa this year have been unusually heavy, and have left the association in debt to a certain extent. It is in order to meet these obligations and to finance other projects of like nature that the Y. W. C. A. has agreed to push the sale of the annuals.

Besides the members of the Y. W. C. A., subscription blanks may be secured from members of the managing board or from any member of the editorial staff.

Higbee on "Our Inland Seas."

Last Friday evening Prof. F. G. Higbee of the engineering college addressed the Baconian club on "Our Inland Seas." The sepaker touched upon the history of the discovery and development of the Great Lakes region, and described in detail the canalsand locks around St. Mary's fall at Sioux St. Marie. He gave statistics bearing on the commerce of the lakes, illustrating the lecture throughout by lantern slides. The lecture was discussed by Professors Nutting, Kay, Sieg and Weld.

Plan Delegation to Grinnell.

When the news was flashed over the wire yesterday afternoon that Iowa had defeated Ames in basketball, enthusiastic fans immediately began making plans for gathering a large number of rooters together to accompany the team to Grinnell next Friday evening when the crucial game in the state championship series takes place. If Grinnell wins there will be a third game played here, but if Iowa is the victor the state championship will be almost certain, for Ames will probably be defeated on the local floor.
