A recent report indicates that Burtch's 100-ton water tower is still under construction. Burtch's, which is expected to be ready in time for the opening of the season, will be equipped with an 800-gallon storage tank, and will be able to supply water to the city for at least a day or two without the use of a municipal water supply. The tower is expected to be completed by the end of the month, and will be ready for use in time for the opening games of the season.
