The New Styles, the latest and most advanced types in fashionable cloth, fresh from the best woolen mills in the world, are here and ready for inspection by those who demand quality. It is for the most part an exclusive line and not to be found elsewhere in the city. Carefully chosen, the cream of the products of the cleverest designers in America. We enjoy showing it. Come and see it. Few to equal it in the country. A range of styles wide enough to meet man’s ideas, and a range of prices equally wide, so as to meet all purses, too. High-class, fine and medium line of goods, moderately priced. A broad welcome to visitors.

IDEAL MASON-KEPPORD
(Continued from page one)

Pick up almost any paper and read the account of an accident where a man or woman has been killed by an auto, street cars, automobile, or the like. It very frequently happens that each person was intoxicated to his danger because of a physical or emotional strain. I have prepared such a letter for the University of Iowa and my proposal has met with a most favorable reception, not only on the part of Prof. Maclean and several members of the faculty, but of great many workers along the line of social betterment.
