

MUSEMENTS.

Rann Kennedy.

Rann Kennedy, who sprang from relative obscurity to a foremost position in the world of English drama immediately after the first performance of his remarkable play, "The House of the Rising Sun," was, twenty years ago, an English actor. His country with the Ben Hur several seasons ago, and Edith Wynne Matilda as the central figure in the mystery play, "Everybody's Servant in the House" is now at the Coldren Theatre company which includes members such as sterling Creston Clarke, Frank Lizzie Hudson Collier.

The Real Classy Hats Come From Willner's

At least that's the opinion of the majority of Iowa City's best dressers... We have the new styles that young men demand... we show all the classy shapes and new shades in the celebrated KNOX hats at \$5... also in the new BEACON hats at \$3... and the big hit is our WILLNER SPECIAL at \$1.90 equal to any \$2.50 hat ever produced... See the display...

Have you seen those new STAR shirts for Easter and Spring wear? If not, do so at once, and you'll see some clever shirt patterns and styles... New materials, easy price range from \$1 to \$2.50... Don't miss seeing the new WILLNER CUSTOM MADE SHIRTS at \$1... Very nifty...

"STAY IN IOWA" PLEA UPHELD BY RAYMOND

MAKES STRONG STATEMENTS IN TOASTS AT BANQUET.

Many Engineers Attend Eighth Annual Function—Higbee Favors "Domestic" Athletics.

"More than twenty per cent of the graduates of the engineering schools here and at Ames should remain in Iowa to work," said Dean W. G. Raymond at the eighth annual banquet of the college of applied science last night at the Burkley Imperial hotel. In his toast on "The Iowa Field," he emphasized the fact that the state should be repaid by the engineers for their education in the state schools. Much work should be done in Iowa by her engineers. Dean Raymond pointed out the ineffectual efforts to build good roads that with competent engineers in charge would become successful.

Fully seventy-five engineers, practically every member of the senior and junior classes were in attendance. These listened to the following toast program, in charge of Toastmaster O. L. Johnson: "The Engineering Shops," Prof. Fleming. "What the Engineer Gets at Iowa," W. P. Rawn. "The Transit Instrument," Prof. L. G. Weld. "The Gyrostat," Pres. George E. MacLean. "Concerning the Death of Burch," Prof. F. G. Higbee. "My Experiences in the United States," E. J. Aguilar. "The Iowa Field," Dean W. G. Raymond.

Prof. Higbee in his toast on "The Death of Burch" endeavored to point out the faults in the present athletic situation and as a remedy suggested "that if today all intercollegiate games were to be abolished and in their place should be developed a system of inter-departmental and intercollegiate contests of the domestic sort we would all be more content."

"The best reason the state has for supporting athletics is to provide athletic training for all who wish it. The present system is wrong because it is a system of the survival of the fittest and the fittest least need athletic training."

According to W. P. Rawn, a member of the senior class, the engineering student at Iowa gets a foundation for his work that will fit him to solve the problems he meets during his work after graduation. Prof. Fleming told what the new engineering shops mean to the engineering college. E. J. Aguilar, a Mexican student, made some interesting observations of his stay in this country.

Y. W. C. A. Meeting Tonight.
The Y. W. Meeting this evening at 7 o'clock will take the form of an open meeting.

EXPLOSIONS MARK PRACTICE; BOTH TEAMS ON AEROPLANE

Hanlon Makes First Appearance of Season in the Box.

Loud explosions shattered the springtime quiet at the local ball yard yesterday when the varsity aggregation went against a nondescript combination composed of scrubs and ineligible. Both sides took their turn at the ballooning process, but the trip taken by the scrubs was so much more extensive that small doubt was left as to the final result.

After two hours of preliminary stunts, including workouts for all concerned, Coach Green formed the men in battle array with Jans and Hook in the points for the varsity and Schluter and Williams doing the heavy work for the opposition. Comparative tranquility reigned throughout the first period; but much biffing by Moeller & Company combined with an explosion by the varsity infield placed the scrubs severely to the good during the second session. This spasm sounded Jan's finish and the dandy captain assumed the burden in the box. He was never in trouble except when fits of wildness led him astray, and managed to pull through the rest of the game in good shape, though not unscathed.

Schluter had no such luck, going on the niftiest ascent of the season and taking the whole team with him in the fifth inning. This mishap brought Hanlon to the mound for his first appearance of the year, and "Buck" managed to get away with it until the finish.

"Her Own Way" Tonight.

Tonight will occur the Irving-Erodelphian play, "Her Own Way." The cast has been in active preparation for the play all semester. A novel feature of the play is the children's parts taken by four Iowa City children.

The seat sale has been all that could be desired and by the end of the first day many of the choice seats were gone. There are still good seats to be had, but at the present rate there promises to be a full house for the first amateur production of the literary societies.

Sophomore Notice.

There will be an important meeting of L. A. sophomore class in the L. A. assembly room punctually at 4 p. m. Wednesday. A class function is to be considered.

Rowlison to Address Y. M.

Rev. Carlos C. Rowlison will address tonight's meeting of the Y. M. C. A. on the subject "The Modern Interpretation of God." All the young men of the university are invited to attend this service at Close hall at 7 p. m.

ELECTRIC STARS PART OF DECORATING PLAN

PRETTY EFFECTS PLANNED FOR MILITARY BALL APRIL 1.

New Lighting System to be Used—Decorations Ready for University Dinner.

One hundred and eighty bright new sabers to be used in the decorations for the military ball arrived from the office of the adjutant general of the Iowa National Guard yesterday. These sabres will be used in making thirty huge stars which will be placed on a background of old gold bunting all around the balcony rail of the armory. Each of these stars will have at its center a cluster of lights in red, white and blue.

The lighting of the sabre stars is a part of the independent system of lighting the armory that is to be used on the night of the military ball. The present lights will not be used at all as the committee of cadet captains propose to make a roof of solid flags. Besides the thirty clusters of lights for the sabre stars, the light will be furnished from eight colored transparencies with military designs representing the various organizations of the university regiment, which will be placed on the basketball back grounds.

The decorations of the walls and corners and of the supper rooms will not be announced by the committee until all the materials for decorating purposes have arrived. A shipment of large flags and of decorative military ornaments is on the way from Lilley and Company and a member of the committee will go to Fort Des Moines this week to make selection from a large amount of material that is offered by the quartermaster of the sixth United States cavalry.

It is expected by the committee that the solid roof will be put in place by the night of the university dinner so that some idea can be gained by those present on that occasion of the nature of the completed decorations.

The committee has definitely decided to depart from the leather program idea and have ordered a specially designed military program featured with a military seal emblem in gold on a cover of white enamel. The program will be very plain in design, but especially suited to the occasion.

The list of patronesses has been completed and will be announced later.

Shambaugh to Cedar Rapids.

Professor B. F. Shambaugh was called to Cedar Rapids yesterday on business. His class in political science conference was conducted by Kenneth Colgrove.

NOTED VIOLINIST TOMORROW; ELABORATE PROGRAM GIVEN

Concert will Begin at 8:30 P. M. Instead of 8.

The concert to be rendered by Fritz Kreisler at his recital tomorrow appears below. It is not likely that this greatest of violinists living will be soon heard again in Iowa City, if indeed he ever returns.

The concert will begin promptly at 8:30 instead of 8 as in the rest of the series.

- I.
 - a. Sonata D-major—Haendel.
 - Andante—Allegro energico.
 - Larghetto—Allegro.
 - b. Prelude and Allegro—G. Pugnani (1731-1798)
- II.
 - Concerto A-minor—Y. B. Viotti.
 - Allegro Moderato—Adagio.
 - Allegro con spirito.
- III.
 - a. Grave—Friedeman Bach (1710-1784.)
 - b. Chanson Louis XIII and Pavane—Louis Couperin (1630-1665.)
 - c. Allegretto—L. Boccherini (1743-1805.)
 - d. Larghetto B-flat major—Weber.
 - e. Rondo G-major—Mozart.
- IV.
 - Polonaise A-major—Wieniawski.

The concert tomorrow evening marks the final number of the series of four arranged by the Y. M. C. A. The preceding entertainments have been highly appreciated by those who attended and the management feels that a step has been made in the education of the Iowa City amusement loving public to the best musical attractions.

Student in Monday's Wreck.

Miss Bessie B. Purvis, of Washington, Iowa, a freshman student in the liberal arts college for a month during the second semester of the last year, is in the list printed of those killed in the wreck on the Great Western near Marshalltown Monday morning. Miss Purvis was compelled to leave school because of ill health.

Hesperians Give Program.

The Hesperians gave the following program last night at Close hall: Stories of St. Patrick and their meaning to the Irish people—Ruth Ellison. Recitation—in Irish dialect—Esther Brenpan Irish authors and Irish wit—Minnie Graves. Current events in Ireland—Louise Rhyno.

Uncle of Students Killed.

Miss Margaret Shircliff of Solon, a junior in the college of liberal arts and Clarence Vanatta, a junior medic, left yesterday for West Branch to attend the funeral of their uncle, F. S. Fisher, who was killed in the disastrous wreck near Green Mountain, Iowa, Monday.

BRIGHT OUTLOOK FOR GOOD YEAR AT LAKES

NEW FEATURES BEING PLANNED FOR LABORATORY.

Staff of Instructors to be Larger Than Usual—Applications Received Daily.

Applications by students for the privilege of taking the natural science work at the Okoboji Lakeside laboratory this summer are being received daily by Professor Thomas H. Macbride of the department of botany and it is certain that a large number of students must be refused the opportunity of enjoying this interesting work for the coming session.

Professor Macbride and his corps of instructors are planning new features for the summer session which will add much interest to the research work. The courses carried on by this department a year ago, was a pronounced success and those in charge of the venture are desirous of making the coming year even better than that of last summer.

The course of study at the Lakes will include practical laboratory work in zoology, botany and geology. The staff of teachers will be made up of at least ten prominent scientists of the state. Room for twenty-six students was provided last summer and a few more will be cared for this year. Additions are being made to the equipment constantly and it is hoped that in the near future all applications for study may be granted. However, from present indications it is quite probable that a number must be refused.

North End Team Winners.

By a score of 29 to 0, the indoor baseball team representing the Beta Theta Pi, Sigma Chi, Phi Delta Theta and Sigma Alpha Epsilon fraternities defeated the team of Phi Kappa Psi, Delta Tau Delta, Sigma Nu and Kappa Sigma in the university armory last evening. The pitching of Sallander was the feature. This gives the north end ball tossers the championship.

Senior Class Play Notice.

Tryouts for the senior class play, A Mid-Summer Night's Dream, will be held in the liberal arts assembly room Saturday morning at 9 o'clock. A committee from the faculty will act as judges. Persons desiring to try out may appear in any part they choose, and may select any passage or passages in the play for presentation. Passages may be read or recited as desired.

Every morning except Saturdays and Mondays. Of the Vidette-Reporter the forty-first year and of the S. U. I. Quill the eighteenth year.

Entered as second-class mail matter, November 12, 1903, at the post-office at Iowa City, Iowa, under the act of congress of March 3, 1879.

STATE CHAMPIONSHIP H. S. DEBATE.

Recent events in the high school debating league indicate that that organization is thoroughly alive. Those who predicted a dissolution of the league this year were evidently much mistaken. The debates due to better coaching and an increased rivalry between the high schools have been harder fought than ever before. The victors in the four divisions of the state have won their honors at a hard debating.

This organization means as much to the forensic interests in the college as the high school athletic meets mean to the athletes in the college. It serves as a feeder, as a training agency for the college debater.

On April 23, the championship of the state will be fought for here. The men who will debate on the local platform are the best that the high schools afford and they should be made welcome.

RECORD BREAKING
CROWDS ATTEND

At Baking School in Smith's Armory on College Street—Is a Wonderful Help.

Get a "Cook's Book" free. The attendance at the Free Baking School the past week has been very large, in fact, all records have been broken and the interest evinced by the women of Iowa City shows no sign of abating. On account of this unusual interest, it has been deemed advisable to continue the classes for a limited time so that those who have not been able to attend these most instructive clinics may have an opportunity to do so. The practical information which Miss Jackman imparts, which enables you to do your baking with greatest ease and at the same time be more successful, is desirable, of unusual value. Many women who have attended the classes and have tried out her way are telling of the good things to eat they are making, and what a wonderful help K C Baking Powder has been in securing results superior to any they have previously enjoyed. K C is truly a revelation of goodness and success.

How you may become skilled preparers of baked dishes is taught by Miss Jackman in an easy and understandable way. It does not matter what kind of cake, muffins or other baked dishes are wanted, you are always able to supply the kind that will elicit praise as well as surprise and delight your family and friends. Much valuable information and help is to be found in the "Cook's Book" which is free to users of K C Baking Powder, who will return the colored coupon found in each 25-cent can to the baking school.

At Wednesday's class Miss Jackman will serve the following good

things to eat after telling you how they can be prepared every day: Lady Baltimore Cake, Yellow Layer Cake, and Cheese and Rice Fritters. Don't fail to bring in your coupon from the 25c can of K C and get your "Cook's Book"—you will be as delighted with it as you will be with the results securable from the use of the great modern Baking Powder K C.

Ladies who are interested in seeing the food prepared should be there promptly at 2 p. m.

AMUSEMENTS.

"The Hunger for Brotherhood." "The hunger for brotherhood is at the bottom of the unrest of the modern civilized world." This quotation from George Frederick Watts is one of the thoughts on which Chas. Rann Kennedy has based his great play "The Servant in the House" which is to be presented in this city Thursday at the Coidren by the Henry Miller Associate Players. Taking this as his thesis Mr. Kennedy has shown that the only real and abiding happiness which can come to any human being in this work-a-day world comes through unselfish love of and devotion to the service of his fellow-men. It is a really remarkable company which Mr. Miller is sending to this city for the presentation of this play. No less than three former stars are numbered among its members—Frank Mills, "Howard Kyo," and Lizzie Hudson Collier.

Memorial for Byers.
Oskaloosa, March 22.—The large memorial window which Major S. H. M. Byers, of Des Moines, will put in the First Presbyterian church as a memorial for his son, the late Prof. Lawrence Byers, has arrived and will be put in place this week. It is of beautiful design and will bear a picture of the Madona in colored glass. The window will cost something over \$500 and will be dedicated with appropriate exercises on Easter Sunday.

The Byers family were members of the church during their residence in Oskaloosa, and Lawrence as a boy attended Sunday school here.

Tennis Players on Courts.
Yesterday's sunshine brought out a large number of tennis devotees and the three courts back of the gymnasium were filled the entire afternoon. If the present mild weather continues it is probable that an early spring tournament will be arranged.

Valuable Prize.
A prize of \$100,000 has been deposited at Yale for anyone who discovers a cure for tuberculosis.

IOWA MARKSMEN ENTER CHAMPIONSHIP MATCH

TWENTY-FOUR TEAMS REPRESENTED IN CONTEST.

Most Important Shoot of Season for Local Squad—Mumma Expects Hawkeyes to Rank High.

Today Iowa is a contestant in the biggest college rifle match of the year, the annual inter-collegiate shoot. Twenty-four teams, representing colleges, universities and preparatory schools from all parts of the country, are contestants and a great battle for supremacy is expected.

Every one of the schools which were represented in the inter-collegiate league whose season is just closed, is entered together with fourteen other teams. Of the calibre of these teams very little is known. Very few of them have been in any matches of consequence or have met any of the teams in the league. Last year they were the only ones to place and the same thing is expected to occur today. The real fight will probably lie between Iowa, Columbia, and Washington state, with an eastern military school as a dark horse. The Hawkeye marksmen have beaten the two big teams although they lost to Washington in the recent special match shot to break the league tie.

Practice this week has brought out some very good scores, especially in the "prone" shooting. The men were greatly disappointed in losing the league championship but its loss has made them the more determined to win this bigger match. "I know the men will do their best tomorrow," said Lieut. Mumma yesterday. "I hope we will win."

Iowa's score will be published in tomorrow's Iowan, but the other scores cannot be obtained before Sunday's issue.

Track Tryouts Today.
This afternoon Coach Jerry Delaney will conduct a series of tryouts for the indoor squad which will enter the big meet to be held at Omaha on April 1. At present the competition for places on the team is unusually keen owing to the large number of good men trying out. The races for positions on the relay team promise to be the most exciting of the afternoon's performance.

Prof. Sloan Improving.
Professor Sam Sloan, instructor in the English department last year, is reported as being much improved in health after spending a year traveling in the west.

President MacLean in Chicago.
President George E. MacLean of the university has gone to Chicago where he will attend to important committee work before the meeting of the North Central association of colleges and secondary schools. President MacLean is president of the committee on entrance requirements. Prof. F. C. Ensign will also attend the convention.
