SHOW REAL PROGRESS IN BIENNIAL REPORT

STATE HISTORICAL SOCIETY HAS GREAT THINGS

Prominent in Membership, List of Publications, Influences, etc.

Saliailed and HOMAS

The Twenty-Eighth Biennial report of the Board of Directors of the State Historical Society of Iowa, which has been placed in the hands of the Governor of the State, will have a recommendation to the legislature not less than $6,000 to be added to the general fund of the society. This increase in the support of the Society is made in an account of the growth of the organization, and the ability of the officers of the society in finding new objects of interest and historical research carried on in all parts of the State.

The State Historical Societies in the United States have in common the difficulty in keeping in repair the physical plant. By this it is meant that the question of the building is itself not the greatest, but that it has been neglected so long that the building is not in a condition to be put in order at any cost. The building is in a state of repair, but it is not possible to make it suitable for the needs of the society.

The report contains a financial statement covering the biennial period from July 1, 1908, to June 30, 1910. The financial transactions of the Society are set forth in detail, and the financial condition of the Society is shown in a favorable light.

The list of members shows a very normal increase during the last biennial period. It appears that the number of members in the Society is increasing steadily, and the Society is gaining in strength.

The financial statement shows a deficit, but this is not unusual for a biennial report. The deficit is due to certain expenses that have been incurred during the biennial period.

The financial condition of the Society shows a steady improvement, and the Society is in a position to meet its obligations and to carry on its work.

The report also contains a biennial report of the officers of the Society, and the biennial report of the Secretary of the Society.

The members of the Society are requested to make a liberal donation to the Society in order to meet its obligations and to carry on its work.
Did you see the November Ladies' Home Journal? Did you see it in the advertisement of Pickard Hand Painted China?

The next time you notice the name Pickard, think of the many thousands of lovely pieces that have been made in China. Some rare pieces of this and also new glass pieces just added to our stock.
