DENT S TAKE OPENER
WIN BY FIELD GOAL

DENTISIE S mix auditions for the Rabad FANG. Games.

In the opening game of the inter-department series, the Dents defeated the Engineers yesterday by a score of 3 to 0. The Dents scored in the second period after a series of odd plays by Rabin and Moolen had bought the ball down into the Engineer territory. Here the centers knelt and took the ball on. But Origin preeminent failed to bull the ball for scrimmage and was awarded by the Dents for a goal. Failing to gain after this, Campbell dropped back and looked a field goal for the only score of the afternoon.

In spite of the fact that neither team had had much time for prac-
tice, the game was good form, and Campbell, Kuhl and Boxer won the victory with good form. The second period began, the same way, and Campbell were forced to work for every advantage.

At the beginning of the second half Standup of the Engineers made some excursions in his line, and the front men were more or less against the Engineers. But this period the Engineer's added a slight margin, but never seriously threatened the victory. And so the score is the same as it was in the first half, the Dents 3, the Engineers 0.

For the Dents, Campbell, Kuhl and Boxer played good games. Bodies and Payne, both of students, have now won the victory with good form. The second period began, the same way, and Campbell were forced to work for every advantage.

There is no other event where the rivalry is so keen, nor the spirit of the glee so sharply grounded, and where the decision is so fascinating and consummated. The core of the whole state is stirred upon this struggle. It is one which merits the winning.

The big, excited lads of every student in this university that victory will be ours. It is the important claim of everyone to be present on the sidelines to cheer their man on to victory and it is believed that Iowa girls are going to make a memorable showing in the last bloodless, judging from the daily visuals heard on the campus in the effect that many expect to make the trip. This is what is wanted.

The team needs the assistance of every person who has a possibility in the area.

It is believed that Iowa has more than enough to win the thing, but the more we fail to get to the arena, a growing contest is in danger of being neglected. No one ever, an agreement on the part of either of those old-time clubs—the battles of victory are too dear and stigma of defeat too telling.

H-J-S. About November 15, 1849, at the post-office at Iowa City, Iowa, printed the first number of the Iowa City Argus.

In 1854, the Argus-Telegraph was established and continued under the same ownership until May, 1859.
