INTEREST IN WRESTLING

Wrestling is apparently destined to become a strong sport in this community. Starting three years ago and attracting the slightest attention, it has this year succeeded in drawing some tens to participate in matches. Besides, the propo-

sals as a winter sport is continually growing, much to the pleasure of those who believe that there should be a speedier increase in m pruning activity.

The sport of wrestling can appear respectable. Looked at in its physical aspect, it is perhaps one of the healthiest forms of exercise—branches of athletics offered at present.

But, aside from the fact that It may be conducive to the development of a great physique, it constitutes a valuable form of exercise, and one in which many may indulge. In respect to the criticism generally levelled against collegiate athletics, it seems to constitute one of the exceptions to the accepted rule. It not only promotes health, but also develops the competitive spirit, which is of the utmost importance in health building.

Last winter more than ordinary interest was manifested in the then two-year-old endeavor. This win-

ter it is pleasing to note that the former interest has not only been re-

erved but has been distinctly increased. This is due, no doubt, to the increasing number of wrestlers and the university public. Last year a house tournament to de-

vote exclusively to this sport was conducted in various places throughout the eastern section and the establishment of a successful one this winter even more promising things are in store. Arrangements are now under way to make the realization of an inter-collegiate contest.

Such a project needs with
