ICK TO ALMA MATER IS SLOGAN FOR 1911

ANNUAL ASSOCIATION IS GETTING READY FOR ENTERTAINMENT.

Robert Parrish of Chicago as President-Thrust in Handling Meetings

Under the supervision of Randall Rowsh of Iowa City, the plans have already been outlined. The annual assembly of the University of Iowa, the national gathering of students and alumni of the state university at Iowa City, will be held May 15th and 16th. The assembly will meet for the purpose of organizing the Iowa Alumni Association, which was formed last year.

A special feature of the assembly will be the Iowa City Bowl, which will be held on the afternoon of May 15th. The bowl will consist of a series of games played between the various school teams from the state of Iowa. The games will be played on the football field of the Iowa State University.

The assembly will be preceded by the Iowa City Band and the Iowa City Orchestra, which will perform at the opening of the assembly on May 15th.

Tickets will be sold at the door, and a special ticket will be required for admission to the games. The cost of the ticket will be determined by the organizing committee.

The assembly will be held in the Iowa City Armory, which will be located near the football field.

The assembly will last for two days, and the games will be played on both days. The schedule of the games will be announced shortly.

Overcoats and sailing kit will be in the Iowa office by Feb. 10 so that every student in the university, who wishes to have one, may have it just before leaving for the winter.

Why Do We Print?

It is probable that about two weeks from this date there will be several students who will be attending the university of Iowa who will be wondering how all the people are getting along. They will be asking why they have banked accounts, which will be in the professors and others will be reviling, but the number who will put the blame on themselves is very small.

It is in parts two reasons for banking. The first is that the student has no purpose during the term to which the term.

The second is that he is not fitted to take that particular kind of work. The foreigner is the same reason, the latter, the teacher.

If the student knows why he is taking a particular course. If he knows what he is to be doing as the knowledge he receives in this regard the chances are good that he will not fail, and that he will, in fact, do excellently. However, if he takes the course because he thinks it is a must for him to have, and because he thinks he must take it, he has an assignment against his getting a passing grade.

There are many evident students, especially in the professional colleges who know why they are taking their courses and have a definite purpose in mind but they fail because they are not fitted by their previous mental training, or by their mental equipment to pursue the work which is being set for them in conjunction with the course.

"Five Covered League"—One was from Wisconsin, the other from Illinois and the last was from Michigan. The outcome of the details was the closed shop. Iowa has won from Wisconsin six consecutive years.

Dr. King Writes Articles.

Dr. Irving King, the department of Education of A. U. I., has contributed valuable articles to the two leading educational papers of America. The Harvard Theological Review for January, 1911 contains an article by Dr. King on the subject, "The Problem and Promise of the Science of Religion." The January issue of the Journal of Educational Psychology contains an article by Dr. King, entitled, "The Problem and Conflict of a Child in Social Education."

CITIZEN TO PETITION.

Some of the business men of the city are waiting to oppose the enactment of the Iowa law to raise train fare. A meeting has been held and an organization has been composed.

An appeal to the number of signatures of the petition which was made to the students has not been made to those in charge of the matter. It is probable that this will be done in the near future when petition will be presented to the legislature.

HISTORICAL TRIP.

The winner of the trophy indicative of first place in the Iowa high school contests at Des Moines next Friday will be given a special prize. A big state of statues, three feet high, weighing about 150 pounds has been selected on the ground by the Greater Des Moines committee.

"Victory" is the work of an European sculptor, M. Rusch. It is an elegant design and will grace one of the announcements of the university if it is won. The local club has now been ready for the series of activities and it is hoped that a large number of students will go with the team to Des Moines.

An announcement to the state convention providing for the transfer of the last two years of the Medical School from Iowa Wesleyan College to Des Moines, is now pending before the people of that state.

New Instructor in Public Speaking
Will Arrive Soon.

The name of the new instructor in the department of public speaking was announced yesterday. Miss Honor
an B. Harrison, of Cleveland, Ohio, is the one who has been selected for the place, which was made vacant by the resignation of the present instructor, Miss Fillie Dillon. Miss Dillon was forced to resign
because of her health, and will probably return to her home, although her plane has not been announced. While here she has won many friends. Miss Dillon also has been prominent in the local stage in years. Miss Harrison will arrive in Iowa City in the near future and will take up her work at the start of the new
school term. There will be no break in the work of the department. W. K. Jones will continue in the acting head of the department.
