I. Pursuit can certainly be given credit to the end of the education. That house, 7 o'clock.

II. recognizing frivolities, is generally a moment and think whither we are for four years of their own time and University what they should be.

III. By H. B. vol. 00

IV. Copies for sale and subscriptions to the men who enter meeting and any home meet, and any such events as are given in recent years. We ask you to walk down in the literary on Iowa 2:16 on Saturday and show our appreciation by a little meeting.

V. Series of Life-Work Meetings. Secretary H. T. Williams of the Y. M. C. A. is planning a new and interesting series of meetings for the immediate future. In view of the fact that a great number, probably over fifty percent, of the men in the literary Arts college have no definite idea of what their future destination in life is, the secretary has planned a series of meetings to throw light upon the subject. To this end he has arranged for a number of "life-work" talks, at the mid-week meetings of the Y. M. C. A. The first of these will be given by a writer, who, having knowledge, will speak on the relation of the law to Christianity. Other talks will be given by a woman in work in the somewhat the business man, the Christian minister, the doctor and the women students. speaker at Sunday meeting, and Miss Hiltich will render a piano solo.

VI. Notices

- Notices received at office before 8 p.m. will be published.
- Notices intended for this column.

VII. KUPPENHEIMER

Steady a bit when it comes to charging for the best hand tailored, made to order, at reasonable prices. We’ve guaranteed all wool fabrics and washable fabrics.

SPECIAL PRICES:
- $17.50 to $27.50

Garden Time

Do you get hankie for mother’s table at this season? The country is lovely and not buying enough fresh garden vegetables from the home farms. Lettuce, onions, radishes, tomatoes, etc., make a real pleasant.

The well-dressed man is he who pays particular attention to his neck¬
dress.

A slovenly, ill-fitting collar will mar the whole effect of man's dress.

WORK GOING FORWARD
ON NEW PHYSICS HALL

Interior Bill in Unfinished State—
Students to Work Through
Summer Months.

But one more story and the walls of the new physics building will have
reached their full height. It is not
for nothing that the third of heavy
steels, the chuck of steel in shape,
the ring of hammers on steel beams, the
crack of crises, the racket
of chains and the sounds of freemasonry
have been heard at the top of
February. For out of the work
which these noises have raised result
the masterpieces.

Some direct realization of what
the completed building will look like
is now to be had. The immense,
magnificent walls, the roof and
west sides of the building are complete and cer¬
tainly goes to be an imposing appear¬
cance. The details of the stones on the two sides of the building are different, those on the
north side being rougher and larger because of the greater height in columns.

Although the lower part of the building is apparently complete when viewed from outside, the interior investiga¬
tion into the interior reveals any¬
ting but a finished appearance. When an interior reporter walks forth from brick and beams to investigate the inside of the build¬
ing yesterday afternoon he found the rough walls, rough beams and rougher finished walls. Walked off spaces that will soon be trans¬
formed into finely finished rooms, had all the requisite appearance of dam¬
pel rooms and opening which will soon be filled by artifacts支架es and unimaginable.

A full force of men is now at work
with the result that the work is go¬
ing forward very rapidly. It is proba¬
bly that when the university year
is over a number of the students will go to work on the building, starting with the summer months.

The remainder of the walls will probably be erected within the next six or eight weeks. The work will then be a matter of inside finishing, which is rather important.
