With the close of the current school year, William J. Jones, head of the Public Speaking department of the university, will retire from that capacity, thus completing three years of successful work at Iowa. Although the situation was tendered to Mr. Jones for the coming year, he after some consideration and deliberation felt forced to decline his new position, and so informed to consider his re-election in the position. Mr. Jones came to Iowa in 1914 and was very successful in formal and dramatic work during the following four years, being an inter-collegiate and inter-state. After his retirement in 1914 he was elected to a position in the high school at Cedar Falls and there taught the debating team of the high school, and as a result the team won a prominent place in the state. The next year he was re-elected to the same position for the last two years, and is now relieved. Nothing has been done officially by the board of Educa- tion with regard to a successor to Professor Jones, though it is expected that some action will be taken very soon.
