HAWLEY, ARRIVING, SEES GOOD YEAR

NEW MAN COMES TO DES MOINES UNIVERSITY

Football Freshman Beginning to Show—Hope for Western Monarch This Year

Coach Jack H. Hawley arrived in Des Moines yesterday, and while he was the center of interest and activity in athletic circles, Hawley had been traveling out of Chicago some summer.

Among the first to greet the coach when he arrived was Mr. John Nettleton of last year's team, who came back unexpectedly yesterday and reported himself in good condition for the fall. Mr. Hawley has been in the city since last February, and the posters had about given up hope of his return.

The president will add another to the string of veteran Cornets who will try to please and make Iowa's prospects much brighter.

Hawley expressed himself as well pleased with the prospects for a team of champions this year. Everything looks good right now," in the way he puts it. "We have a great bunch of old men back, in fact our veterans except Thomas, Hyland, and Webber will report next Monday."

Coach Hawley's optimism was shared generally by the crowd at the big senior social at the armory last evening, and football was the major topic discussed by the speakers. From now on the university will give over much of its time and most of its thought to the great full sport, with the chances of making a hit for western honors for the first time since 1908.

Gardner, the Sioux City high school coach, arrived early yesterday and will try for a good position which he filled for last year's freshman team. His presence adds greatly to the prospective strength of the team.

Professor Hart Returns

Professor Percival Hart returned to the city this afternoon and went immediately to meet his classes. Professor Hart has spent the summer in Europe, extending an extended tour.

Hawley meets the men early in the fall, with all the usual jocularity and good humor that goes with the making of new acquaintances and of friends after the long summer vacation. This meeting was the signal for the great college football excitement. The season is set to open in the various activities which make for the marvelous interest of the fall semester, and Hawley, as the successor to the late Geo. V. Wilson, will try to do his work in the spirit and tradition of his predecessor.

The first letter was signed Aug. 9th by W. C. Wilson.

Over Fifty Young Men Pledged to Eight Secret Societies Yesterday at Iowa

The fraternity and sorority rooms were full of eager pledges from the list it is easy to see that no one territory predominates this year, and this also goes to show how Iowa is drawing upon a much larger field than ever before. Owing to the ruling among the students, there was much suspense and hand wringing yesterday in the different houses, but when the time arrived for the pledges to be sworn in the world was one large and joyous dream. Oscillation was of a brand that no man knew. The fraternity rooms were extremely crowded for that matter. The old, the new, the salt-norted, salt-nurtured and salted, spent the entire evening and were more jolly and contented than ever before at this time of season. The sorority rooms were as joyful as any other.

Philo Stag

This evening at Close Hall, at 6:00 p.m., will be held the Philomathean stag, which is held at the beginning of each school year for the benefit of the freedmen of the university. Every freshman or new man in the university is invited to the whole.

A short toast program is being prepared, and refreshments will be served. Every case is being taken that every new man may meet every other new man, besides meeting a great number of the old men of the university.
