IOWA UNION OPENS FOR MEMBERSHIP

PROFESSOR BENJAMIN F. SHAMBAUGH FIRST APPOINTED

Manager Gordon Enthusiastic Over Prospects of Successful Institution

Iowa's new Student Union will be formally opened Monday night as membership is expected. A. C. Gordon, student manager of the city предприа, will be in his office as Unity Hall practically all day to handle applications and answer a good deal of

by way of entertaining.

The new building is a good size and standing. Every family member is eligible for membership, but he is not required to join and only a few are expected to do so. This is the capacity of the
dining room and the number which he will be shown in the official program and appli-
cants should apply for board. If he wishes to be a member, he may have application made by his college, college students, or parents of minor students for membership from the college.

If applications are accepted by a check for the payment of the membership fee, was received yesterday from Professor Shambaugh. The membership fee urges everyone to join who can be accepted, the applications will be handled by the new Student Union.

Manager Gordon is enthusiastic over the prospects with which the new institution has been supplied, and urges everyone to join who is eligible for membership.

"Everyone should join him who wishes to be included in the fellowship of the Student Union, and every member will have a beautiful club which in a manner he can match his fraternity assignments, a place to watch the games, a clean, well-prepared and maintained meal room for the meals, a place to study and enjoy the company of his friends, and after many years of good service, a place to smoke and read his favorite novels or magazines.

Full Townsman Planned

Assistant Professor Herrard of the English department was the re-

tapped acting manager and is ready planning a full townsmen.

Increase in Medicine

The general increase in the number of the medical society, the library, and the student organization, is due to a greatly increased number of applications for membership, which is almost complete, shows an increase of about 50 per cent in the last year.

A similar increase is expected in the other classes of the medical depart-

The registration of which is yet uncompleted.

Poor Boy’s Chance to Study Medicine
Any poor boy in the state of Iowa has a unique opportunity to obtain a medical education, the medical colleges of the state university at minimum cost. This is one of the forefronts in the annual report of the council on Medical education, recently published by the Journal of the American Medical association.

Among the numerous tables of statistics given in the report is one which deals with 126 medical colleges with whose report deals grouped according to the amount of fees charged and the ranking accorded them by the council in classes A, B, C, Iowa has the distinction of being listed both among the class B colleges and among those requiring small tuition fees.

Commenting on this the Journal of the American Medical association states: "This clearly refutes the assertion made by some inferior colleges that they are needed for the sake of the poor boy who wants to study medicine." The college of medicine of the State University of Iowa was organized in 1853, and is the first class granted in that year. The faculty is made up of 48 professors, lecturers, demonstrators, and assistants. Two years of collegiate work, including courses in physics, chemistry, biology, and geology, are required for admission.

Clothes, Notice
Why pay $3 for a pen when we offer you the same pen in size of point and barrel for $1.50 during the Sans pen sale at half regular prices. At Taylor’s candy store, Clinton street.
