TODAY SEESE Finishes OFFICIAL SCRAPs

NO TESTS WILL BE HELD FOR OFFICERS' POSITIONS

Changes in New Manual Make Examinations Inevitable

Conduct (in the announcements), the examinations for commissioned and non-commissioned officers in the student body will be held at 2:30 today.

A copy of the new manual has been received by Commandant Murphy and the changes made are so numerous and so radical that a knowledge of the old manual is of little or no value.

The new manual has not as yet been reviewed by the book stores and consequently the candidates for appointment have had no chance to prepare for the scheduled examination.

Captain Muirhead has decided to make these examinations an official feature.

The examinations have been

Leads and others in cooperation.

No similar building in the world will be ready when completed when completed.

As stated in an interview with Prof. G. W. Bostwick, the head of the physics department, who has personally inspected the physics department in most of the large universities, the new physics hall will be the equal of any in existence.

The building will be ready when completed.

This building will be ready when completed.

The main hall, which is 100 feet north and south and 225 feet east and west, has four stories and every room is in its place.

There are four main entrances, east and west, and on main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. At the end of the building there is a large, circular stairway in the center, which leads to the roof, and on the main entrances lead to a vestibule of Josie marble, from which stairways to the right and left cources up to the floor above. A DAY OF DAYS
The university wakes this morning to find itself facing a crisis in its political life. As, at least, every candidate on every ticket which comes up for the voter's choice today, will have no choice.
Yet we have seen such crimes before, and for some reason, probably no special, because the right candidates have always been elected, the university has gone on without much trouble, and everybody has promptly forgotten all about it, any day.
And there is another possibility—that it would not have made such different who wins election any time. A horrible suggestion, it is true, and yet, it appears to us so reasonable on the material and so all-important as we are sometimes led to believe by the tremendous evils made by the electors before election time.
All of which is to say that there is to be no choice in candidates.

Sunny Girls Notice
All senior girls should see Coats' or Miss Snyder’s about ordering their summer suits at once. Only a few hours days to order your suits.

“Hawkeye” Dances Instituted
The 1913 Hawkeye board is going to introduce an idea in the boosting line this year in a series of dances which will be given throughout the year. The first of them will be held next Friday night at Company I armory.

The most ambitious single act seen at the Bisons this season is being offered the latter part of this week. The Valea trio furnishes a cast of three gnomes of high rank and several acrobatic dogs. The work is not confined to the usual acrobatic stunts but is mixed with a large amount of comedy, and furnishes fun and entertainment galore.

Who? When? Why?
