NEW MEMBERS CHosen BY FRESHMAN SOCIETY
TWENTY MEN ELECTED BY SI MU

Initiation to be Held Between Halves of Iowa-Anes Games—Party That Evening

At a meeting held yesterday the following men of the freshman classes were elected to membership in S. M. in the freshman honorary society:

Pat Aikvadh, James Barry, Art
Bender, Henry Boyd, Roy
Bolling, George Williams, Howard
Burke, Stephen, Harry Fifer, Elmer
Daly, Harriett, Jerry Lee, Max Mark,
H. Vic Meyer, H. Hartorg, George
Williamson, Lawrence H. Martin, A. K.
Herr, Graham Falme, Nat Rettig,
John, L. Roviett, A. K. Wetherall,
Bill, M. K. Hinkle, George Wood
A. M. Luhugg, Merle, William, W. F.
Shea, L. H. Thordarson, L. B.
Marguerite Killick, Marjorie
That is, the number of pages
was still very low, the text
was not printed in a very
regular way, and the
pages were quite thin.

In general, the content of
the document seems to be
related to the activities of
various societies at the
University of Iowa, includ-
ing initiation ceremonies
for new members. There
are also some references
to football games and other
social events. The document
appears to be a student
publication, possibly from
the Daily Iowan, a known
student newspaper at
the University of Iowa.

Overall, the quality of
the text in this document
is quite low, with many
mistakes in spelling and
grammar. However, it
provides some interesting
insights into the social
life and activities of
the University of Iowa in
the early 20th century.

M. E. Quick, Business Manager, to be

answered.

BARGAIN Hankers for sale.

At the risk of repetition, we beg

you to urge again the advisability

of attending the series of concerts

offered by the Advinency board of

the Y. M. C. A. Since the announce-

ment of the program, there can no longer

be any doubt in the minds of anyone

as to the nature of the offerings; and

at the price asked for the tickets

there are few who can afford to stay

away.

Moreover, the purchase of a single

ticket means that aid will reach a

worthy cause, regardless of the

length over which the Christian

Association holds in the university,

and any argument as to the

issues for giving it all away

is more platitudinous.

But both from the standpoint of pleasure and of profit the Iowa student ought to be a club-

and attend every number of the

coming concerts.

ANOTHER WORTHY CAUSE

While booster the Young Men’s Christian Association, we must not

ignore the claims of the co-educat-

ional andacional)

i.

The Y. W. C. A. is also offering to

the public an entertain-

ment, which, though of

exeration, is still of no small in-

terest to the Iowa student. Of

course, we mean the coming musical chamber.

There is a place for the

Fitter comedies of life, and although Iowa men may not enjoy being held up to the light of public ridicule,

there seems little likelihood that any serious damage will be done. Last

year’s show made a name for

itself as one of the most encouraging of the year, and from the elaborate preparations being made and the na-

ture and style of the music, one can see the coming season will not be one of the really amusing events of the seaso.

... the

... that they are owned by the Morcan-Guggenheim Interests. The government, however, will probably not do more than attempt to help them in the fields. The reason for their inability is the fact that considerable development has been going on at the present moment. The Morcan-Guggenheim Interests, the government, is only interested in making itself independent of the mining interests by the building of a railroad from the town of Katulla.

The lecture amounted to an expose of the United States government interests in the Klondike gold region, and it was also an expose of the geologic time than those fossils. The speaker, in the opinion of Prof. George F. Kay, who delivered the lecture, did not make the required reading of the Sigma Xi scientific section of the speech. The lecture, if read carefully, would show the government and its officials that our country is in a very critical situation and that it is very necessary to be prepared to meet the situation.

In general, the fields are in the Copper River region, declared the speaker. "The front on what is known as the Copper River Front, which the government is now attempting to develop, is in the northern part of the state of Oregon, on the coast of Kamchatka, some five miles inland. Millions of dollars have been expended in this great excavating field, but it has not yet been proven that the problem of the placer is charged to avoid the winding rivers and precipitous mountain slopes. The principal part of the mining being carried on is that mining.

The beds are of common origin, but the richest are of a stratified nature. The principal part of the mining being carried on is that mining.

"It is not the intention that we are satisfied with the present mining operations, but the intention is to increase the efficiency of the mining operations and to increase the efficiency of the mining operations in the future.

"The climate is particularly favorable to mining. The temperature is moderate and the climate is very healthy.

"The climate is particularly favorable to mining. The temperature is moderate and the climate is very healthy.

"The climate is particularly favorable to mining. The temperature is moderate and the climate is very healthy.

"The climate is particularly favorable to mining. The temperature is moderate and the climate is very healthy.
