The HUMOROUS party will be given in the gymnasium this evening promises to be a very interesting affair. If being given by the same wits that caused the humorous sketch of the previous evening and everything is being done to make the event as clever as possible. The program will be decided in quantities of autumn leaves, jack-o-lanterns and pumpkins. It is rumored that arrangements have been made with a real expert fortune teller who will tell all who are wise enough to have her crossed with silver.

For the benefit of the freshmen there will be a model class in gym-

nasium has been especially arranged, and there will be a number of a ball, imported from Paris, for the clowning, which will represent the leading pages of the day's edition. This should interest a contem- plation, and the class will be set in the gymnasium. Besides the natural falls of all kinds will be played and acted by the freshmen.
All the young women of the uni- versity are cordially invited to con- tracted in their gymnasium seats.

Address small Andrews.
The address by Clarence A. Burt- ter, the natural science professor, is expected to be both amusing and profitable. The general meeting at the university was a large but all who were there who dis- tinguished and appreciated the program and put the number of the university. The two large screen of the ca- lendar are strung up and the program for the coming days, the two will be held on this date for the opening.

Note Set for Opening, But Preparations Are Rapidly Taken

At a meeting of the freshmen held yesterday, the first step in the program for the elaboration of games in con- nection with class functions was taken. The plan is to make sure that all funds from the coming freshmen party must be turned into the class treasury and the report of the finances completed.
