Hawley set his men through a stiff signal practice last night behind closed gates on Iowa field. Iowa was mentioned in connection with the work done, but the men were dismissed early because of their hard work.

Recap: The Hawley team came through the battle with the Boilermakers in good condition, much better than expected. The Hawley team was able to maintain their success and come out with a win. The game was an exciting one, with the Hawley team showing great determination and a solid defense. The Hawley team's performance was praised by the fans, and they were left with a sense of pride and satisfaction.

CULTURE AT IOWA

The student attendance at purely cultural entertainments, and at the meetings of the organizations of family men or students held in the university is small. Few among the student body avail themselves of the opportunities offered to hear the best in music, literature and science.

This disregard of the purely cultural shows that the average student is not alive to the meaning of a composite life. It is not enough to gather knowledge. The college man should be acquainted with the best thought of the age. He should be able to converse upon such subjects as art, music and science. He should be a thoroughly man, keen and appreciative of the beauties of life and the mores.

These is the university who seek with college have brought to the opportunity to find it accordingly. Music courses by such artists as Schuman-Heintz, Kreutzer and Didel- sk, are offered. Students of literature can get lectures on Shakespeare, Drama and Music. The student who wants purely Intellectual courses may hear lectures on Education, French, and History. The student who wants purely Historically courses may hear lectures on Economic Science, Latin and Greek. He may, each week, he has an excellent literature on some new problem in science.

These entertainments and lectures become the more interesting as they are given daily. They are to the student the means of a liberal education.
