MINISTREL SHOW EARLY IN JANUARY

Some one will be a better singer at Thanksgiving dinner than Mr. Wallace was at the banquet.

The management of the annual is putting forth its best efforts to make the annual one of the best ever made in Iowa. After careful consideration of all the best engraving companies in the middle west, the engraving contract was signed by the Chamber of Commerce and the engraving firm will be announced later.

This firm makes a specialty of annual work and by special arrangement the Hawkeyes is to have free access to their art department.

Hawkinson is one of the most interesting companies in the United States that has recently installed the wonderful new German process of engraving. Known as the "Art" fluct" method, this process is the most modern.

Mr. Wallace's Hawkesy is absolutely assured the very best art and engraving that money can buy.

The Hawkeye staff and management are especially dedicated that the Hawkeye will be the best annual ever published. To the university staff and the university faculty, this is a personal interest in the book. Everyone in school is especially interested in the annual and the management believes that this is the best opportunity that comes to his notice.

The Hawkeye is being kept as clean as possible by the use of soap, by the use of water, for work, and by general cleanliness. The Hawkeye is being kept as clean as possible by the use of soap, by the use of water, for work, and by general cleanliness.

An annual or a minstrel show, either one of these last, will be a great success and the Hawkeye will have a great place among the men.
