THE DAILY IOWAN

IOWA CITY, IOWA, WEDNESDAY MORNING, NOVEMBER 29, 1911

HAWLEY WILL RETURN TO IOWA NEXT YEAR

NEW CONTRACT WITH ATHLETIC BOARDS

Jesse H. Hawley will coach the teams in 1912 and 1913, the financial information given out after another important meeting held yesterday by the Board of Athletics. The Iowa was well satisfied with the work done by Hawley in the two years he has been here and elected in offering him the position for another year. The coach accepted the offer and the contract was signed on date.

The THEORETICAL DRILL SCHEDULE ANNOUNCED

With the prospect of the longest Thanksgiving room in years just ahead, students today are hearing Iowa City on many occasions, by the evening over half the entire number will be out of town. The Thanksgiving mid-year this year will extend from noon today until 1:00 o'clock, as a result of an important meeting held on Sunday night, when the students who live within two hundred miles of Iowa City will eat in the faculty butter, but those who live farther away are the ones who are paying in town, as half of their time this week would necessarily be consumed in getting home and returning.

Another line of division is marked by the treatment, which will prove generally most anxious to get over. Many of these have not yet had a chance to tell the girls their ideas about the thanksgiving butter during the big butter shortage in a prevalent disease among the older students. The Thanksgiving and spring vacations are among the most enjoyable periods of the year to those who stay over.

The THEORETICAL DRILL SCHEDULE ANNOUNCED

Under the head of general orders No. 5, Commander Mummie yesterday announced a new schedule of military instruction. After the halftime, two companies only will drill in the army room on the same day. The other companies will receive theoretical instruction in the army room for the same number of days that the cadets have with two drills weekly, one theoretical and one practical. Later on the schedule will contain one more drill of the same rank. That is, captains and lieutenants, sergeant and corporals, and platoon-NCO's will have instruction in separate divisions.

The companies will meet as follows for practical work in the army room: Tuesdays and Fridays, A and B; Mondays, C and D; Thursdays, E and F.

The signal corps will meet on the third time; Hanson, Trickey, Murphy, O'Brien, Hanson, Trickey, Ney, Buckley, and Curry for the second. In the army room, Tuesday, Wednesday, and Thursday.

The Thanksgiving mid-year this year will extend from noon today until 1:00 o'clock, as a result of an important meeting held on Sunday night, after which the students who live within two hundred miles of Iowa City will eat in the faculty butter, but those who live farther away are the ones who are paying in town, as half of their time this week would necessarily be consumed in getting home and returning.

After Thanksgiving, practice will commence in earnest and with the large number of last year's cadets that are back in school and several courses from various military schools, an extraordinary team should be developed. A large number of the men who are back again and that the championship of the country last year will again be feasible. Both the Hawley brothers in school will be available, along with the other cadets. Ammon, a man who stood high in the cadets last year has undoubtedly added to the number of games to be given. Furthermore, Trumpeter's and Trumpets can also be depended upon for some crack shooting.

The first matches will be shot off early in January when the first practice will take place. The Thanksgiving mid-year will be open to the members of the rifle club for practice and will be given a chance to get in time before the real competition begins.

The Hawley brothers, again at the center, are the question as to whether Iowa will, as last year, stand prepared for the university schools of the country. The Thanksgiving mid-year will be open to the members of the rifle club for practice and will be given a chance to get in time before the real competition begins.

With Captain Mummie again setting the pace as far as his question as to whether Iowa will, as last year, stand prepared for the university schools of the country. The Thanksgiving mid-year will be open to the members of the rifle club for practice and will be given a chance to get in time before the real competition begins.

The Thanksgiving mid-year this year will extend from noon today until 1:00 o'clock, as a result of an important meeting held on Sunday night, after which the students who live within two hundred miles of Iowa City will eat in the faculty butter, but those who live farther away are the ones who are paying in town, as half of their time this week would necessarily be consumed in getting home and returning.

A. CORNELL- VIEW

We reprint here a Cornell view of the comparative contributions of Ames and Iowa. As far as we know, there has been a great deal of knowing about the Ames part of it, but we are glad to say that, except for a occasional and infrequent outburst, there has been nothing of the almost obsolete grous, neck, it does represent the Iowa attitude toward visiting teams and offi-
