The Colours Players will come to the Colours on Monday, January 25, to play a professional "The March of Yeas," in a return engagement. In this drama, the players have altered New York and the largest cities for a number of years by their splendid performance, are sold to have a large portion of which will show their dramatic powers at their very best. The~emainans and costuming is promised to be of special interest. The company has taken such a high position on the American stage, that the engagement should be one of the great dramatic seasons. The management of the local theatre, in making special arrangements for the advance sale, the box office will be open three days previous to the opening sale. Orders by mail, when accompanied by express, postal order or certified check, will be filled in the order they are received.

"Baby Mine," Coming

The announcement of the Colours for January 26 to Mangold's historic fancy county." "Baby Mine," which ran for one solid year at Daly's theatre, New York, and is now in its second season in London, at the vaudeville theatre. "Baby Mine" is continued to be one of the most diverting comedies ever written. New ventures are difficult and new trails hard to follow, but in "Baby Mine" Miss Mary is said to have written the typical comedy upon an absurd and original idea with an air of possibility and plausibility. It is a laugh play, a touch for old and young, a comedy for all tastes. The demand for "Baby Mine" comes from everywhere. Its production will shortly be made in Paris, Berlin, Vienna, St. Petersburg, South America, South Africa, Australia and Japan.

An appropriate verse will close the bottom of each page. Each institution cave has started with regard to the right of code of dress to wear the "very special" costume at the University of Washington. Most claim that they have no right, as the "W" is only worn in inter-class contests and the code has "been striving heavily to fix this.
