FRESHMEN PARTY TO BE HELD TONIGHT

Freshmen will make merry on University Armory Floor

Entertainment provided for those who do not dance — upperclass men may come if accompanied by freshmen.

The first big social affair of the year will be held this evening when the freshmen hold their college party in the university armory. The committee in charge have been working hard for several weeks and they promise this will be one of the best affairs the Iowa students have ever had.

Every freshman is expected to be present, for it is believed that this is the one big "get-together" of the freshmen and the best chance of the year for them to get acquainted. Every freshman should either bring a date or be present on behalf of his or her own out-of-town friend.

The armory has been cleaned up for the students who do not go out upon the floor.

INT. J. C. Pomroy to LECTURE TO STUDENTS

To Report Scientific Measurements to Physics Seminars, Tuesday, November 26, at 4:30

Dr. J. C. Pomroy, formerly of Princeton and now of Iowa State College, will lecture at the physics seminar on Tuesday at 4:30.

For a number of years it has been known that a heated metal will attract particles of matter charged with electricity. The study of these particles is very important because the results will undoubtedly lead to a great deal of light upon some of the most important questions in physics. Dr. Pomroy will report upon his measurement of the charges carried by these particles.

The public is invited to hear his discussion of this subject.

SOKOL PICTURES NOW AT LIBRARY

Five Photographs of International Tournament Held in Prague, Germany

A fine collection of photographs portraying the international fistic rush in Prague last summer are now on exhibition in the reading room of the university library. They were loaned to the university through the courtesy of Mr. Philip of Cedar Rapids, who is one of the directors of the Sokol association in that city.

The Sokol is an athletic association extending all over the world, and composed of people of every nationality. At the tournament held in Prague last summer, 26,849 men from every part of the earth met in the capital of Bohemia, to give the strangers a display of their strength and athletics. Of this number, 19,000 were women and 6,800 were men.

The affair was notable as being a meeting of all the Scenic people of every race, and many of the best known officials from the United States. To witness this gathering of athletes 100,000 visitors were present, and one event was witnessed by a crowd of 25,000 spectators. The affair lasted eight days and was a continuous succession of sports of every description, from a maximum athletic exhibitions, chamois sports, enthrallment, and drills by school children.

The photographs loaned by Mr. Philip were taken on the spot, and are remarkable showing every detail of the scene. Especially well finished are the pictures showing the parade of 11,000 sokols on the field performing before the immense crowds in the amphitheater.

Dr. Pomroy has had his instruction of bringing down his judo of Sokols to give an exhibition in the armory some time during the year. This will be an interesting sight for local gymnast athletes, and from watching their well executed drills, we may understand why thousands of men were able to drift in perfection at Prague without having even seen each other before.

TO RESERVE SEATS ON EAST SIDE OF FIELD

One thousand and seventy additional seats will be reserved and will be put on sale this morning at eleven o'clock. Those seats are on the east side of the field, and are for the benefit of each team. Each west section has practically only a few seats remaining. The latest bleachers used for football, and will be placed just north of the reserved section on the east side and used for general social events both before and after the game.
What Does Baby Say?

This is a small reproduction of a large picture in our window. We want to know what the baby says. For the best answer, not over twenty-five words long, we will give a Globe-Wernicke Bookcase FREE.

The contest is open to all. Write your answer on a sheet of paper and sign it with your name and address and place it in our box. Only one answer from a contestant considered. Contest closes December 14, 8 p.m. Judges will announce the winner a week later. Send in your answer early.

TEAM TO PRACTICE ON GOLF
LINKS AT COUNTRY CLUB
TODAY

Last Night's Practice Was One of
Many... From W. O. College... Coach

There's not much left of the 1912
practice season for the Hawkeyes.
A light session; featured by demonstra-
tions by the coaches and short
demonstrations with the freshmen, close.
the proceedings as far as Iowa field
is concerned. Today the men will
be taken to the country club for a
trial signal practice on the golf links
there, followed by a dinner at the club
house.

Penmansports remained at right
hand last evening, and Curry was in
at quarter most of the time. Buckley
replaced Gemberlin early in the
practice, but Captains Higman and
Melmelon, who have been in post
shape remained throughout. The
freshmen, went through for good
ogue from the Waterloo formations
and Clemens got a bad tap on the
head just as the scrimmage ended.
The practice was one of the shortest
of the year, as the guards were
afraid to take chances with the hos-
pital list. Parsons was still limping
badly, and Morey's stiff neck showed
little improvement.

Last night was the final workout
for the freshmen, and they were
dominated at the time of practice.
The first year men have got in a
good season under the direction of
Chuck Thomas, and the squad con-
tinues to show promise of the best
marching which has come to Iowa in recent
years.

Buckley and Ridel were on hand
last night, and Martineau, the ag-
jective captain of the 1913 team,
will be on hand today to give the
men a word of encouragement
before the game. Captain Mumma has
also been on hand during the last two
practices, and many more former
Iowa stars will be here today and
tomorrow to stin the spirit of the
men before the clashing battle.

Siusa Alpha Kappa entertained
the fraternity freshmen at a smoker
at the chapter house last Thursday
evening.

Sidney Alpha Delta is so versatile a
number of their alumni at a dance-
ning party at Majestic Hall this evener.

Siusa Alpha Epsilon is to enter-
tain a dancing party tomorrow even-
ing at Majestic Hall.

AMERICAN CHEMICAL
SOCIETY TO MEET SAT.
Session to Be Open to Public—In
teresting Program Now Being Prepared

Members of the Iowa section of the American Chemical society will meet in the chemistry building of the University of Iowa tomorrow morning at 11 o'clock for the first meeting of the school year. Owing to the fact that the annual alumni homecoming of the University of Iowa is being held today and tomorrow an unusual attendance of members is expected at the meeting. The sessions will adjourn in time for the members to attend the Iowa-Wisconsin football game in the afternoon.

The visitors at the chemical meeting will also be invited to the other events which have been planned for the entertainment of the graduates, former students and friends of both the University of Iowa and the University of Wisconsin.

The program of the chemistry meeting includes roundtable work, reports on research investigations, and several other items of interest along chemical lines. The sessions are open to the public.

Prof. C. G. Bates of Coe college, Cedar Rapids, is president and Prof. W. J. Karslake of the University of Iowa is secretary of the Iowa section of the American Chemical Society.

Recension Club
Regular meeting of the Recension Club will be held in new physics hall on Friday evening, November 22, at 7:30. The paper of the evening will be read by Professor C. C. Nutting in "The Progress of Sociology During the Last Decade." The public is cordially invited.

Cadets Feted Visitors
(Continued from page 1) the program will be given by the men's glee club.

The work of finding places for the crowd who comes to Friday night has been taken care of by secretary H. T. Williams of the Y. M. C. A. Addresses of rooms will be retained at the Iowa Union.

Nothing has been spared to make this homecoming such a success that there will be a demand to make it an annual affair. The homecoming is really necessary to the university. In the spring when the alumni come back to the campus many of them find that the students have all moved away and the alumni need a time when they can return to the university when the students are here.

To be comfortable and warm and still maintain an individuality of style is what you are after when buying an OVERCOAT.

Those great big ulsters and convertibles--those handsome shawl collar and belted back overcoats are all to be found here. The snappy button thru 42-inch coat has a style all its own and most men like them.

What is your choice of fabric? The soft finished weaves are prominent and we can show you the style you like in your selection of cloth.

We want to sell you the overcoat you would like to wear. Let us show you the style we think is best.
