lebrated Cub Reporter Compiles A Compedium of Conglomerate Cognomens — Contains Choloric Comments on Curious Nam..s.

'What's in a name", was asked by iuokalani many, many centuries ? Ever since then, men have ditated and philosophized upon s momentous question. Since the ent of the student's directory up- the campus several days ago, the query has been revived, and an bitious Iowan reporter fathomed ie of the freak features found rein.

For instance, when the Frost of nter spreads its White upon Hill l Field and Dale and Wood, then Fisch in the Brooks Long to de through the Moss, and the ld Hart loves to Chew Acres of n and Oats like a Horsefall(s) to huck of Hay; then Showers cease, l the Wise Weaver and the Short ler Hunt Black Fox and the Gray rtin in the Knight among the Loos ish along the Beach or Seashore; n the Loving Maiden Setz in the de on a Davenport in the soft ne of the Moon which gleams ough the Hayes and puts a Green ton Patch on a Brown Hatt for Darling.

SPECIAL ASSEMBLY THURSDAY MORNING

FRED B. SMITH AND RAYMOND ROBBINS WILL SPEAK AT AUDITORIUM

Assembly will Usher in Y. M. C. A. Campaign—Such Assemblies Held Only Under Special Circumstances —Classes Dismissed during Hour.

For the first time in many months a special assembly will be held. This will take place Thursday morning at 10 o'clock in the natural science auditorium. These assemblies are held only on special occasions, and are as a consequence, a rare occurance during a school year. All the classes will be suspended during this hour.

FRED B. SMITH

The two speakers of the hour will be Fred B. Smith and Raymond Robbins. As speakers, they have few equals in this country, and always attract large audiences. The auditorium will be packed for the event, and the meeting will be the largest and most successful held here for some time according to present indications.

It is not known what the subject of the talks will be, but they will have reference to the coming campaign, which this assembly ushers in, and will be of interest to every student.

There will probably be special music by the vesper choir.

Peirce to Attend Conference

Prof. Paul S. Peirce of the department of political economy and sociology, has been chosen as the official representative of the third conference on the teaching of economics which will be held in Chicago, December 6 and 7. The conference will be attended by professors from the leading universities of America as well as noted teachers of economics from the secondary schools of the country. A feature of the conference this year is a study of the problem of the modern school of commerce, maintained by the leading colleges and universities. Iowa has been represented in previous meetings by Prof. L. A. Loos and Dr. C. W. Wassam.

PROFESSOR SMITH HIGHLY HONORED

Is Made President of the Big Nine Conference at Chicago Last Friday

Professor A. G. Smith was highly honored last Friday by being elected to the presidency of the Big Nine conference. The significance of the election will be seen when it is known that this athletic organization is the greatest of its kind in the west.

As a delegate from this university, Professor Smith was present at the meeting in Chicago Friday, when the annual winter session was held. He was also made chairman of the committee on football officials, having given such satisfaction the past year, that he was chosen again without hesitation. These honors are an indication of the esteem in which he is held in the conference, having done more than any one man to purify athletics in the middle west.

Choral Rehersal Tonight

The university of Iowa City Choral Society will meet as usual in the liberal arts assembly hall tonight at 7:30 sharp. The director is desirous of a good attendance as definite work must begin at once for the preparation of the "Chimes of Norbandy" to be given sometime next month. The parts will all be assigned at the rehersal and the cast wil limmediately prepare their parts and work with the chorus at each following rehersal.

The choral society will dismiss early for the benefit of those wishing to attend the Cadman Recital at the natural science auditorium.

Y. W. C. A. Special Meetings

Beginning with this week's mid-week meeting the Y. W. C. A. is to hold a series of special meetings. The regular mid-week meeting will be in charge of Miss Eva Morriss, a territorial secretary. At four-thirty on the following day, the young ladies of the university will have an opportunity to hear both Fred B. Smith and Raymond Robbins.

The university has been fortunate in securing these two men and it is desired by the Y. W. secretary that every girl in the university should here them.

Cox-Read Nuptials Last Week

Clifford Vernard Cox and Miss Helen Read were united in marriage last week at the home of the bride's brother, Ralph L. Read. The groom is a graduate of the law class of '03, and was a popular member of the Sigma Nu fraternity while here. The bride is one of the most popular society belles of the city.

Girls' Travel Club

The Girls' Travel club of the Christian church will meet at the home of Mrs. Emil L. Boerner, 325 north Dubuque street, Tuesday evening, December 3, from 5:30 to 7. Mrs. S. K. Stevenson will be the speaker.

DECORATIONS ARRIVE FOR GORGEOUS EVENT

DECORATIONS ARRIVE FOR SOPHOMORE COTILLION TO BE HELD AT ARMORY

Music is Announced—Dunkel and His Ten Pieced Orchestra to Thrill Terpsichorians—Elaborate Lighting Arrangements to be a Feature.

With the football season over, and the Thanksgiving vacation a thing of the past, the big event before the holidays is the Sohphomore Cotillion, which will be pulled off next Friday evening in the university armory. The decorations have arrived and the scheme of the elaborate color and lighting arrangements will be announced in tomorrow's Iowan. Everything is in readiness for the opening formal of the year and it promises to be far ahead of all cotillions given in past years. Following is the list of dances given out by the committee. "Punch" Dunkel and his ten-piece orchestra will furnish the music for the occasion.

Dr. Longworth Indicted

Dr. Anna Longworth, a former student in the college of medicine here, now located at Waterloo, has been indicted for murder in the second degree. Her arrest caused a great wave of excitement there, and now that the grand jury has indicted her, the sensation has increased. She is implicated in the death of a young girl.

Student Looses Wheel

Friday afternoon a Ranger bicycle was stolen from a student, who had left it in front of the university building. The police are hot on the offenders' tail, and a clue lately discovered will probably land the guilty one in a few hours.

ON STATE BOARD'S REPORT

There is one paragraph in the report of the State Board of Education to the Governor that requires attention. The paragraph reads as follows:

"No one can comprehend this problem who approaches it from any narrow or selfish viewpoint, personal or institutional."

This statement of the State Board of Education was evidently designed to forestall all criticism which might come from all the institutions under fire. They forget, however, that the hypothesis upon which they are working is just as applicable to their line of argument as it is to ours. Greater than this, their error lies in the fact that they seem to place the opposition upon the ground of mere institutional prejudice, rather than to give it its due place.

The purpose of this agitation against the contemplated action is not solely to point out the errors that they have drawn into their arguments and reports, but is an attempt to make a solution for the future.

This statement in the report seems to indicate that the only opinion which come from an institution is governed by prejudice. There is, however,a great difference between opinion and prejudice. Prejudice is a conclusion that has been reached not as the result of thought or argument, but merely by *personal or selfish motive. Opinion*, on the other hand, is a conclusion which has been reached through argument and thought. Progress has only come through the battering down of prejudice by opinion. The great scientific achievements of the present age have been the result of the overthrow of prejudice through the means of an application of facts to the question at issue. Then, for the purpose of argument, let us assume that our opinions are prejuriced. I n that case the State Board of Education tion has the opportunity to hold these prejudices to the light of reason, and by a contrast make them clear. Why do they not undertake this task, rather than to merely discard the statements which would come from this institution on this assumption that they are prejudiced?

They further indicted themselves to a charge of prejudice when they refused to admit the heads of the departments invilved into consultation on this issue. If they, the board,t were looking upon the question with an open mind, would it not have been possible for them to have separated the prejudice from the fact which these men could surely have presented? It was prejuidce which seved this country and made it a union of people, and not of states. It was prejudice which made this country a nation, and not one of England's colonial dependencies. If prejudice has been the aid to such great movements which developed into opinions of government, should a littie prejudice not be injected into an issue upon which the salvation of the futue education of Iowa depends?

We disclaim any prejudice greater than that which now governs the State Board of Education, and which is due to the nearness of the problem. This much, however, remains in our favor, that we have studied the educational movements, not in our own state nor in our own time alone, and it is this data which forms the basis of our condition. The only argument which the State Board of Education advances is merely that which is expedient. They do not offer, on the contrary, a plan from which they can predict what the future has in store for them.

BASKETBALL SQUAD OUT FOR PRACTICE

ABOUT TWENTY MEN TURNED OUT FOR FIRST WORK THIS SEASON

Five Veterans of Last Year's Team Report—A Big Christmas Trip Planned by Manager Kellogg.

Regular practice for the basketball squad started yesterday under the direction of Coach Thomas. About twenty men appeared for work, and got a long drill in the rudiments of the game. Passing the ball, dribbling, guarding, and the other elementary points were handed out in assorted doses, and this program will be followed until Christmas.

Five veterans of last year's team, including Captain Berry and Maiden, guards, Leo, center, Gardner, forward, and Brothers, forward and guard, were out yesterday. Weaver, a substitute two years ago, and Hanna and Truxel, both of whom saw service in several games last year, also appeared, giving the coach a big squad of seasoned material with which to start.

Breuckner and Schulte have been recruited from the football squad and appeared for practice yesterday, and Gilliland also reported. Beem, center on the freshman team last year, is out, and the coach hopes to get Kirk, Dick, and Parsons of the football team to come out. Dick is regarded as especially good basketball material, as his work last year in the department league stamped him as one of the fastest guards who have appeared in recent years.

Present plans call for the scheduling of at least one college game before Christmas. What team will appear is not yet decided, but one of the minor college teams of the state will probably appear. Manager Kellogg is working on the proposed Christmas trip to be taken by the squad will nit be picked definitely rangements for it. Present prospects include the Des Moines, Ottumwa, and Fort Dodge, "Y" teams, and the Penn and Highland Park college fives, and others will be scheduled if the trip goes through.

At least two full teams will be taken on the trip, as the varsity equad will not be picked definitely enough to be cut much before that time, and the object of the trip is to give the candidates experience.

The size of the local floor has been reduced by cutting off two feet on each side from the width. The lines have been repainted on the floor, which is still larger than any other in this part of the country. Some of the officials believe that the Iowa floor is still too wide, but the present size will be tried for the coming season at least.

Central Committee to Meet

Wednesday evening there will be a meeting of the students' central committe in room 2N of the engineering building. All members are urged to be present and all committees will report at this meeting.

Law Alumnus Dies

William J. Clair, a well known attorney of this city, expired Friday morning at the home of his mother on 330 South Lin street. From the time of his graduation from the law college in 1888 to the time of his death, he was an invalid, being confined to his bed a large portion of the time. Although thus handicapped, he took an active part in legal affairs of the county and city, and was looked upon as a brilliant and capable attorney.

Bailey Starts on Expedition

Alfred Bailey left Friday morning for San Francisco, where he will be in the Layson Island expedition which leaves there December 5. The expedition is carried on by the State University of Iowa, and its purpose is to rid the island of rabbits, that have overrun the place the past few years.

Their presence makes it undesirable for the beautiful birds that inhabit the island. Millions of rabbits will be sacrificed to allow the place to continue to be the greatest bird island in the world.

Notice to Juniors

All Junior pictures for the Hawkeye must be handed in before the beginning of the Christmas vacation. This is absolutely necessary for compiling the plan of the annual and getting the material promptly to the press. If you wish your photo to appear in the Hawkeye, attend to this matter as soon as possible.
