INTERCOLLEGIATE DEBATE TONIGHT
Iowa vs. Wisconsin
Natural Science Auditorium

DEBATE QUESTIONS

PROPOSED RESOLUTION:

IOWA ON TOP OF RESEARCH IN MEDICAL COLLEGES

Many improvements have been made during the past few years in medical colleges in Iowa, and Iowan doctors have learned something of the recent improvements in equipment and the present excellent hospitals and nurses.

In every big city the medical men are considered second to none in its local and first in the state in the development of the department. A visitor of the medical man would be surprised to see the high repute throughout the country both as physicians and surgeons. It is not only the medical profession but the whole people of Iowa and Minnesota, and Iowa by far this year.

COMING OUT:

Dr. Trewin advocates the establishment of a separate medical school in connection with the medical college, and the proposed program is one of the best in the country in the field of medicine and surgery.

Trewin, chairman of the medical board, has been able to secure the services of many of the most prominent medical men in the state.

The state board of education, at the present meeting of the Iowa State Medical Association, will act on the proposed legislation in connection with the medical school.

The debate will be of great value to the university and the profession, and it is expected that the prominence will attract a large audience.

Photograph to Meet

The Philomathian society will hold a special business meeting at 7 o'clock tonight. Important business will be disposed of, and the long awaited meeting will be held. Dr. Trewin, the chairman of the board, is in a very pleasant position.

MORE ROOM! MORE ROOM!

On account of our expanding business we were compelled to enlarge our room, so that now we can accommodate our trade very nicely.

We will be able to handle any party affairs or suppers, serving all kinds of lunches to any number at short notice and with quick dispatch.

So if you are contemplating the giving of any dinner or suppers it will pay you to call on us first before preparing the arrangements. Anything you wish can be served and in the latest methods.

In this connection we wish to state that we are the head quarters for the best varieties of ice and cream, and sodas.

Our candy department is unsurpassed in the city, for variety and quality. Not only do we manufacture and keep on hand a good assortment of home-made candies manufactured in our own kitchen, but we keep on hand the best quality of foreign chocolates which money can buy.

In selecting your Christmas candies in bulk or in boxes, call on us and look over our stock. Our quality is the best and our prices the lowest.

Showing our goods to you will be a pleasure. Kindly let us have that pleasure at your earliest convenience.

Yours Respectfully,

LOUIS MANN
In the Six Months' New York Triumph
ELEVATING A HUSBAND

Louis Mann
It must be said that Louis Mann practices what he preaches. The actor has always advocated for the would-be actor to get a good deal of study and perusal of the simple life. The latter in its most attractive forms that followed by Mr. Mann and Clark Lithop have at their farm in Shandong County, New York. Here the actor and his actress-author were for ever and ever informed themselves to know that Miss Lithop in its private life in Mr. Mann's play the days in which she lives in it. Miss Lithop is as bedridden, situated as early six or six o'clock. Her best work at her desk is invariably done before noon and during the recent summers her afternoons have been given up to rehearsals and not only. Mr. Mann's company is "Elevating A Husband," of which Miss Lithop is co-author with Sum­ mer Lithop, but a few preliminary rehearsals of her own play, "It Depends on the Woman," in which she is to return to the stage in November, and which is designed to study and music and she is early to bed.

Outside of the theater Mr. Mann's greatest hobby is baseball, and to latter in the world 1893 as important a figure as he is on the American stage. At the Main farm there is everything to delight the lover of the country and the sportsman: house of a baseball diamond, of which he takes the most tender care. At that farm, a balder head, with huge farm nearly, stands in the cen­ ter of sweeping meadows and poul­ try, and Mr. Mann owes a loan of a few to do the heavy hauling about the place in preference to the more modern auto truck. The actor himself enters heartily into the work of the farm and a day's hauling is looked upon as less labor than a lick.

His evenings are given over to study, for the actor is a student and few players can converse with such versatility on a wide range of subjects. In his present success, "Elevating A Husband," Mr. Mann is to be seen at the Englel Opera House, for a single performance, Tuesday evening, Dec. 17th.

Professor Kay After Data

Professor George Kay left yesterday afternoon for southwestern Iowa. While gone he will visit several places and collect data and information for the department of geo­ phy. The university, he is delighted on the victorious Wisconsin Academy team against Marquette. He was closer on the freshman and sophomore de­ partment teams and won the Indiana Sigma Rho fraternity trophy for excel­ lent debating.

Professor Merry is very optimis­ tic over the prospects of the teams and declares, that, win or lose, the men will put up a stiff fight and give the unpopular "Belmont" notch Collar

Good for motoring, driving, or the home—a gift that any one will be glad to receive.

Pennants and Pillow Tops
Exclusive designs made especially for our patrons, workmanship and quality.

TAU DELTA LEAD IN RACE FOR GRIFFIN TABLE HAD

The Pan-Hellenic bridge players were entertained Wednesday evening at the Tau Delta house. This was the second series of games played by the Greeks who are competing for the annual table, which the crown will go up as a reward for the most successful team. Twenty-four games in all are to be played by each team representing its fraternity and the winner will be given to the fraternity holding the highest percentage.

The result of Wednesday night play is as follows:
The Phi Psi men won two from the Alpha Delta and Delta Tau Delta won three from Phi Delta Theta. Sigma Nu took two from Sigma Chi, while the Greeks initiated the Kappa men three to matching. The standing of the various teams is as follows:

Delta Tau Delta: 1960
Phi Kappa Psi: 1949
Sigma Alpha Epimem: 1939
Theta Phi: 1939
Sigma Nu: 1833
Sigma Chi: 1833
Phi Delta Theta: 1800
Kappa Sigma: 1800

Trends Speaks to Doctors
(Continued from page 1)
but also be of inestimable value to the patients committed to the department and would be of especial advantage if the provision was inserted in the law allowing them to bring themselves to a hospital.

Such a department would include the treatment of persons suffering from mental diseases without humiliating them by previous adjudication of insanity.

The medical college of the state university has been raised to such a standard that it has been warranted in restoring the suggestion that still another advanced step should soon be taken and that is the establishment of a mental hospital. In order that these physicians and surgeons of the state who are dealing with “mental cases” might benefit of the marvelous rapid advancement being made in surgery, in diagnosis and treatment of diseases, both physical and mental and in hygiene and sanitation, shall have the opportunity under the proper restrictions of attending the clinics and taking courses of lectures in subjects in which new discoveries have been made and in which they are especially interested.

Other speakers on the program and their subjects are as follows:

Dr. C. J. Lewis, Cedar Rapids, "The Entomology for Post Operative Introductory Hospital Care of Cases."

Dr. J. DeWitt Graham, Spotsylvania, "Phlebectomy Trained by Chicago Medical School."

Dr. H. M. Flinn, Cedar Rapids, "Antimeiotic Therapy, Result of Case."

Dr. R. H. Moe, Cedar Rapids, "Proprietary" or Antiseptic Medicalism.

Dr. W. J. Sutliff, Iowa City, "Cures of Venereal Diseases, Certain and Certain."

Dr. A. L. Grover, Iowa City, "Flamboyant Dermatogen.""Subjective and Objective Symptoms of Donor in Blood Transfusion."
