## BASKETBALL TEAM DIES HARD THRICE

### CAPTAIN BERRY STARS IN ALL THREE ENCOUNTERS LAST WEEK

Team Defeated by Northwestern, Chicago and Illinois—Play Grinnell Friday on Iowa Floor—Eastern Trip Disastrous.

Iowa's featherweight basketball team returned to home scenes yesterday after a conference trip of three games with husky fives at Northwestern, Chicago and Illinois. The games were lost by decisive scores, but the Hawkeye players proved their spirit by dying hard in every contest and by making their opponents play fast ball to keep the tide from turning.

Captain Berry starred for Iowa in each of the encounters. In both the Northwestern and Chicago games he tossed two long baskets from the field, and added another at Illinois. His defensive playing also was very good, and he excelled in speedy floor work. Gardner played a good game at Chicago and Illinois, getting two baskets in each of the contests. Fields, going in as a substitute for Gardner in the last five minutes of the Chicago game, electrified the audience by grabbing two baskets in rapid succession.

All of the teams played were greatly superior to Iowa in height and weight, and the majority of each were football stars, which proved to be a decisive factor because they excelled in endurance and in ability to handle the ball skillfully.

Next Friday evening Grinnell will appear on the local armory floor for the first of the annual clashes with that long-time rival. The scarlet and black school has its usual classy aggregation this year and already has disposed of several small games in a decisive manner. The Iowa five will get back into practice immediately and prepare a few surprises for the edification of the Grinnell players.

### Philosophical Club Meets

The Philosophical club will meet tonight in room 213, L. A. building, and will be addressed by Prof. C. C. Tutting who will discuss "Protective Coloration of Animals." A paper on similar topic was read at a former meeting by Dr. Williams from the standpoint of psychology, while Professor Nutting's discussion will deal with the problem from a zoological viewpoint. The public is cordially invited to attend.

### Notice

Business meeting of the Normal will be held this afternoon at 4:30 in the L. A. assembly hall. Important

## PASSION PLAY HERE TOMORROW

### Professor Rumzle Will Give Illustrated Lecture at Y. M. Mid-week Meeting

Professor Rumzle, of the German department, will give an illustrated lecture tomorrow night at 7 o'clock at Close hall on "The Passion Play." This will be in place of the regular Y. M. C. A. mid-week meeting.

This lecture was given several days ago before the Baconian club, and was so favorably commented upon and so many requests were made for its appearance again that Professor Rumzle consented to offer the public another opportunity to know more about this great play.

The lecture is profusely illustrated by slides of the cast, scenes about the town, scenes of the play, and other things connected with the giving of the masterpiece in stage productions. Professor Rumzle has been there and knows all about the play, so is in a position to give a good lecture. Everyone is invited.

## POLITICAL SCIENCE CLUB HEARS INTERESTING PAPER

The Political Science club met last night at the home of Prof. and Mrs. Barry Gilbert. Sudhindra Bose read an interesting and valuable paper on "Agriculture and Famines in India." He analyzed agricultural and industrial conditions in that country and showed that famines are now more frequent than formerly and have actually reached a normal condition. He proved that famines were not due to over-population or lack of rainfall or to unproductive soil, but were caused by the excessive land taxes imposed by the British government. Until there is some lighting of land taxation, he said, these periodical recurrences of food scarcity will always reappear.

### Vesper Choir Pleases

The musical services at vespers Sunday was greatly appreciated. The vesper choir was composed of forty members, being made up of the boys' and the girls' glee clubs. Three selections were sung by the choir, after which Prof. Robert Fullerton rendered a very beautiful solo that received much praise. The work of the Neapolitan trio mad a great hit, especially Miss Eastman's work on the violin, which shows careful training that she has received during the past several years. The flutist, Mr. Hazelet, gave several pieces that have not been equalled here by any flutist. Miss Barry's harp selections were excellent. This trio is a home product, and many turned out to hear them. Altogether, the program at the vesper service was far above the average usually given.

## Y. M. C. A. CAMPAIGN GOING FULL BLAST

### TWELVE TEAMS OF FIVE MEN EACH TO MAKE A FOUR DAYS' CAMPAIGN

Sixty Men Begin Work This Morning—Attempt Will be Made to Clear Four Hundred Dollar Debt—More Helpers are Wanted.

This morning will begin a vigorous campaign for a larger membership to the Y. M. C. A. and for the contributions sufficient to clear the debt of four hundred dollars that hangs over the organization. The men are thoroughly organized and good results will no doubt follow.

The band of men who compose those carrying on the work of the campaign is divided into twelve groups of five men each, making in all about sixty. This little army will swoop down on the unarmed students today and the rest of the week, except Saturday, and will make quick work of those unprepared to give a good excuse why they ought not to belong to the Y. M. C. A. The present membership is now four hundred and the objective point is to raise it to seven hundred. This, they believe, they can do.

Another object of the campaign is to clear the debt of four hundred dollars. When Secretary Williams took charge two years ago, there was an indebtedness of twelve hundred dollars, and all this has been paid off except the above stated amount. If the sum can be raised sufficient to clear the debt, it will place the organization on a basis second to none in the west.

The men who are leading the twelve groups are: Louis Penningroth, O. H. Harris, John Anderson, Fred Bruene, A. Mather, R. Vigers, Harry Gould, R. Cockshid, G. G. Gabrielson and Floyd Beack. These men will report every evening what has been accomplished by each group.

### Law Alumnus Successful

Word has just been received that Julien C. Monet, who was graduated from the law college in '92 has been unusually successful in his work at the Oklahoma university. It was through his efforts that the law college there was organized. He was also instrumental in securing appropriations for a large building to house the college of law. In addition to being honored with the deanship of the college there, he has been eminently successful in the practice of law. Recently he declined a lectureship in Leland Stanford university in order that he might further carry on the work in the law college of Oklahoma university.

## LAWTON COMING NEXT THURSDAY

### Noted Piano Artist Will Appear on Y. M. C. A. Course Here Thursday Evening

Ralph Lawton, who is well known here as a pianist, will give a recital here Thursday night. He made his home here till about four years ago, when he went to Des Moines to take up a position at Drake university, and so is well and favorably known by nearly everyone. Prior to leaving here he was the organist at the Methodist church.

During the past two years, Mr. Lawton has been abroad taking up special work on the piano and comes here fully prepared to give something well worth hearing. He has a fine technic, and his touch is excellent. It is predicted that in a short time his fame as a player will spread not only over this continent but abroad.

This number is an extra one that is given by the Y. M. C. A. The admission has been put as low as possible so that all his friends can hear him, and therefore a large audience is expected.

### JOSEPH WEISS TO LEAVE

#### THE L. A. BUILDING

### Popular Janitor Will Be Superintendent of the Johnson County Bank Building

Consternation was written on the faces of professors and students yesterday when it was learned definitely that Joe Weiss, the accommodating janitor of the liberal arts building, had resigned, said resignation to take effect at once. Mr. Weiss will go to the Johnson county bank building, where he has accepted the position of superintendent of that new six story office structure.

Mr. Weiss has been in the employ of the state for six years, the past four years of which has been spent in the liberal arts hall. He has made many friends among the professors and assistants in the building, and especially with the thousands of students who have used that building during the past four years. He has kept the building clean and neat at all times and when any forgetful co-ed has left her umbrella or books in some class room, they were always to be found in Joe's office the next morning. The professors and students regret to see him go, but know that he is going to a better position and hope that success will follow him to the bank building.

### Political Science Club

The Political Science club will meet at the home of Prof. and Mrs. Barry Gilbert tonight. Prof. P. S. Pierce, the retiring president, will read the paper.

## DOMESTIC SCIENCE ESTABLISHED HERE

### COURSES HAVE BEEN ESTABLISHED AT CLOSE HALL—ALSO SEWING

### Y. W. C. A. Inaugurates Sewing Classes—Charges Will Be Only 10 Cents—Own Materials to be Furnished by Girls.

Girls, now is your chance to learn how to sew. An auxiliary department of home economics has been established at Iowa. The Y. W. C. A. is now prepared to offer to the young women of the university a thorough training in plain and fancy sewing. The association has secured Mrs. E. W. Rockwood to take charge of the department of embroidery and needlework.

Mrs. Rigler has consented to offer a course in plain sewing. The staff of instruction will include the wives of several faculty members. The division of fancy work will meet at Close hall, Wednesday, afternoon, January 22, at 4:00, and the division of plain sewing will meet at the same time on Thursday afternoon at Close hall. The classes will meet at the same place and the same time once a week. In exchange for all these advantages, the small sum of one dime, ten cents, will be charged, which will be turned into the coffers of the Y. W. C. A. Each student will be required to furnish her own materials, so come prepared. These courses will afford excellent training for those who expect to fill hope-boxes or even darn socks in the near future.

### Alumni Telegraph Bowman

Another bunch of loyal alumni have organized an Iowa club in the far west. Old Iowa men of the San Francisco bay districts of California, which include the cities of San Francisco, Oakland, Palo Alto, organized yesterday afternoon and sent President Bowman the following telegram of greetings:

"The loyal alumni of San Francisco Bay districts of California held their first organization meeting this afternoon. We send to you and through you to all those on the old campus greetings and pledge our earnest and active support to our Alma Mater.

"HENRY MORROW."

### Iowa City High Wins

The Iowa City high school rifle team won their first match of the season last Saturday when they shot against the Baltimore Polytechnic Institute, the score having been made public only today. The score of the match was 962 to 789. This is the third highest score with a local team ever shot, the record being 980.

Seats now on Sale at Wieneke's

### A LITTLE SELF PRAISE

Four doors of the university have been fixed so they will open outward and one other is being fixed since the editorial relating to this matter was printed by The Iowan some time ago.

This paper does not intend to find fault with things as they are merely for the sake of finding fault, the fight is neither for or against individuals but for principal and for the betterment of the university. We realize that the doors of the university were not changed merely because The Iowan said they should be but because those in charge realized after their attention was called to it, that this was the proper thing to do.

The Iowan always intends to stand for right principals and never for mere personalities. We shall never lose a fight. The ideal for which we fought may for a time be defeated, but time will always justify our stand.

### THOUGHT FOR LEGISLATURE

The medical college has been "starved" again. Announcement has been received that a new addition to the hospital will make it one of the few in the United States to give clinical practice in cases of slight insanity. The entire university rejoices in this addition to our medical college and resents in like measure the insinuation that it has been "starved" to support engineering.

As to the engineering college, the statement was made, early in the fight, that the engineering college had only been running as such since 1906 and that it had run just as cheaply as possible in preparation for this change. It really seems as if the college of engineering changed its statue quite frequently lately.

Is it not probable that many of these misstatements and contradictions made in the fight against our engineers, and thus against the entire university, will be noted by the legislature when they come to decide on this question in a few days? It is probable that the coming legislature will do as that body has in the past, decide that engineering belongs

to the university of Iowa as much as it does to all other great universities.

### NEW BILL IS SOMETHING

#### EXTRA FINE THIS WEEK

One of the Best Features That Has Been Shown on the Stage Appears in Iowa City

To see a man who climbs an unsupported pole is what the people of Iowa City are treated to this week at Englert's. Paul Stevens the king of equilibrists, appears on an excellent vaudeville program that is being seen here at the Englert this week.

The program that is attracting so much attention here begins with an eccentric musical act by Fernandez-May Duo. Whether usually a lover of music or not, you cannot help being pleased with this exceptionally fine act. Lucile Tilton, a novelty protean artist, who entertains next has a way that is different from usual vaudeville performers.

Ted Gibson and Co. gives the comedy to enliven the program and it is certainly enlivened before he and his splendid company have finished. The black faced comedians are Hanvey and Dunlevy. They are no ordinary black faced comedians, but are men who can create but one laugh, that lasts through their entire sketch.

The closing feature of the program is the one that is not only unique but seemingly impossible. Acts based on the actor keeping his equilibrium are common but few if any have gone so far as Paul Stevens and climb an unsupported pole.

**Lectures at Cedar Rapids**

Professor B. Shimek will lecture at Coe college, Cedar Rapids, January 20 under the auspices of the Kelvin society. His subject will be a description of the famous Lakeside laboratories at Lake Okiboji. The lecture will be illustrated with new lantern slides prepared during the past season. The views give an excellent idea of the picturesque scenery of this Iowa lake. The lecture will be open to the public.

**Ad Clubs to Meet**

The Associated Ad clubs of Iowa will meet at Waterloo February 4, 5, and 6, for its third annual convention. The club will discuss many subjects of vital interest to business builders. H. M. Harwood, director of publicity and secretary of the alumni bureau, is secretary of the state organization. The Iowa Manufacturers' association and the Iowa League of Commercial clubs will be present at the sessions.

**Browning Movement Demonstration**

The Browning movement will be demonstrated Wednesday evening in the lecture room of the new physics building from 7 till 7:45. The demonstration will be made by Professor Stewart, head of the physics department and will be open to the public.

**FORENSIC COUNCIL IS NOW COMPLETE**

**FACULTY MEMBERS OF FORENSIC COUNCIL APPOINTED BY PRESIDENT**

Professors Gilbert, Weller and Peirce are New Members—Philomathean Society is Given the Presidency of the Organization.

The faculty members of the Forensic council have been appointed by President Bowman. Professors Barry Gilbert, C. H. Weller and P. S. Peirce are the new members, who, with the representatives of the three literary societies, and the head of the public speaking department, make up the council.

The Forensic council is analogous in many respects to the board in control of athletics, having charge of all inter-collegiate and inter-society contests in the university, except the class contests. It is the most important organization in the university in all matters of public speaking, and especially so as Iowa is the acknowledged leader in debate in the middle west with more traditions and victories along this line than the great majority of schools.

There is a similar organization to the Forensic council in each of the schools of the central debating circuit, and in each university in the northern oratorical league.

The student representatives, as elected at the meeting of the Forensic league, are Adrian Foley, of Philomathean, president; George G. Glick, of Zetagathian, secretary and vice-president, and John Brooks, of Irving Institute, treasurer. These offices are held in rotation by members of the three societies. The head of the department of public speaking, now Professor Glenn N. Merry, is a member of the council, also.

**Koontz on the "Lobby"**

According to Hon. George Koontz, who is spending a few days here, the engineering college question is somewhat on the order of a powder mine to the Iowa legislature and one which they have thus far been leaving severely alone, even so far as to discuss it but little. However, he declares that from what talk there has been among the members in the house, it appears to be pretty nearly unanimous that the schools should not be disturbed, especially just at present.

"There has been but little discussion of this measure, so far," said Mr. Koontz yesterday, "but there is no telling when it will pop up before the legislature, and when it does we are going to see some lively fighting, I rather anticipate that the university alumni will start the ball rolling and then the state board's friends will come in and have their say-so. Yes, it is going to be warm going for awhile, that's sure."

**Travel Club Notice**

The Congregational Circle will meet Tuesday afternoon, January 21, from 5:30 to 7:30 at the home of Rev. and Mrs. W. L. Waters, 725 north Linn street. There will be a 15 cent supper spread. A large attendance is desired and a good program is assured. Come!

**HAWKEYE TO GIVE A SHORT STORY PRIZE**

**New Rule This Year Says Stories Do Not Necessarily Have to Deal With College Life**

According to the custom of past years the Hawkeye staff will award a prize of ten dollars for the best short story submitted for publication in the annual. This contest is open to any student in the university whether graduate or undergraduate. The stories must be handed in to the Hawkeye office by March 15, and the name of the author is not to appear on the manuscript but handed in on a separate slip.

In regard to the subject matter an important change has been made in the rules. The stories may deal with any kind of life whether college or otherwise, and they may be either humorous or serious in their nature.

The story shall not exceed the length of 4,000 words. The judges of the contest, who will be members of the faculty, will be announced in a few days.

**Nutting to Speak**

Professor Nutting will give a lecture tonight before the Philosophical club on "Protective Coloration of Animals." This subject is one of intense interest; and as the lecture is open to the public, many will no doubt avail themselves of the opportunity afforded. The meeting of the club will be held in room 19 in the natural science hall, and will begin at 8 o'clock.

FOR RENT—Two furnished front rooms. 22 N. Gilbert.

The Woodrow Wilson club of the Princeton university is planning to march in the inaugural parade.

## PERSONALS

Mr. and Mrs. A. C. Howell entertained the Aocia fraternity last Saturday evening at a six o'clock dinner at their home on south Summit street.

Mr. Fred H. Johnson, L. A. '11, has accepted a position with the Nebraska Military academy for the remainder of the year.

Miss Elsie Whitford, formerly of S. U. I., has been elected to a position as teacher of music and drawing in the Bellevue, Iowa, high school.

Miss Hedwig Broderson, L. A. '15, visited at Coralville Sunday.

Miss Anna Pierce of Des Moines attended the Junior Prom, and while here visited at the Pi Phi house.

Walter E. Stover and wife came to attend the Prom and to visit many of his old friends.

Miss Wright, sister to Bob Wright, L. A. '14, left Sunday for her home at Ft. Dodge, after spending the week-end visiting friends at the Pi Phi house.

Men's glee club will sing tonight at the Forensic institute to be held in the L. A. assembly hall. Tomorrow night the girl's glee club will furnish the music. The program begins promptly at 7:30 p. m.

The contest for sergeant-at-arms of the freshman class at Cornell threatens to involve the class of '16 in a ballot box investigation, if not a campaign contribution scandal.

Miss Maud Waltz, who is teaching at West Liberty, visited at her home in Iowa City over the week-end.

Miss Helen Bean, G., visited with friends in Coralville Sunday.

Judge Cyrus Beard, law '74, now chief justice of the supreme court of Wyoming, will represent the university at the inauguration of President Duniway of the University of Wyoming on January 24.

## SCENERY HAS COME FOR "WINTER'S TALE"

SCENERY FOR "A WINTER'S TALE" HAS ARRIVED AND IS READY FOR PLAY.

Every Member of Caste is Trained to Perfection—Play Will Be an Exact Likeness of Sixteenth Century Play of Shakespeare.

The scenery for the first Shakespeare production of the year has arrived and every preparation for the presentation of "A Winter's Tale" tomorrow night has been made. The caste of forty-five players have worked hard and long to insure the entertainment being a complete success, while coaches and assistants have spared no effort to make the performance first class.

Playgoers tomorrow night may well imagine themselves attending the Globe theatre in London, where Shakespeare's plays were first produced before the public, for stage setting, scenery and music will be as near like the customs of that time as can be made. But not only the novelty of seeing a sixteenth century performance, but the dramatic interest in the plot itself will draw many to the auditorium. Those who have read the play declare that it is full of human interest situations and grows to an intensely interesting climax.

### Octaves Have Closed Meeting

The Octave Thanet literary society will have a closed program tonight at its rooms at Close hall. The intense secrecy of the whole affair only adds mystery to the occasion, and many attempts have been made to fathom the meaning of the event. The purpose of the gathering is entirely unknown, although it has been hinted about the campus that something strange and weird is to take place.

The University of Chicago will give its eighteenth annual senior dance Friday night, February 21. Contrary to the usual custom, neither of the leaders of the grand march will be athletes.

### Civil Engineers to Chicago

Members of the civil engineering class of the state university of Iowa are at present engaged in an inspection trip throughout prominent shops and engineering works in Chicago under the supervision and direction of Professors S. M. Woodward and

G. J. Lambert. Among other places

which the engineers will visit is the Illinois Steel shops, big bridges, elevated roads, and tunnels, the United States Steel company shops and the big Chicago cement show.

## OPPORTUNITY TAKES LITTLE REST

You can meet her every morning, most any time after breakfast. Here's an opportunity today to get coal at a fair price, less than I have usually sold it in the winter, based on the cost.

C. W. Thompson, Iowa City

## Visit the Cafeteria

And get all home cooking. Everything you want will be found here.

You've just been home—You know how good it is Prompt Service—You Wait on Yourself

## POSITIONS FOR TEACHERS

THE MIDLAND SCHOOL TEACHERS' AGENCY, OF DES MOINES, IOWA, secures good positions for a large percentage of the graduates from Iowa colleges every year. It does a reliable and conservative business and commands the confidence of employing officers in every state west of the Mississippi river. Its contract is the most liberal. Write today for plans.
