A WINTER'S TALE

NOTED EXPLORER ONCE EXPELLED

Seward Stanford Last Week Speaks At
tat More That Expelled Him
Sears Years Ago

Seward Stanford, the noted explorer who spoke before several days ago, has
been expelled from the University of North Dakota, from which he was expelled in 1893,
while attending school there. It seems that a majority of the faculty
denyed that his expulsion was due
only to the student's boyish
pranks, for the good, and as a consequence,
his presence was no more seen there
until his return last week. The
school that once had ban him, he
says, is the school that is.
It seems that Stanford was not
just what would call a really full
boy, he was just being full of
fluff. He was expelled for playing
prank on certain occasion, much
to the disgruntle and disfavour
of the faculty. One story is that he
heavily played a prank about a hundred
only three times and just received a
most severe annuals in the
in the past year or two.
Stanford, in

P. V. NOVOSTRAIS HONORED AGAIN

Vance Van Nostrand given Beautiful
Soldier Outfit Monday Night
by Company 1

Lieuqent Perry Van Nostrand was
honored Monday evening by
1st Field Artillery. He was
a survivor of his five years's service
he was presented with a handsome
full dress coat, saber slaps, saber
honor and dress belt. The belt
was presented by his ich and fellows,
and elaborately decorated with
the insignia of heavy gold plate.
the slings and belts are of
gold, however, there is no
hat given, all on a foundation of
sole plate.
The dress belt is of
leather, covered. It will be worn
with the saber and saber
honor. The saber is made of
heavier plate than is gold of
heavy gold leaf.

MULTITUDES TO SEE "A WINTER'S TALE"

SEAT SALE BEGINS TODAY AT WILSON'S
—Program Is Varied and Sure to Please

Tomorrow night Ralph Lawton
will appear once more before an
Iowa City audience. This time he
comes after three years absence,
and is fully inspired to supply more
surprises concerning his ability, as
he has been spending special training
part of the time abroad under splendid
teachers and musicians.

The seat sale begins today at
Wilson's. To those holding season
tickets, there will be no charge ex
cpt the usual fee that has been
larger under the old arrangement.
The program, which is a sequel,
is one that will be sure to please.

Having worked for several months on the problem, of finding the right person to succeed the presidency of John Hopkins University, without success, the trustees have sent out letters to all graduates of the university holding the degrees of doctor of philosophy, asking them to assist in the matter before the board. These forms of Hopkins men are scattered all over the country, and many of them are teaching in important universities. It is felt that they know the position of the university as well as the trustees themselves.

At a horizon dinner given by the faculty and friends of Chicago University over 100 students attended. It was given in honor of the twelfth birthday anniversary of the first convocation. The idea of the dinner was to develop school spirit. Representative men gave speeches and the university band and choir furnished the music.

International water polo was the main event of the evening. The matches were decided upon by Coach Minnissy of the University of Illinois. At the beginning of the games the conference on uniform water sport could be decided upon, but Illinois will try to have this game adopted.

University of Michigan students are deeply interested in the report of Fielding H. Yost. He has given Michigan the greatest football coach that this state has ever known. Yost has not met with the success the past three years and the undergraduates are clamoring for a change.

Michigan won the Central Debating League championship for 1911 when the attaining team defeated Chicago by unanimous vote of the judges. Debating, by-the-way, is the only activity in which these two schools have ever come together since Michigan can withdraw from the conference.

CUMMINS COMES OUT AGAINST STATE BOARD

SANDFORD A. R. CUMMINS COMES OUT AGAINST THE ACTION OF THE STATE BOARD

That said Round Has No Legal Right, to More Engineering College to Ames—Talks Stand. Was Made by Leland Stanford University.

It was reported from Des Moines yesterday that Senator A. B. Cum- mings had taken a stand against the state board of education. Neither engineering nor any other educational department of the state university can be discontinued at the state university, according to the opinion of Senator A. B. Cum- mings. It is in recent letter to a Des Moines alumni association found that Senator Cummins indorses the Leb- bigton opinion that the state constitu- tion prevents the removal of engineering from Iowa City by Ames. The constitutional provision has no prac- tical effect if any interpretation can be placed upon it that will permit the change, according to Iowa's sen- ator. Senator Cummins is an alumnus of the state university. His opinion as a lawyer rather than as an amateur of either side in the fight is represented in his statement, which follows:

"I believe that Mr. Lehmann an- nounces a correct conclusion with respect to the constitution and the matter. If the legislature, either directly or through a board created by legislature, can take away the right of the educational department, which, according to the accepted standard of university instruction, is a substan- tial part of the university and con- sistent with the constitution, it is manifest that the constitutional provision is left without practical effect. If it can deal with the college of applied sci- ences, it must follow that the college of liberal arts, college of law, medi- cine, etc., can be transplanted un- der the same authority. I have not or never believed that any such interpreta- tion could be put upon the constitu-

Although the debating council of Har- vard has made repeated efforts to stimulate interest in debating, the intra-curricular activity has not received its due proportion of time and attention from the members of the university. It has been suggested that the debating debate, a series of inter-departmental debate be started. Under the plan all mem- bers of the graduate school would have an opportunity to meet the men of the university and could debate among themselves.

The university of Michigan will have a larger representation in the newly elected sixty-third congress than any other university. There will be 273 members in the house in the session, which is an in- crease of four in the lower body and one in the upper over the number of Michigan alumni in the present con- gress. The nearest rivals to Michi- gan, Harvard and Yale, were repre- sented by fifteen and nine alumni respectively in the sixty-second con- gress.

Eight hundred persons of twenty different nationalities, representing every shade of opinion, creed and ideal, with their Newbridge hall, Uni- versity of Wisconsin, on a Sunday night to hear a program un- equalled by any previous affair of the kind ever given by the Chinese student body. The program was feat- ured by two acts, written and performed by two Chinese students of the univer- sity of Michigan.

A professor from the French de- partment of education and fine arts in Paris probably will be the first pres- ident of the University of Chicago during the univer- sity quarter this year. In 1914, a professor from Chicago will be sent to Paris as one of the French students. Arrangements for such an exchange have been pending between the Uni- versity of Chicago and the depart- ment of education for some time and will go into effect immediately.

Dean H. L. Russell of the college of agriculture of the university of Wisconsin has been mentioned as the probable candidate for secretary of agriculture in President Wilson's cabinet. He is placed in the head of a long list in "Good Adver- tising." Dean Russell has served a dean since 1914. He is the present head of the executive committee of the associ- ation of agricultural colleges and is recognized as an authority through- out the country.

The proposed swimming meet be- tween the University of Pennsylvania and University of Wisconsin, at Canada scheduled for Saturday, January 23, bids fair to be productive of some keen competition. From all accounts the Canadians have a strong team which includes among its number Hodgson of Olympic fame. Hodgson established a world's record for the mile. If so, the meet will be the regular intercollegiate events.

The university of Virginia is the only university in the land that can boast of a female yell leader. Miss Vera Johnson has organized the co-edts and leads them in songs and rolls. The men are thus rivaled in spirit and physical exercises.

The senate of the University of Illinois recently adopted a code of simplified spelling.
