State Board to Get out of Difficulty—Conference Will Study Big Problem

The members of the legislative committee will have an opportunity to get out of the difficulty it now is in regarding the changes it has made in the state educational institutions if a conference to be held this afternoon proves successful. A joint committee of the members of the legislative committee with the board and president of the three associations involved.

The legislative committee will present at the conference its objections to the work that has been discussed in committee meetings. It involves a compromise—the board to suspend its action and the committee to appoint a committee of seven members to study the schools system and report in two weeks later.

Shields Bill Entire Fire

While on the face of this work will have the appearance of a compromise, it is really to be nothing more than an effort quietly to shut off a bitter fight that has been started on the board. The work will not be presented to members of the legislature. But it is to be ordered to suspend carrying out the order, which means that unless some settlement develops the school system will not be uncontrolled any longer. It will be continued by the board for the next six months.

The new plan has been advanced by the members of the legislature to continue the school system that would like to back the board, but who see the outcome will be adversecriticism to the bill that the question can not be permitted to get on the floor of the legislature. They don't want to fight a losing fight and they do want to give the board a chance to change its policy without being openly opposed as much.

When the compromise idea was first put upon the members of the committee agreed to keep the lines straight. But some members of the educational institutions committee—one of the twolines—will have to decide whether the committee of the board might be expected to cause the opponents of the bill to quiet fighting.

Normal School Advocates Favor

Normal school advocates are expected to fall in line with the compromise plan. Before they give up their full support, however, they will demand that a start be made in establishing a normal school normal school North Dakota is trying out the plan which the legislature will discuss, with the board members the day.

Senator Joseph Matt of Huron is believed to be the best bill. The bill has been adopted in some of the member of the membership of the organizing committee. Mrs. Minnie Toller of the State Department of Agriculture, Monday, Tuesday.

In the interest of the people for this program for "Travel Work," and it is being revived for the benefit of the membership of the organization for these affords them the opportunity to receive a great deal of useful information concerning missionary work.

PLAQUES AWARDED

R. H. Champion is Acting Superintendent of Public Works at Holland, Michigan

The graduates of the University of Iowa engineering school are usually in the habit of being shown by the mayor of the city which has been directed against them.

The members of the committee are not anticipating that the board will object to their plan. They figure that the board will be glad to get an opportunity to cut off the University of the essential factors.

The Electrical World in the current issue prays all the Iowa graduates' excellent showing! One noted one of the best has been more directed against those.

At the meeting this afternoon Miss Elizabeth Nutting will give a report on the Illinois and Ohio will be made more realistic and interesting by the fact, that she will wear a real Indiana costume.

Miss Barry is planning to give a review of a chapter "The missionary aim," "from the life of a foreign missionary" by Brown, during the first half of the hour. The remaining time will be occupied by reports from members of the class on their various phases of missionary activity.

MEETING

Before an audience of university men that turned the capacity of the room to its utmost, Rev. Titus Lowe, the first Methodist church of Cedar Rapids, delivered a very interesting address at the midweek meeting of the Y. M. C. A. last evening. Rev. Lowe proved himself to be a very forceful speaker as well as an interesting one and the association was certainly pleased in meeting him to deliver the address at the first midweek meeting of the new semester.

Rev. Lowe took up the topic of his address "The world around," and "The cooperation of the God of the universe with man to make him a Christian by helping dig the Panama canal or by helping build a new railway."

Another thought brought out in the address was that the pleasure or privilege is a great deal to the unprivatized. The men of America are the most privileged men on the face of the earth today and therefore we owe something to those people or else we have not learned the lesson that we have. The final thought that Rev. Lowe brought out was that Christ is working very actively for the benefit of this nation, to be a present. In the work he is trying to do. He said: "Shall we win with or without me. Shall we cooperate with him in helping the Old World to its feet."}

At the regular monthly meeting of the board of curators of the Iowa State Historical Society last night the following were elected to membership in the society:

To Life Membership:
Mr. C. D. Case, Waterloo.

To Membership:
Mr. Fred Hulman, Decatur.
Mr. Ben. J. Ricker, Galesville.
Mr. W. H. Thompson, Jr., Davenport.
Mr. L. H. Brown, Des Moines.

The annual budget of the university of Kansas amounts to $3,157,022.17. It is estimated that only one school in the state does more money

revenue than this, but nothing has been learned as to the nature of the production, or the amount of the money that will be received from the public.

Sometimes in the near future, too, it is anticipated that the news head of the police department will give a recital, possibly his best, on Macbeth, or some equally

entertaining work. Professor Mercy is proving very popular in his recital

lures about the state, and stated

to an Iowa reporter recently that he has all the encouragement he can possibly want.
