OLITZKA TONIGHT

"The most beautiful program ever offered in Iowa City."

Y. M. C. A. THIRD REGULAR RECITAL

DRAKE MEDICS AND DENTS TO COME HERE

Des Moines Institution Fails To Meet Standard and Will Be Disbanded—Drake Faculty to be Given Preference For Positions Here.

The merger of the college of medicine and dental school at the University of Nebraska with the corresponding schools of the State University of Iowa was announced yesterday morning by President Hill M. Ball of the former school. The change is made necessary by a recent classification of the medical college of the country, which places Drake in the first class, with requirements for admission to the first class in that institution an additional minimum entrance fee of $2,500.00 or $1,999.00 would be needed to meet them.

President Ball's statement says: "In the judgment of the American Medical Association, under date of Jan. 18, 1913, the council on medical education reports a new classification of the medical college of the University of Nebraska is placed in the second class. It was at once seen by the faculty and officials of Drake University that since the medical school could be placed in the highest class the decision was to the future of the department. Dr. N. P. Colwell, secretary of the education, said to state that such a classification would be necessary in order that the medical school at Drake University should be placed in class A."

Means $20,000.00 Endowment.

"A careful analysis of this reply indicates very closely that to place the medical school in Class A plan would require immediate funds to the amount of $2,000.00, if any. Willingly permanent would be asked, and $3,000.00 would be necessary to get into Class A plan for even an extremely short period. The requirement that the hospital should be one of the largest in the middle west and should be next to the medical school would mean an annual expenditure of about $100,000, the latter by practically $25,000. The vocational force in the medical school would have to be increased and paid at the same as to return the income from $8,000,000.

"With these facts before us the trustees in council were unable to make the necessary improvements or extensions."

NEBRASKA TO MEET IOWA ON GRIDIRON

WHAT HISTORICAL SOCIETY HAS DONE

HISTORY, METHODS AND PUBLICATIONS OF SOCIETIES TOLD IN PAMPHLET

Society Founded in 1857—Appropriations Increased From $2200 to $8000 a Year—Valuable Research Work Done.

A pamphlet is just from the press giving information concerning the journal of war of 1812 and its use in the State Historical Society. The historical sketch tells why the society was organized, the nature of its relations with the state government, the appropriations made for its support, and the results which in the organization which has had its headquarters. The society was organized Feb. 7, 1857, and the State General Assembly voted an annual appropriation of $800 for its support. The Fourteenth General Assembly in 1872 reorganized the society to bring it into closer relation with the state, and the result was a State Institution.

The yearly allowance for the support of the historical society has been increased from $250 in 1857 to $16,600 in 1881. In addition special appropriations have been made in 1863, 1867 and 1881. The amount was $19,725. The organization has occupied various buildings in the city. At first it was housed in the old Capitol, and then in the mechanical academy building in 1861.

After moving around to different rooms in 1882, it was finally assigned to rooms in the new capitol. These rooms are on the second floor in the west wing of the building.

Attention is called to the fact that the society not only possesses historical data, but conducts historical research in the most scientific manner. For example, besides collecting the letters and papers of Governor Lucas, the society published an exhaustive biographical the governor, as well as in the publication of the Journal of war of 1812 and the executive journal in chief magistrate of the territory of Iowa.

Drake, then it was moved into its present home

HOME TOURNEY ON NEXT FRIDAY

Schroeder to Announce Names of Wreckers on Saturday—Two Matches This Year.

The annual home tournament of the university wrestling club will be held next time next week, and to participants will be announced by Physical Director Schroeder on the coming Saturday. This is to determine the champions in the different classes, and to represent Old Gold against another in a match which will come off on the last day of this month at Ames.

In all probability the university of Nebraska will come to Iowa City for a match, the date of which has been arranged. Last year the Cornhuskers won the decisions in the three weight, the light, middle and heavy; in straight lots but with another season of experience we can look for different results in the future. Iowa has not bag next year's champion of 1913 and will win the acquisition of many promising freshmen, the tournament will furnish a rich exhibition of the best athletes. It is the present intention of the authorities in charge to have one of the promising freshmen on the state to assist in the matches, which should add much to the interest of the same.

The weight and heavy and also the university champion of the last tournament should win in his events according to the dope with the Cornhuskers. Captain of the freshmen football team for last season, and Hoffman of the University Cornhusker, who was the deans of his class in the previous football season, will have a difficult task before him to repeat his past performances.

Classroom in the middle weight, Cockshull in the light, and Green in the feather weight divisions have shown much improvement over last season from here (I. O. C. R.) will also have strong competition.

INSTRUCTOR HONORED

Mr. Leon Culpert,in, of the far college has been given a prize of $119.00 for a painting shown at the Chicago Art Institute. The exhibit was held under the auspices of the Des Moines Woman's Club, and was judged by Mr. Culpert of Chicago.

INQUISITIO NOTCH

There will be a meeting of the Iowa Historical Society at a special session Friday night in Clarion. R. H. Rieger, president.

CANTATA TO BE GIVEN

The choir of the Presbyterian church on Palm Sunday, March 18, will give the sacred cantata "Creation," by Mr. Jasper Staine.

Tuesday Morning, Feb. 10, 1913.

DRAKE STUDENTS WELCOME

The abolution of the colleges of medicine and dentistry at Drake University and the merging of these two colleges with the state university means a great deal to us. This will give our college of medicine a faculty of deservedly excellent standing and will assist in making Iowa one of the greatest medical colleges in the United States.

The result of the removal of the schools at Des Moines should be an increase in our national and foreign enrollment. Iowa is for most of the young men now enrolled there no doubt wish to complete their studies in an Iowa school. Many prospective and present students of the Drake schools, on account of the advantages of an Iowa man in Iowa, will choose to graduate in Iowa medical or dental colleges in this state.

Every student who comes here to finish the studies started at Drake will be welcomed by our medical and dental colleges as open to every competent student who comes here with hope to begin his course or to complete a course already started in another college.

DO YOU REALIZE THAT?

At a first class moving picture theatre, first or 1st class service, you may avoid the ennui of a common movie and see better, more and better acting, and an infinitely greater variety of novel and really interesting entertainment than you have been paying 25.00 for.

In a Fact It Think It Over

People no longer go to Photo play houses to see the famous people of the screen, for it is cheap, but because they get more enjoyment of it than anything else.

There are automobiles lined up in front of the Pastime every night in the street. It is the show and the stret that has made the Photo play house the dominant form of theatrical entertainment in America today, especially in Iowa.

DENTS TREAT PHARNACIS

The dentist has as much need for the refreshments of a light basketball, baseball or football match as other students have for the pleasures of the college man to challenge this chance to come, and is ever ready and willing to instruct volunteers in his work.

Hundreds of young men have entered this field of endeavor at the suggestion of Mr. Rydge and for that purpose he is coming to this university this week. The YM C. A. has offered many advantages for the young men of the university to study this field of endeavor and it is hoped that many will take advantage of which is about to be offered them.

OLITZKA CHARMS MANY NATIONS

Great Operatic Contralto Coming Here Tonight is A Notable

Madam Olitiska, the great contralto, is now in the patronage of the Imperial National Opera company of Berlin and London. She has taken an active part in many of the other great opera houses of Europe, and is tremendously popular in the world. Miss Charity Avery and Mr. Avery are a well known couple, who have been visiting in this city for a few weeks with Mr. Avery's parents. Sometimes in March, Mr. Avery will assume the management of one of the numerous opera houses here, and the west offers more advantages.

Mr. and Mrs. Avery are well known here. Mr. Avery being graduated from the Iowa City high school several years ago, after which he entered the university, joining the Philharmonic literary society. He has taken an active part in many student activities, especially debating, in which he has excelled. Mr. Avery was in the university last year and is a member of the Octave Thurtan literary society.

F. R. RINGE HERE ON WEDNESDAY

Industrial Secretary of Y. M. C. A. to Speak on "The Challenge of the City"

The men of the university will have the opportunity of hearing one of the time notes of the experts on industrial conditions in the states this evening when Fred H. Ringe, industrial secretary of the international committee of the Y. M. C. A. will deliver an address at the midweek meeting of the Y. M. C. A. He will speak concerning the relation of the college man to the laboring classes or "The Challenge of the City." Mr. Ringe has spent all his life working the conditions of the names of laboring people in the United States and at present he is devoting practically all his time to work among college men in bringing them to a full realization of the responsibility that rests upon them towards the men in the laboring classes. In three weeks among the colleges of Indiana and Illinois he has addressed over 2,000 different students, of whom a very great many have enlisted for different service. His work has made it possible for hundreds of students in one hundred and fifty colleges in industrial communities throughout the United States and Canada to gain service experience. During 1911-12 over one thousand students spent an average of two evenings in a week in some form of definite volunteer service for working men and boys for a period of six months or more. The opportunities for work among the industrial classes of the United States is greater than at any other time in the nation's history. The need of such training is particularly great in the life of the college student who must go out in the world as soon as his college course is ended and control large numbers of men. More theory on the question of dealing with the laboring man is no longer of any value. Personal contract between student and the working man is absolutely essential. It is amazing how wide the gap is between the two classes and yet how readily this may be bridged by mutual understanding, everything from friendly relations. Mr. Ringe will show in his address this evening how the training in "human relations" must be a part of the life of the student who wishes to engage in this work. The meeting will start promptly at seven o'clock.
