THE MINNESOTA GAME

The name of the last evening between Iowa and Minnesota was a real basketball game. Iowa did not play up to standard which they set in the Ames game. Minnesota had the odds in their favor throughout the entire game. During and after the game there was some criticism of the referees. We might say that the referees of last night knew basket-

ball thoroughly and made some very close decisions which the voters could not understand.

Read them carefully, then apply under them: present graduates always look before you buy; that is our only request. Is a not a fair one?
