PROF. GILBERT WILL GO WEST
Tendered a Professorship During Summer Session at California University
Professor Jerry Gilbert of the college of law has been tendered a professorship in the summer session of the university of California for this coming summer. He will give a course in torts. Professor and Mrs. Gilbert have left for the coast about June 10.

They will be at Berkeley and San Francisco from June 23 to August 2. From there they will go to the Yosemite valley for a month to expect to camp in the high sierra and will return via Los Angeles and San Diego for a few days of sight-seeing before the resuming of college in September.

SCHOOLL OF ART TO GIVE
LECTURE TONIGHT
"What Iowa Has to Advertise" to be Given by Mr. Paul J. Scholtz
All-Male Club

R. M. Harwood, secretary of the alumni council and director of university publicity will give his lecture on "What Iowa Has to Advertise" tonight at 8 o'clock in the commercial club room.

Mr. Harwood illustrates his lecture with lantern slides. Many illustrations showing the development of manufacturing, agriculture and other leading industries. Other art industries, like the big industries that are not known to most of the people, are advertised. A few facts is that many of the scenes shown are given in natural colors which adds materially to the attractiveness of the pictures.

LENO ON CHINA
Mr. T. T. Lin, graduate student in education, is giving a very interesting class which meets tonight in the secretary's room at Iowa Hall at seven o'clock on the Chinese revolution. This course is one of the Y. M. C. A. classes which are meeting each year and every one in the university is welcome to attend.

FAIR DISPUTES POSITION
Mr. C. H. Farr, assistant in botany, has recently declined a very active position connected with the United States Department of Agriculture. The proposed position is in relation to the petty and trivializing of plant diseases. The plant carries a very excellent salary and Mr. Farr refused in order that he might remain at the university and continue his research work in botany. (Continued on page 4)

For the first time in its history Elizabeth college is to have an annual produced by the junior class. The publication will be known as "The Web."
Commissions Bill is Now Reported

First Constructive Action Taken in Legislative Recreation Education Fight

Has Chance Revoking Action of State Board—Is Reported for Passage by House Committee—Due Report Now in Session.

Dan Moton, Feb. 15.—The house committee yesterday afternoon voted to substitute the educational commission bill framed by Senator Joe Moton, for the Klay bill. It provides a chance revoking the decision of the board of education. Three members of the house committee presented a minority report for the Klay bill.

The senate committee was in session yesterday afternoon. It may endorse the commission bill. The bill follows:

A bill for an act establishing a temporary educational commission, to carry out the provisions of this act, and the auditor of state is hereby authorized to draw warrants on the amount appropriated in payment of any expenses or disbursements authorized by this act, on the order of the auditor of state for the said committee.

The functions, duties and responsibility thereunder and determining colleges and departments of educational institutions shall be performed by the General Assembly of the State of Iowa.

Section 1. For the purpose of investigating the educational systems of this and other states, there is hereby created a temporary State Educational Commission, to carry out the provisions of this act, which the president of the State University, the president of the State colleges or universities, and the auditor of state, shall be members ex-officio, and four other members, one of whom shall be a woman, to be appointed by the governor on or before the first day of June, 1913; and any vacancies occurring from time to time, shall be filled by the governor.

Section 2. Said commission, as soon as appointed, shall be in convene for the purpose of organization at time and place designated by the governor, and shall choose their own chairman, one of whom shall be a woman, to be appointed by the governor on or before the first day of June, 1913; and any vacancies occurring from time to time, shall be filled by the governor.

Section 3. Said commission shall collect comparative data as to the functions and scope of the State Teachers' colleges, and the State Normal School, as well as the normal schools, the State University, and State University, and make and any recommendations that they may deem advisable for the improvement of the same. The said commission shall also study the functions of the State educational institutions; and the governor shall cause said report to be published at once and transmitted to the Thirty-first General Assembly. A copy of said report shall be mailed to each member of the Thirty-first General Assembly not later than December 15, 1913.

Section 4. The functions, purposes, powers, and duties as set forth in this bill are the same as those contained in the thirty-first general assembly. The legislation is still in the early stages but it will be taken up at the next session of the state legislature.

CUMMINS TELLS OF PLANS AT CAPITOL

FINE ARTS PROFESSOR DISCUSSES PLANS TO MAKE GROUNDS MORE BEAUTIFUL

Architect Masqueret Plans to Make Most Beautiful State Grounds in United States—Legislature Will Decide What to be Done

A monster project for improving the state capital grounds at Des Moines was described by Professor C. A. Cumming of the fine arts college yesterday for the benefit of those who are interested in affairs of the state. Masqueret, the world famous architect, who is building five churches at once in the United States at the present time was in Des Moines recently and while there he described and explained to Prof. Cumming his plan for enlarging and beautifying the state grounds.

The capital, as it is now, is surrounded by a small parking area, approached directly by narrow streets, and as a result the grounds. Masqueret's plan is to widen Locust street, running north, to about twice the width on both sides and make it into a beautiful avenue. Beyond the sidewalk on north Capitol avenue, will be placed the new Allisen memorial and the entire block surrounding it put into a magnificent garden, with the governor's house behind. By building up the grounds to the level of the viaduct, the entire state property will be put at an equal level. About the whole will run a circular driveway, and parks will be laid out all through the grounds. When the whole is completed, a view of 100 miles can probably be had over the surrounding country.

Most Beautiful in Country

Masqueret himself says that if the state wishes to go through Iowa, there will be the most beautiful state grounds in the United States. As it is now, her state house ranks third among the state houses of the country. They contain, without exception, the most beautiful masonry in the country. One of Realbute's finest mural paintings adorns the dome of the capital, and eight of Fox's finest paintings hang in the gallery.

In 1909 the legislature in session decided what shall be done, for the state holds an option on the land around the present grounds which will cease upon its adjudication. Masqueret's plan is to establish a system which will serve as a nucleus around which to build all the buildings states of Iowa will ever need. That his judgment is sound, is proved by the fact that he was selected by the National sculptures' society to pass upon the architectural structure of the great Allisen memorial to be unveiled in about 10 days. The plea presented and laid out over the World's Fair exhibition grounds at St. Louis, and has been prominent in architectural circles for many years. Time will tell whether the legislature takes his advice and plans now for future developments.

OTHER COLLEGES

What promises to become one of Harvard's most powerful undergraduate organizations in the recently established forum, conducted under the auspices of the Speaker's Club and the Harvard Union. The first meeting of the forum was held last week, and resulted in an extremely satisfactory discussion of Harvard's need for a new gymnasium. The initial attendance was not large, but there being but fifty men present, there and who took part in the discussion made up a very representative group and the speeches made were clear and convincing and set the arguments pro and con.

The university of Pittsburg was added to membership today in the annual business meeting of the directors of the international forum association.

The PittsBurg university will have an athletic stadium in the near future practically a certainty. One hundred thousand dollars have already been subscribed towards the proposed structure.

The athletic association of Oberlin college has a surplus of over one thousand dollars.

having won during the last half of the period.

The final contest will be held at the university of Wisconsin next month at Iowa the following.

From all appearances, Iowa should develop up another, or two, who can capture more first honors for the Hawkeyes in this contest.

Denis Sullivan, the Gopher's best player, has already received a letter from Harvard indicating a contest over the prospects of the coming season.

Satisfied with the merits of the boys under his roof he received in a recent "Blue book" 37 members of a letter, asking 15 of them to come up to the system in the fall examinations.

The United Methodist church has decided that Campbell college at Louisville shall be joined in the Kansas City university at Kansas City. The combined schools will be known as Kansas university.
