Klay Bill Will Be Passed This Morning

Without Doubt—Dixon Bill Defeated—State Board Concedes Defeat in Lower House

By George Reynolds

The question of the adoption of the Klay bill was taken there at 10 o'clock this morning and the bill has been placed on the calendar in the state house. The house of representatives refused the amendment this afternoon by a vote of 62 to 22 to pass the Dixon bill approving the action of the senate except that part relating to agriculture.

In order to give these officers a work.

TO THE FOLKS BACK HOME

You convey your feelings and thoughts by correspondence. But is this enough? Doing this is a duty, and an important one too.

They are interested in both you and the University in all its multiple activities. One could not begin to name them here. But you know what they are. Do you know? As you keep in touch with home activities by reading the local paper remember the folks back home and send them the DAILY IOWAN for the remainder of the year for

ONE DOLLAR
REMEMBER THE FOLKS BACK HOME

CONCERNING THE FLAGS

In a local paper Monday evening an Iowa City man took it upon himself to deplore the lack of patriotism in Iowa City because the flags were not flying that Saturday evening in honor of Washington's birthday. Among the many buildings on which we see no flags flying was the old capital building. The critic opened by taking out of context a saying of Lee which covered the ropes connected with every mast.

At the Capital building, which was especially pointed out, it can be said that several attempts were made to hoist the flag on that particular morning. The only flag flying over university buildings Thursday was one which could not be lowered the night before. In this connection we might say for the benefit of those who deplore the lack of patriotism of the university, that the university is state property and the flying of flags is regulated by an order of the governor to the effect that the flag be flown over state buildings on every day except Sunday.

THIRD LECTURE GIVEN

Yesterday afternoon at the liberal arts hall Professor A. D. Smith of the physics department delivered the third lecture of a series to the students of education. Professor Smith fully discussed the meaning of mathematics in teaching, and trusted the didacticism of the subject in a way which showed a rich experience. His treatment of the subject was a revelation to all the students of education who heard him.

Although the lecture was preparatory in the interest for those going into the teaching profession there were many pupils brought out which would appeal to the general public. "Although mathematics is great in educational value," said Professor Smith, "it is an applied study and aims at the application of principles." The lecture in application to work and thought brought to light fundamental facts in life through a plea for an understanding of the fundamental to all.

THE PERFECT BACK

Absolutely demanded by the present vogue is gracefully and easily obtained by wearing FROSTFREE FRONT, LACE CORSET.

They are made for all figures slender, medium and stout. Our customers are glad that we experimented with these wonderful Frostfree Corsets at our cost against our main stock line. A real beauty, and we welcome orders from all parts of the world. 

Price $6.00 and $8.00.

We also recommend and sell others of the world's best corsets, American Lady, Leyra, E. C. E., etc.

TO SHOOT AGAINST MISSOURI THIS WEEK

MISSOURI HAS NOT BEEN SHOOTING UP TO IOWA'S STANDARD

Local sharpshooters in Better Form Than Ever Before—Look For Market In Harvey Next Match—Iowa Counts on Harvest and Shelley.

This week Iowa's made some marked advances against the university of Missouri's team. Missouri has lost a number of matches this season and has not made any high score as yet. She should consequently show a greater improvement in the coming tests. The Iowa shots are proving daily and are improving rapidly under able coaching. It is expected that a marked increase in the team's total will be forthcoming in the next few matches. Although Iowa lost last week's match, she draws among the leaders in the western states and is about a hundred points ahead of the team she met in the total score made in the matches already finished. A summary of the record of these teams in the past six weeks follows:

March 1st 2nd 3rd 4th 5th 6th Total
Iowa 59 92 911 912 913 914 5554
Missouri 257 322 323 324 325 326 1967

The race for the championship of the National Rifle League has gotten under way in two schools, Iowa City and Deering, Missouri having been delayed the past week by the Deering aggregation. By next week both teams will be added to the list. The total for Iowa City and Deering about this week. Iowa City leads the team for the fifth time out of seven matches with a score of 394, and has almost the better of Deering when scores are averaged. The eastern school, however, has held the mark for the year, 495, made the third week.

Lyncombe Reds Turn

A new man heads the local aggregation this week. Don Lyncombe has made the team several times, but has never been high man. His mark was 145. Burns was only one behind. Raymond appeared with a score of 99, but fell down in his standing shots, only making 154 as a total. The scores of the Iowa City five were:

Lyncombe 59 59 199
Raymond 94 94 198
Burns 94 94 198
Howser 94 94 198
Newberg 94 94 198

THE PRINCE OF INFIDELITY

Dr. T. W. Strawn is not infidely disposed toward the world's greatest or best. He is a good man who merely mistakes his principles, and so believes himself something of a sinner while others believe him a saint. Language is like the image of man. These are the sins of the world, the sins of the church, the sins of all men. We pray that the world may be saved from the sin of pride, that the church may be saved from the sin of hypocrisy, that all men may be saved from the sin of superstition. If the world were as we would have it, there would be no sin. But the world is not as we would have it. Therefore, the world is in sin. Therefore, we must seek to save the world from sin. But how shall we save the world from sin? We must endeavor to teach the world the true meaning of sin. We must endeavor to show the world the true value of sin. We must endeavor to make the world understand the true nature of sin. We must endeavor to help the world to overcome sin. We must endeavor to help the world to live a sinless life. We must endeavor to help the world to be happy. We must endeavor to help the world to live a happy life. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace. We must endeavor to help the world to be at peace.
