

# THE DAILY IOWAN

PUBLISHED BY THE STUDENTS OF THE STATE UNIVERSITY OF IOWA

VOLUME XII

IOWA CITY, IOWA THURSDAY MORNING, MARCH 13, 1913.

NUMBER 115

## LETTERS AWARDED TO IOWA BASKETBALL MEN

**CAPTAIN BERRY, GARDNER, LEO, SCHULTE, MAIDEN AND PARSONS TO WEAR LETTER**

**L. A. U. Given to Fields, Dick and Trexel—Several Old Men to Appear Again Next Year—Bright Out Look For Fast Team.**

The athletic board met last night for the purpose of awarding letters to men of the basketball team who had played in the required number of games. The abolition of the two sports rule brought out new candidates for the team which seriously riddled the line-up as it appeared in the early games. This fact made the awarding of the honor "I" a matter attended with some difficulty.

The board determined to award "I's" to Captain Berry, Gardner, Leo, Maiden, Schulte and Parsons. "I. A. U's" to Fields, Dick and Trexel.

Many new faces will appear on the Iowa basketball team next year. Of this year's aggregation of fighters, Berry, Leo, Maiden and Weaver have played their last games for "Old Gold" Gardner, Parsons, Dick, Schulte, Brueckner, Fields and Trexel will form a nucleus of veterans for next year, and with the addition of Nevin, Stuart, Jacobson and Grisnel, the old Cedar Rapids high school star, a strong five should be produced.

## CAST IRON LADY TO BE IN PARADE

The Mecca-ner Monkey-workers assert that a lady is going to grace their parade.

She is made of cast iron and her name is Lucy.

Lucy will be one of the star performers of the parade.

Lucy has wheels in her head and wheels on her feet. None the less Lucy is a good girl and will be much appreciated by those who admire feminine beauty.

Look out for Lucy!

## OPEN TO VISITORS

The Taxidermy laboratories, rooms 11 and 12 new science building will be open to visitors on Friday from 3:30 until 4:30. Students interested in Accessory Taxidermy and Plastic art will have an opportunity to see the classes at work at this hour.

Prof. Nutting of the zoology department of the university is at Rock Island, Ill., where he will deliver a lecture before the scientific students of Augustana college of that city. The subject of his address is not known but will probably involve some interesting facts along scientific lines. He will be away only a day or so.

## UNIVERSITIES TO BE REPRESENTED

**Annual Conference of Deans to be Held Here March 18 and 19**

Fifteen state universities in the Mississippi Valley will be represented at the annual conference of deans to be held at the university on Iowa Tuesday and Wednesday, March 18 and 19.

Deans of colleges of liberal arts in state universities from Ohio to Colorado and from Minnesota to Kentucky will visit Iowa City as guests of Iowa's state university.

Those deans who will be present are F. R. B. Helms of Colorado, A. H. Daniels and E. J. Townsend of Illinois, H. A. Hoffman of Indiana, Olin Templin of Kansas, John R. Effinger of Michigan, J. E. Downey of Minnesota, J. C. Jones of Missouri, E. W. Davis of Nebraska, Melvin A. Brannon of North Dakota, J. A. Denney of Ohio, J. S. Buchanan of Oklahoma, E. C. Perisho of South Dakota, E. A. Birge of Wisconsin, and A. M. Miller of Kentucky.

## PARISH LECTURES AT CONFERENCE SEMINAR

**Tells What Writers of History Must do to Make Their Accounts More Realistic**

That writers of history must live in the period of which they write and try to picture the life of the people of past ages more realistic, was the central idea of Dr. John G. Parish's lecture before the conference seminar on methods of historical study held Monday afternoon.

He maintained that, in addition to dry facts, the historian must possess an imagination to clothe these facts and give them life. He should enter as much as possible into the spirit of the times which he wishes to depict. Francis Parkman's historical works were mentioned as good examples of realistic writing.

In order to narrate the deeds of past ages more truly to life, the historian must go as much as possible to the original sources, that is, writings of the men of those times, official documents, etc.

## NOTICE

On account of the university dinner the Y. M. C. A. classes on the Chinese Revolution and on the Challenge of the County will not be held this evening but will meet tomorrow evening at seven o'clock.

## NOTICE

If you have no ticket for the big dinner and want to see the fun at the armory tonight get a gallery seat for 10 cents. Toasts begin about 6:30.

Mrs. Ida Clark and daughter, Mrs. C. E. Knox, both of Casey, Ia., were called to Iowa City by the serious illness of Emmer Clark.

## MOVING PICTURES OF MECCA DAY PARADE

**PICTURE TO APPEAR IN CONJUNCTION WITH UNIVERSITY CADETS**

**Engineer's Show Will Probably be Taken if Illumination Effects Can be Installed—This Will Make Permanent Record of Event.**

Every once in a while the engineers get something new on the string. Now they are going to have their picture taken. Going to have 'em movin' pictures. Too. A man is coming all the way from Des Moines to do the taking. This fact proves that the engineers are worth going miles to "mug". The fact is the whole Mecca day celebration of the students of applied science is to be portrayed in immortal film. The personage from the Capital City intends to plant his tripod on some street corner and photograph the entire p-rade as it goes by. More than that he will, in all probability, photograph the show in the evening, also. This move originated partly through a demand, in past years, among university students for a permanent record of the engineer's stunt. It is recognized that the annual March affair is one of the best advertisements produced by the university, and as such, spreads the name of Iowa far and wide over the state.

Heretofore it has only been possible to give an idea of the celebration through an occasional post card picture or a newspaper cut. With a film record of the affair it will be easy to show the celebration in every town throughout the state. If pictures of the show are taken they will, of course, have to be made at a dress rehearsal, as special lighting effects are necessary. The engineers are working now on the problem of providing the necessary illumination. If the Des Moines man succeeds in getting the show, it, together with the "p-rade" will probably fill one film.

As originally planned, it was intended to put the p-rade on the same film as the pictures of the cadet regiment. Thus if the show is not taken, people of Iowa City must wait three or four months before the film showing the activities of the engineers can be produced. This delay will be a result of the delay in getting the cadet pictures which are necessary to fill out the reel. So if the show and p-rade together can be made to fill out the one reel the pictures will be shown in a much shorter time than otherwise. The pictures, if shown will probably be presented at one of the local theatres or if that proves impracticable, in the natural science auditorium.

## NOTICE

Varsity and freshman basketball teams report in uniform at Luscomb's Friday noon at 1:00 for Hawkeye pictures.

## FRESHMEN MAY GET BASEBALL

**Question is Now Before Athletic Authorities For Consideration**

The question of a freshman baseball team is now before the athletic authorities of the university for consideration, whether it would be advisable or not to go to the necessary expense to support such a team this year. The result of the consideration will be based entirely on the attitude of the freshmen toward the matter in the next few weeks.

Professor A. G. Smith is in favor of a freshman team and will do all in his power to organize one. The other members of the board are in favor of such a plan and will undoubtedly do all they can to help it along. It is evident from that it is up to the freshmen whether there will be a team or not. There is no reason why such a team could not be organized with such an abundance of baseball material as there is in the first year class. The university needs such a team to help the varsity get in form for its early games and also give the freshmen a year's experience before trying for the varsity and thus strengthen the latter team by having experienced men try out for the vacant positions.

It is up to the freshmen to let the university hear from them by getting together and organize permanently, then the athletic board will not fall in sufficient means for carrying it along.

## FAMOUS DISCOVERER MAY BE INDUCED TO COME TO IOWA

**Dr. Frederick F. Friedman May Come to Des Moines—Now Demonstrating in New York**

According to a dispatch from Des Moines, Dr. Frederick F. Friedman, the famous German expert on tuberculosis from Berlin may be induced to make a demonstration of his cure in Iowa at the combined invitation of the legislature, the state board of control, the state board of health, and the Des Moines Doctors' association. The movement was started in the legislature today when two members combined to advance the idea. It was proposed to offer Dr. Friedman \$1000 to visit Des Moines. If he can be gotten to Des Moines the university should certainly make every effort and be fully able to bring him to Iowa City. He is creating a sensation with his discovery in New York City at the present time.

## NOTICE

If you have no ticket for the big dinner and want to see the fun at the armory tonight get a gallery seat for 10 cents. Toasts begin about 6:30.

Mr. Charles Clark of Des Moines, one of the most prominent alumni of the university, is in Iowa City to attend the university dinner.

## PROFESSOR PALMER TO BE AT VESPERS

**COMES FROM HARVARD UNIVERSITY TO SPEAK TO IOWA STUDENTS SUNDAY**

**Is Noted Author—At Present Time He is One of the Senior Professors at Harvard—Will Meet With Phi Beta Kappa at Annual Banquet.**

Professor George Herbert Palmer of Harvard university will speak at the university of Iowa vesper services next Sunday afternoon.

Professor Palmer has received the degree of doctor of laws from many of the leading colleges and universities in the United States. At the present time he is one of the senior professors at Harvard. He holds the Alford professorship of natural religion, moral philosophy, and civil polity.

As a scholar, Professor Palmer is known as the author of the New Education, The Glory of the Imperfect, Self Cultivation in English, The Antigone of Sophocles, The Field of Ethics, The Nature of Goodness, The Life and Works of George Herbert, The Teacher, and a translation of The Odyssey. He also wrote a life of his late wife, Alice Freeman Palmer, president of Wellesley college.

On Saturday evening, March 13, Prof. Palmer will meet with the Phi Beta Kappa society of the university of Iowa at its annual banquet.

## INSTRUCTIVE LECTURE GIVEN ON SALVARSAN

**Prof. Kuever Deals With Chemical Side of Subject—Alsa Neo-Salvarsan**

Prof. R. E. Kuever, of the pharmacy college delivered a lecture before the Mortar and Pestle club Tuesday evening in the pharmacy lecture room. The lecture was on Salvarsan. Prof. Kuever dealt largely with the chemical end of the subject, treating it step by step, as Dr. Erlich took it up in his discovery known as 606.

Prof. Kuever also discussed at length upon Neo-Salvarsan, the result of Erlich's 914th experiment. He concocted both preparations before the audience, demonstrating at the same time. At the close of the lecture he exhibited microscopical slide studies of bacteria.

By presenting his subject step by step Prof. Kuever made it possible for even those unfamiliar with the subject to grasp the points clearly.

After the lecture Professor Rogers, of the dental faculty, also spoke a few words on the use of arsenic in dental practice. Dr. Chase, of the medical faculty, gave a short talk upon the opinion held by medical men toward 606 and 914.

## NEWMAN-C. F. U. NOTICE

Thursday Morning, March 13, 1913

**A REAL SPIRIT**

It is with great interest that we watch the progress of the engineers in their preparation for "Mecca Day". It is an inspiration to note the enthusiasm with which every student in the college of applied science takes part in the work. It is a lesson to see the way in which the various phases of the celebration is handled by the committees. This year they have worked out an entirely different program. They do not have the traditions, the various features of the celebrations of the past on which to build their program, this year. Undaunted, they unraveled the mysteries of the orient and have devised plans for a program which bids fair to eclipse anything ever held here.

**THAT PATH**

With regret we call attention to that path again. We mean the one from the natural science hall to the main bulletin board. Fences, requests and threats have failed to keep some classes of people from trespassing on the campus. We might suggest that for those who are in too big a hurry or too lazy to walk around on the side walk that the university erect an elevated over the campus and provide proper transportation for the aforesaid persons who need bone instead of cartilage to increase their spines.

**BIG DINNER TONIGHT**

The efforts of the Greater University Committee are to meet with all the success desired. All the plates have been sold and the gallery has been opened to those who wish to go to hear the toasts and to see one of

the big university events of the year. All plans are now complete for the entertainment. The decorations will be completed today and when this is finished everything will be in readiness for an evening of fellowship and the promotion of the interests of "Old Gold."

**GREAT EVENT ASSURED**

All the tickets available for the university dinner have been disposed of and no more are obtainable at the present time. Never before has the desired number of tickets been disposed of so rapidly as this year. That the occasion will far surpass any former dinner given by the university is without a shadow of a doubt at the present time. The students have come forward with good spirit toward helping it to be a success. The supper will commence promptly at 6:00 o'clock and will continue until all are satisfied. Between the various courses there will be spicy toasts by prominent men and other forms of amusements and entertainments.

**CADET BATTALLIONS ARE OUT THIS WEEK**

**FIRST BATTALION DRILL TUESDAY EVENING—SECOND LAST EVENING**

**Out Door Drills to Begin After Spring Recess—Sunrise Drill Probable—Is More Satisfactory Than Afternoon Sessions.**

Battalion drill was introduced this week for the first time this year. The first battalion drilled Tuesday evening in the armory under command of Major Urick and the work was commendable when the fact that the movements are entirely new to the officers is considered. The second battalion under command of Major Sjulín drilled out doors last evening and their work was equally good. Commandant Hoffman means to make the battalion and the regiment as such, important features of department this year and consequently will probably devote considerable time to this sort of drill when the weather opens.

The work will continue until spring vacation as it has been given during the present semester, one drill, one theoretical class, and one gym class each week. After the recess drill in earnest will be taken up if weather conditions will permit the men to get out doors. In case the parade ground has dried by that time drills will be held three or five times a week and this plan will be continued until the close of school. The question of sunrise drill has not been decided but it is probable that the youthful soldiers may again get to enjoy the early formations. The question will probably be settled soon after vacation. While early morning drill has some disadvantages to the individual cadets, it is really more satisfactory than the afternoon sessions. With the men fresh in the morning the work is more peppery and when the drill is finished the cadets have the entire afternoon free for other work.

Homer I. Smith, a former desk editor of the Iowan, has accepted a position on the editorial staff of the Clinton Herald.

**Saturday, March 15th**

The first complete showing of Spring Merchandise occurs in the New Way Store.

We want you to be present whether you are ready for your Easter clothes or not. Come and see our exhibit of men's clothing and furnishings displayed in a way whereby you can see at a glance the newest styles in men's wear for Spring 1913.

Some of the departments are now ready for your inspection. Suits and Caps complete.

Although the cast for the play to be produced by the dramatic society of Wisconsin university has been selected yet the members will not be allowed to take part in the play until the faculty decides whether or not they are ranking well in scholarship.

Harvard has passed a new rule, which requires an examination covering the entire four years course before a B. S. degree will be given.

Grand Easter Millinery Exhibit

FRIDAY and SATURDAY

MARCH 13 and 14

## Spring Styles 1913

WHEN we will display the best and most practical examples of the French and English Millinery Artists; typical adaptations of the Frenchiest and extreme styles, minus the French extravagant prices.

There are some terribly funny hats this season, many of which we do not expect to show; high shapes with narrow brims, "Robert McCaire" style; "Melon" hats in velvet, adorned at back with a gigantic wing or feather; "Kate Greenaway" hoods cut out all around and bordered with colored roses; foraging caps trimmed in front with three little red apples, are a few of the most striking. Then there's the "Little Red Devil," Madam Dalany, Mandarin, Harem, Dutch Sailor, Tommy Atkins, Original Nell-Rose, Bulgarian, Kismeth, Question Mark and Interrogation.

A cordial invitation extended to all.

SPECIAL MUSIC.

Upstairs 119 1/2 Dubuque Street Upstairs

## MEN FLOP AROUND TO RAG TIME AIRS

GYMNASIUM TEAM HAS INTERESTING TIME TRYING TO LISTEN TO MUSIC

New Idea Introduced Lately Makes Big Hit With Men Taking Exercise Under Director Schoeder—Pianist Good.

The man who wrote the some time popular air, now almost forgotten, entitled "I Like Music With My Meals" might get a new inspiration that would lead to another big success if he could only watch the Iowa gym classes in action. Certainly the music that is being furnished at the armory is enough to make a big hit with anybody.

On the whole it is interesting to go down to the armory and watch the men take a work out under the direction of Physical Director Schoeder. The verdict of all who line up in the gallery to watch the performance is that, for high class work, the classes this year are unsurpassed.

### Standing Room Perhaps

Because of the congested condition of the main floor the spectators are relegated to the gallery but here during each class many are watching the performance. It has been suggested that if the armory is not enlarged soon that standing room may be at a premium.

A Daily Iowan reporter escaped the watchful eye of the ever present janitor and managed to get on to the main floor to see how the thing was really run. The director has his men as well trained as any company of soldiers. They scatter themselves around over the floor, just far enough apart to allow them to move freely.

All the men are dressed in white gym suits, and the director sees that they are white too, so that they make a pretty picture as they move all in unison at the command of Director Schroeder up in front, who goes through all the movements with them. And here is where the music comes in.

### Latest Rag Time

Up in front is a piano where an artist presides over the "ivories". Marches, waltzes, and two steps are the order of the day when the class starts. A movement that takes four counts to execute goes with a march and so on through the different kinds of musical time.

There are no dreary dirges or classical selections in music given the men on the floor. That is what makes it interesting. Men throwing their arms and legs, in fact their whole bodies sometimes, in perfect unison to the strains of "Day Dreams" or "Two Little Love Bees" is certainly unique.

This is all perfectly correct according to the view of the Iowan reporter who saw it and it may be seen by any man who is interested any time that the classes are going on. But truly Director Schroeder is doing great things with his classes and the addition of music has been responsible for much interest displayed lately.

# SHOOT WITH SOONERS BRINGS IOWA VICTORY

EXCELLENT MARKSMANSHIP IN PRONE DIVISION—STANDING SCORE LOW

National Championship in View—To Shoot Against Washington University Next Week—Rivalry For Places Very Keen.

Iowa finished shooting against Oklahoma, piling up the biggest score of the year. The team did some remarkably good work this week, especially in the prone division. The standing scores were not up to the standard that has been set in the past, and if the men had been able to do more satisfactory shooting in this division their score would have been a record breaker. The work of every man on the ten man team was creditable and the result this week indicates that the local team is fast rounding into their old time championship form. Sergeant Rahming who is coaching the team will be content with nothing less than a national championship this year, and if the men continue in their present pace his hopes most probably will be gratified.

The standing of the men in this week's shoot is as follows:

	Stand.	Prone	Total
A. I. Arneson	98	99	197
R. L. Jaeger	98	97	195
P. G. Ingham	91	100	191
B. Reinsch	93	98	191
J. W. Brooks	89	99	188
<b>Total</b>			<b>962</b>
Fred Boerner	88	96	184
R. L. Borland	85	98	183
G. W. Cain	88	99	187
Leo Chapman	89	97	186
L. Oehler	88	96	184
<b>Total</b>			<b>924</b>

Next week the locals meet the strong team representing the university of Washington. The week following the representatives of West Virginia are to be encountered and both of these teams are of considerable strength in the Western League. To prepare for these matches the men will hence forth do their shooting late in the evening so that their work will not be hindered by men working in the gym. As the try-outs are not yet finished it is impossible to give the line-up of the team which will represent Iowa next week. The rivalry for places is especially keen at this time and no man has a sure place on the ten man team. All the men trying out are good shots and there is so little difference in their work that each has an equal chance at the coveted positions.

Stanford university has enrolled a Japanese student who entered for the sole purpose of studying the subject of international peace. He represents the Japanese Peace Society.

The youngest man who ever received a degree of doctor of philosophy at Harvard is Norbert Wiener who is only eighteen years old. Mr. Wiener who is the son of a Harvard professor will receive his degree next June. He specialized in philosophy and mathematics.

Advertise in the Iowan. It pays!

## GOLF ENTHUSIASTS AFTER ASSOCIATION

THE UNIVERSITY GOLF PLAYERS MAKE PREPARATIONS FOR ASS'N

Some of the Most Prominent Players Enrolled in Colleges and Universities of State—To Take Action During Spring Vacation.

Preparations are being made by the golf enthusiasts in the university to form an intercollegiate state golf association which will include the larger schools in Iowa. Among the most prominent of these are Drake, Ames, Des Moines college, and the university of Iowa. This has been agitated for a number of years, but not until last fall were any definite arrangements made. At that time representatives from the above five schools met in Des Moines for the purpose of organizing such an association.

At the present time some of the most prominent golf players in the state are enrolled as students in Ames and Iowa. The Aggie team will be headed by the present state champion, "Bill" Sheehan of Des Moines, while the Hawkeyes will have such celebrities as Arthur Gordon, former champion of Iowa; Finkbine, one of the stars of the Hyperion club of Des Moines; O'Brien and Barngrover of the same place; and many other aspirants for the premier honors in this sport. Drake boasts of won-

derful material and having the advantage of a number of good links in the Iowa metropolis, it should have little trouble in turning out an all star aggregation.

Final preparations for this newly organized club will be made by the different institutions during the spring vacation. A schedule for the matches will be made.

This is a novel venture in the field of college sports and it will be welcomed when it becomes known that it is to be put on the same basis as the other branches of athletic activities in the institutions of the state. It is successfully carried among the eastern universities and there is nothing to prevent it from assuming the same standard in the west.

Miss Stella Wolf of Cedar Rapids was a guest at the Delta Delta Delta house yesterday.

### "GOING SOME" ATTRACTS ENTHUSIASTIC AUDIENCE

Production Presented in Effective Manner—Play Was Well Constructed

The university Dramatic club presented the comedy, "Going Some" to a large and appreciative audience last evening. Most of the parts were creditably taken and although the action dragged at the beginning, the play as a whole went along quite smoothly. The club is to be commended on the dispatch with which the production was staged, as the waits between acts which usually

mar the enjoyment of amateur productions were conspicuous for their absence. The play itself, while rather light, has a well constructed plot and numerous comical situations. It is a man's play, there being but four feminine roles in a cast of twenty.

Roscoe Patch, who has been seen in numerous local productions, was easily the star of the evening, and his handling of the comedy in the character of J. Wallingford Speed was one of the features of the play. Ralph McGinnis, as Larry Glass, Speed's trainer, was equally good and showed considerable ability as a character actor. Miss Louise Clark was winsome and attractive in the leading feminine role, playing her part in a pleasing manner. Miss Fan Bradley and Miss Alice Loos did well in minor parts. Steve Casey and Verne Foley as wild men of the west were blood thirsty, and their well presented characters added much humor to the piece.
