LETTERS AWARDED TO IOWA BASKETBALL MEN

CAPTAIN BERRY, GARDNER, LEO, SCHULTE, MAIDEN AND PARSONS TO WEAR LETTERS

I. A. E. Given to Fields, Dick and Treutler—Several Men to Appear Again Next Season—Night Out Friday

The athletic board met last night for the purpose of awarding letters to men of the basketball team who played in the required number of games. The abolition of the two sports rule brought out new candidates for the team which seriously rivaled the line-up as it appeared in the early games. This fact made the awarding of the I. A. E. a matter attended with some difficulty.

The board determined to award the I. A. E. to Captains Berry, Gardner, Leo, Schulte and Parsons. "It's a fine day," said Treutler.

Many new faces will appear on the Iowa basketball team next year. Of this year's aggregation of fighters, Berry, Leo, Malloy and Waiver have played their last active for Iowa football, fencing, track, scholastic, basketball, track and field or tennis and will form a nucleus of veterans for next year, and with the addition of Nurr, Stuart, Jackson and Gobol, the old Cedar Rapids high school boys, a strong fire should be produced in I. A. E.

MOVING PICTURES OF MECCA DAY PARADE

PICTURE TO APPEAR IN CONJUNCTION WITH UNIVERSITY CEREMONIES

Engineer's Show Will Probably be Taken If Illuminated Effects Can Be Worked out to Perfection in Permanent Record of Event.

Every one is in a while the engineer gets something new on the string. Now they are having to give them their picture taken. Going to have "many marvelous scenes," a film is coming out the way the Des Moines to do the taking. This fact proves that the engineers are worth going, going, going. The time is in the whole Mecca day celebration of the student of applied science to be portrayed in illuminated film. The engineer's show is expected to be on hands. Plans tend to plant his tripod on some street corner and photograph the entire street. More than that he will, in all probability, photograph the show in the evening. This move originated partly through a demand, in past years, among university students for a permanent record of the student's scene, it is expected that the best of the advertisements produced by the university, and as such, spreads the Iowa tax and wheat over the state. Hereupon it has only been possible to give an idea of the color, of the engineering works were mentioned as good examples of realistic writing.

To make their accounts more logical, he historian must be in the period of which they write and try to picture the life of the era. Of the main university resistance, was the central idea of Dr. John G. Parlin's lecture before the conference on methods of histori- cal study held Monday afternoon. He maintained that, in addition to dry facts, the historian must possess imagination to reconstruct and give life their. He should reverence as much as possible into the spirit of the times in which he wishes to de- scribe. Francis Parkman's historical works were mentioned as good ex- amples of realistic writing.

In order to narrate the deeds of past ages more truly to life, the histo- rian must go as much as possible to the original sources, that is, writ- ers of the men of these times, of official documents, etc.

NOTE

On account of the summer vacation div- ision of the Y. M. C. A. classes on the Chinese Revolution and on the Chal- lenges of the County will not be held in the near future, a special evening will be held at seven o'clock.

NOTE

If you want to appear on the big dinner and want to see the fun at the armory tonight get a gallery seat for 10 cents. Tama begins about 9:30.

NOTE

Madam Clara Clark and daughter, Mrs. C. E. Kline, both of Cedar Rapids, were called to Iowa City by the serious illness of Emmer Clark.

FRESHMEN MAY GET BASEBALL

Question: Now Before Athletic Asso- ciation For Con- sideration

The question of a freshman base- ball team is now before the athletic authorities of the university for con- sideration, whether it would be ad- visable to make some attempt to form up a team for the new year's expiring to support such a team this year. The result of the con- sideration will be based entirely on the attitude of the freshmen toward the matter in the next few weeks.

Professor A. G. Smith is in favor of a freshman team and will do all in his power in order to organize one.

The other members of the board are in favor of such a team, but will probably not do anything out the matter until they can help it along. It is evident from that it is up to the freshmen from whom there can be a team of baseball players, to form up one. There is no reason why such a team could not be organized with such an abundance of baseball material as there is in the first year.

The university needs such a team to help the varsity get in for its early games and also give the Fresh- men a chance to participate in the fun for the varsity and thus strengthen the latter team by having ex- perienced men try for the varsity team.

It is up to the freshmen to be the university hear them by getting themselves a baseball team, and then the baseball team will not fail sufficient means for carrying it along.

FAMOUS DISCOVERY MAY BE INDUCED TO COME TO IOWA

Dr. Frederick F. Friedman May Come to Des Moines—New Demo- nstrating in New York

According to a dispatch from Des Moines, Dr. Frederick F. Friedman, the famous German expert on tuber- culosis from Berlin may be induced to make a demonstration of his cures in Iowa at the combined invitation of the legislature, the state board of control, the state board of health, and the Des Moines doctors' association. The movement was started in the legislature today when two representatives combined to introduce the idea. It was proposed to offer Dr. Friedman $1000 to visit Des Moines, but he was notified that if he would present his work in New York City the university should certainly make every effort and be fully able in bringing him to Iowa City. He is creat- ing a sensation in New York City at the present time.

NOTE

If you want to appear on the big dinner and want to see the fun at the armory tonight get a gallery seat for 10 cents. Tama begins about 9:30.

NOTE

Varsity and freshman basketball teams report in uniform at Iowa City on Monday at 1:00 for Hawksville picture.

Professor Palmer to Be Vesperer

COMES FROM HARVARD UNIVERSITY TO SPEAK TO IOWA STUDENTS

In Noted Author—At Present Time He is One of the Senior Professors at Harvard—Will Meet With Phi Beta Kappa at Annual Banquet.

Professor George Herbert Palmer of Harvard university will speak at the university in Iowa vesper ser- vices next Sunday afternoon.

Professor Palmer has received the degree of doctor of law from many of the leading colleges and universities in the United States. At the present time he is one of the senior professors at Harvard. He holds the Alfred professorship of natural religion, moral philosophy, and civil jurisprudence.

On Saturday evening, March 15, he will deliver a discourse to the Phi Beta Kappa society of the university of Iowa at its annual banquet.

INSTRUCTIVE LECTURE

PRESENTATION GIVEN ON SALVADOR

Prof. Kuever Deals With Chemical side of Salvador—Asa N. Salvador

Prof. R. S. Kuever, of the phy- sical laboratory delivered a lecture before the Mortar and Pestle club Tuesday evening in the pharmacy lecture room. The lecture covered the subject of Salvador. Prof. Kuever dealt largely with the chemical end of the subject, treating it step by step as Dr. Britch took it up in his discovery known as 606.

Prof. Kuever also discussed at length upon Neo-Salvador, the re- sult of Britch's 8084 experiment. He connected both preparations with- out the audience, demonstrating at the same time. He concluded his lecture with a number of microscopic slides of bacteria.

By presenting his subject step by step Prof. Kuever made it possible for even those unfamiliar with the subject to grasp the points clearly.

After the lecture Professor Rus- sel also gave Kuever a short talk on a few words on the use of arsenic in dental practice. Dr. Chase, of the medical faculty, gave a short talk upon the use of arsenic by medical men toward 606 and 814.

NEWSMAN. F. P. C.

There will be a joint program at K. C. Hall Friday evening at 5 p. m.
SATURDAY, MARCH 15TH

The first complete showing of Spring Merchandise occurs in the New Way Store.

We want you to be present whether you are ready for your Easter clothes or not. Come and see our exhibit of men's clothing and furnishings displayed in a way whereby you can see at a glance the newest styles in men's wear for Spring 1913.

Some of the departments are now ready for your inspection. Suits and Caps complete.

As the cost for the play to be produced by the dramatic series of the University of Wisconsin has been selected yet the members will not be able to take part in the play until the faculty decides whether or not they are making well in scholarship.

Don't throw down your second hand clothing and shoes away when you get good prices at 114 S. Dubuque St. Phone 212.

CADET BATTALIONS ARE OUT THIS WEEK

FIRST BATTALION DRILL TUESDAY EVENING—SECOND LAST EVENING

Out Door Drills to Begin After Spring Season—Saves Iwlvi Protection—More Satisfactory Than Afternoon Sessions.

Battalion drill was introduced for the first time this year. The first battalion drill Tuesday evening in the armory under command of Major Urch and the event is commendable when the fact that the movements are entirely new to the officers is considered. The second battalion under command of Captains Glenn drilled out doors last evening and their work was equally good. Commandant Huffman makes a point of the development and the rapidity and extent of such important features of department this year and consequently will probably devote considerable time to the sound of drill when the weather opens.

The work will continue until spring vacation as it has been given during the present semester, one drill, one theoretical class, and one gym class each week. After the recess drill in evans will be taken up as weather conditions will permit reason to get out doors. In case the parade ground has dried by that time drills will be held for three or five times a week and this plan will be continued until the close of school. The quantity of evans drill has not been decided but it is probable that the youthful soldiers may enjoy the early formations. The question will probably be settled soon after vacation. While early morning drilling has always gone to the individual cadets, it is really more satisfactory than the afternoon sessions. With the men present it is in forming the correct cases to the individual cadets, it is really more satisfactory than the afternoon sessions. With the men present it is in forming the correct cases to the individual cadets, it is really more satisfactory than the afternoon sessions.

FRIDAY and SATURDAY
MARCH 13 and 14

Spring Styles 1913

When we will display the best and most practical examples of the French and English Millinery Artistas; typical adaptations of the Frenchiest and extreme styles, minus the French extravagant prices.

There are some terribly funny hats this season, many of which we do not expect to show; high shapes with narrow brims; "Robert McGoire" style; "Melon" hats in velvet, adorned at back with a gigantic wing or feather; "Kate Greenaway" hoods cut out all around and bordered with colored roses; foraging caps trimmed in front with three little red apples, are a few of the most striking. Then there’s the "Little Red Devil," Madame Dalany, Mandarin, Harem, Dutch Sailor, Tenmy Atkins, Original Nell-Rose, Bulgarian, Kimmeth, Question Mark and Interrogation.

A cordial invitation extended to all.

Men Flop Around to Ragtime Airs

Graduation from your college? A few words on the subject of music.

The man who wrote the spring-time popular, "The Song of My Heart," might get a new inspiration that would lead to another big success if he could only watch the Iowa gym classes in action. Certainly the music that is being furnished at the armory is enough to make a big hill with anybody.

The whole is interesting to go down to the armory and watch the men take a work out under the direction of that Director of Physical Education. The verdict of all who line up in the gallery to watch the performance is that, for high class work, the classes this year are unsurpassed.

Standing Room Parable

Because of the crowded condition of the main floor the spectators are relocated to the gallery but here during each class many are watching the performance. It has been suggested that if the armory is not enlarged soon that standing room may be at a premium.

A Daily Iowan reporter escaped the watchful eye of the ever present janitor and managed to get on the main floor to see how the thing was really run. The director has his men as well trained as any company of soldiers. They scatter themselves around over the floor, just far enough apart to allow them to move freely.

All the men are dressed in white gym suits, and the director sees that they are white too, so that they make a pretty picture as they move all in unison and in strong contrast of color. Schroeder up front, who goes through all the movements with them. And here is where the music comes.

Latest Rag Time

Up in front is a piano where an artist presides over the "Ivories." Marches, waltzes, and two steps are the order of the day when the class starts. A movement that takes four counts to execute goes with a march and an easy rag through the different kinds of musical times.

There are no dreary groups of sentimental selections in music given on the floor. That is what makes it interesting. Men throwing their arms and legs, in fact their whole bodies, into the performance, in perfect unison to the trains of "Day Dreams" or "Two Little Love Bears" is certainly unique.

This is all perfectly correct according to the view of the Iowa reporter who saw it and it may be seen by any man who is interested any time the class are at their going on. Recently Director Schroeder is doing great things with his classes and the additions of music has been responsible for much interest, displayed lately.

EXCELLENT MARKSMANSHIP IN PRiNce DIVISION—STANDING SCORE LOW

National Championship in View—To Shoot Against Washington University Next Week—Begins Friday--For Places Very Keen.

Iowa finished shooting against Oklahoma, piling up the biggest score of the year. The team comes back next week, especially in the prone division. The standing scores were not up to the standard that has been set in the past, and if the men had been able to do more satisfactory shooting in this division their score would have been a record breaker. The work of every man on the Iowa team was creditable and the result this week indicates that the local team is fast rounding out into their old-time incomparable team.

Rahmeyer who is coaching the team will be content with nothing less than a national championship this year, and you can be rest assured that every present piece of his hopes probably will be gratified.

The stopping of the men for this week's work is as follows: (Stand. Prone Total)

A. J. Arneson 98 99 197
B. A. Arneson 98 99 197
P. B. Diam 91 100 191
B. Reinhart 93 99 192
J. W. Brooks 89 99 188

Total 962

Fred Beare 96 96 192
R. L. Burford 95 98 193
C. W. Chin 99 99 198
L. Chapman 93 97 190
R. L. Oehler 98 94 192

Total 942

Next week the locals meet the strong team representing the university of Washington. This week losses have occurred in the armory and Iowa. The Aggie team will be headed by the present state champions, "Bill" Shaw and of Des Moines, while the Hawkeyes will have such celebrations as Arthur Gordon, former champion of Iowa, Finkboner, one of the stars of the Hyperion club of Des Moines; O'Brien and Hargrove of the same place, and many other local performers. The game is sure to be good. It is a little different in their work that each has an equal chance, at the coveted positions.

Stanford university has enrolled a Japanese student who entered for the sole purpose of studying the subject of international peace. He represents the Japanese Peace Section.

The youngest man who ever received a degree of doctor of philosophy at Harvard is Nishimura who is only eighteen years old. Mr. Nishimura is a son of a Japanese professor who will receive his degree next June and is well-qualified in philosophy and mathematics.

HELLO BUNCH—Did you say warm weather? Well 'bout the only thing that reminds me of the good old S. T. is some of the mysterious rags that Mike is throwing over the shoulder of Hawkeyes. He isn't good enough to be those black an' white checks have got me going—'em night an' day; can't get away from 'em. No mistake, I said my hip measure was 23.

GOLF ENTHUSIASTS

Golf Enthusiasts

THE UNIVERSITY GOLF PLAYERS MAKE PREPARATIONS FOR AM

Some of the Most Prominent Players Enrolled in Colleges and Universities of State—To Take Action During Spring Season.

Preparations are being made by the golf enthusiasts in the state to form an intercollege state golf conference which will include the several large schools in Iowa. Among the most prominent of these are Drake, Ames, Des Moines college, and the university of Iowa. This has been originated for a number of years, but until last fall were no definite arrangements made. At that time representatives from the above schools were met in Des Moines for the purpose of organizing such an association.

It is at present some time of the most promising golf players in the state are enrolled as students in Iowa, Ames and Iowa. The Aggie team will be headed by the present state champions, "Bill" Shaw and of Des Moines, while the Hawkeyes will have such celebrations as Arthur Gordon, former champion of Iowa, Finkboner, one of the stars of the Hyperion club of Des Moines; O'Brien and Hargrove of the same place, and many other local performers. It is a little different in their work that each has an equal chance, at the coveted positions.

Drake boasts of wonderful material and having the advantage of a number of good links in the Iowa metropolis, it should have little trouble in turning out an all-star aggregation.

Final preparations for this newly organized club will be made by the different institutions during the spring vacation. A schedule for the matches will be made.

This is a novel venture in the field of college sports and it will be welcomed when it is known that it is to be started. Among the other branches of athletic activities in the institutions of the state it is successfully carried among the eastern universities and there is nothing to prevent it from obtaining the same standard in the west.

Miss Steila Wolf of Cedar Rapids was a guest at the Delta Delta Delta house yesterday.

"GOLDEN SOLES" ATTENDS ENOUGH OF ATTENDANCE

Production Presented in Effective Mannequin Was Well Conceived.

The university dramatic club presented the comedy, "Going Home," to a large and appreciative audience last evening. Most of the parts were creditably taken and although the action dragged at the beginning, the play as a whole went along quite smoothly. The club is to be congratulated on the success with which the production was staged, as the walls between acts which usually mark the enjoyment of amateur productions were completely for their absence. The play itself, while rather light, has a well-constructed plot and charming incidents attached to it. In a man's play, there being but four female roles in a cast of twenty, is an accomplishment of some importance. Local production, was easily the star of the evening, and his handling of the comedy in the character of J. Wallington was one of the features of the play. Ralph McGinnis, as Larry Gillen, Speed's trainer, was equally good and showed considerable ability as a character actor. Miss Leon Clark was winsome and attractive in the leading feminine role, and her part in a boarding maison: Miss Fur Van Buren and Miss Alice Lost did well in minor parts. Steve Canary, as the Roscoe Paten team, was white and thirty. Their perform were presented added much honor to the piece.
