ASPIRANTS FOR CUP WILL BATTLB HARD

EXCITING GAMES WILL BE SEEN WHEN WHISTLE BLOWS AT 2 P. M. TODAY

Davenport and Jefferson to Play Opener - Teams Arrived. Last Evening-Davenport Picked For First Place.

With more than fifty high school athletes in the city, everything is bright on the football scene. Jefferson is to have its first full basketball tournament that was ever held in the middle west. The eight teams which are to participate that afternoon seem to be carrying on very early last evening with the feeling of confidence exhibited in each of the teams. Urban plans to have a game at 2 p.m. to start the contest between Davenport and Jefferson, the intense rivalry which is characteristic of those basketball fans will begin.

After a careful consideration of the records made by the teams during the past season, Davenport seems to have made the edge on Jefferson for one thing a sure blaze. Davenport has lost two games, but Missouri, which overwhelmingly dominated Missouri in two contests, was an easy prey for the Tri-City boys.

Ottumwa looks like second place after comparing it with Davenport and the teams that both aggregations have played. Fairfield, which is not represented easily won from Ottumwa on the latter floor and Grinnell which overpowers the game in Grinnell.

The standing of the teams in the eastern and southern districts are as follows:

Eastern League
- Harvard
- Mon. Argie
- W. Iowa
- North Iowa
- Columbia
- Norwich university
- Davenport
- Grinnell
- Sioux

Western League
- West Virginia
- Illinois
- Minnesota
- Michigan
- California
- Kansas
- Colorado
- Nevada
- Connecticut
- Nebraska
- Missouri

BULLETIN PLACES HAWKEYE SECOND

Harvard and West Virginia Head Two Divisions of Little League State Tourney

Official bulletin No. 11 of the Intercollegiate Little League matches for the United States championship has been received from Washington.

This bulletin includes all the best two matches of the schedule and consequently gives a good idea of what the standing of the various teams will be at the end of the contest. On Tuesday afternoon the championship of the eastern division, but the western title is to be decided Friday.

If Iowa succeeds in beating West Virginia this week, as the destroyers did in the first two rounds, they should be on their way to the championship. This will necessitate some post-season matches to determine the standing.

It is expected that the result of the Iowa match will be received from Washington tomorrow so that the figures will be available for printing today.

The standing of the teams in the eastern and southern districts are as follows:

Eastern League
- Harvard
- Mon. Argie
- W. Iowa
- North Iowa
- Columbia
- Norwich university
- Davenport
- Grinnell
- Sioux

Western League
- West Virginia
- Illinois
- Minnesota
- Michigan
- California
- Kansas
- Colorado
- Nevada
- Connecticut
- Nebraska
- Missouri

HIGHLAND BASKET BALL CHAMPIONSHIP

The university of Iowa ranks high as an institution for advanced studies and research workers, according to a statistical report just compiled by Prof. C. E. Beardsley, dean of the graduate college. Among state universities of the United States, Iowa takes a second place as to the percentage of graduate students in the whole enrollment, while if the large endowed schools are included Iowa ranks tenth.

The total number of students enrolled at Iowa, 7,147 per cent are post graduates, at California, 3,927 per cent. In Iowa, in every class, whether it be taken, including summer session, the percentage will be still larger, as one third of the student body will be summer session. Iowa is high as graduate students. This raises the figure for Iowa to 11.7 per cent. The state university graduate college was organized as a separate college in 1896 and since then has had a prosperous growth under the management of Dean Beardsley.

John Hopkins university leads the list with 26.9 per cent of its students pursuing advanced study, and Columbiana comes next with 25.7 per cent.

In Des Moines yesterday

Word was received that a sensation was sprung among those vitally interested in the educational fight yesterday when Senator Kimball introduced a bill providing the changes ordered in the three state schools by the board of education with the exception of maintaining domestic science in all the state institutions. He goes further and gives the state board more power.

PANDORA PLAYERS WILL
GIVE PLAY APRIL EIGHT

"The Gentlemen from Mississippi"
Will be shown Friday at Stoughton at 8 p.m.
Natural science

The Pandora players will put on their first production of the school year at the auditorium on the evening of April 8. It is the play that Stoughton High School's own McFetish started in a few years ago, "The Gentlemen from Mississippi." The high school that has spent the greater part of the winter preparing for this presentation and it is supported by an unusually strong cast, well adapted for the different parts.

The cast as follows:

Sen. Langdon .... Richard Tingen
Sen. Timothy .... John Arthur
Tor. Norton .... Carl Broxman
Randolph Langdon .... Jay Barry
"Kid" Hamlin .... George Glick
Colonel Honeman .... A. Otteh
Clk. ..... W. M. Whitaker
Colonel Traylor .... G. R. Neuton
Herman Silverman .......

The PANDORA PLAYERS will present "The Gentlemen from Mississippi" on April 8. The play will be shown at 8 p.m. at Stoughton High School. The cast is well adapted for the different parts and includes many talented students.

SENIORS NOTICE
Try-outs for parts in the senior class play "The Rivals" will be held Tuesday, April 1, at 7 p.m., 1. A. assembly hall.

The try-out is to consist of an interpretation or reading of any speech, not less than ten lines, that is given by the character you wish to represent.

Those wishing to try out can find a playing version of the play on reserve at the library. For further particulars see J. H. Anderson 516 S. Clinton.

A total of 206 courses, distributed over fifty subjects, is to be offered at the Wisconsin summer session this year.

CONCERT SOON
The university orchestra which made such a fine impression in its first public appearance when it played for the "Violets of Normandy" will soon give a public concert. At its next regular meeting on Monday evening the date will be decided on and other details arranged.

J. W. Morgan, pharmacy '61, of Laurens, Iowa, has been visiting at an pharmacy college for the last few days. Mr. Morgan is the owner of two drug stores, one at Laurens and the other at Clarion. He is staying at the home of his brother, Dr. C. H. Morgan on North Dubuque street.

Professor E. L. Schaub, of the department of philosophy is in Webster City on business.

COMPANY "I" ARMORY
RECENT PUBLICATION OF IOWA MEDICAL JOURNAL HAS ARTICLES ON UNIVERSITY

Entire Paper Devoted to College of Medicine—Articles Written by Members of the Faculty—Many Interesting Topics.

The current number of the Iowa Medical Journal is devoted to the university college of medicine and contains articles by a number of faculty members. The first article is a history of the college by Dean Guthrie. He gives a detailed account of the formation of the faculty by Dr. Peck, Judge Dillon and John P. Irish in 1875 and the subsequent changes down to the present year. He also briefly outlines the various quarters and equipment used by the college in its last painter days.

This article is followed by one dealing with the present equipment of the college by Dr. C. B. Chase. He emphasizes the hospital out of the facilities. President Bowman follows with an article on the "Future of the College of Medicine." He deals with the various losses of the college to its usefulness both to graduate and undergraduate students and to the people of Iowa in general.

Dr. Henry Albert and Dr. A. L. Grover have prepared a contribution from the department of pathology on a case syphilis. The first one to be recognized as such in the state of Iowa. This is a rather rare disease, there being but 15 cases reported from this county. The case is important in that it is the first one to be recognized in this state rather than its rarity. It is important too in that it is a rather dangerous disease and is also one that will yield to a specific treatment.

This article is followed by one by Dr. Van Apps on "Symptoms of the Nervous System." This article shows a discussion of the importance of laboratory methods in the treatment and diagnosis of hostile disorders. The relation of symptoms to the nervous system has taken on a greater importance since the discovery and isolation of the treponema pallidum in the brain of certain animals by Dr. Negri at the Rockefeller Institute.

Dr. J. T. McCollum follows with a discussion of "The Physiological Defense of the Body against Infection." In this paper he considers the problem involved by the living membrane, the process of phagocytosis, the formation of antibodies, and the phagocytic mechanism. These processes are considered from the mechanical, chemical and biological viewpoints.

Dr. C. S. White is. He discusses the various forms and their values. Dr. E. E. Backwood offers an article on some of the medicolegal mistakes that the profession has held in the country. "Dentures reborned" is the title of the paper contributed by Dr. B. H. Kreischer. He discusses its structural modifications, variations, etiology, diagnosis and treatment.

The series of faculty papers is closed by a discussion of "The Responsibility of the Treatment of Cancer," by Dr. William Johnson. In this article he cites tables to show the prevalence of cancer. He then takes up some of the more common and dangerous forms, and, closing with some of the forms of treatment. Throughout the entire paper he makes clear the responsibility of the physician in treating and diagnosing cancer. The importance of early diagnosis of all neoplasms whether benign or malignant is urged.

There is an editorial praising the university college of medicine and also its attitude toward the now disbanded Drake medical school. The magazine abounds with illustrations, some relating to the articles but more as views of the university.
