FIVE MEN ELECTED TO ORDER OF THE COEF.

NAMES OF HONORED SENIOR LAW STUDENTS GIVEN OUT YESTERDAY.

Membership in society Based on High scholarship—New Members of Chapter Proclaimed in University Activities.

The election of the following men to the Order of the Coef., Iowa City, a society of the College of Law at the University, was announced yesterday.

Earl E. Beiermeier, Iowa City.
Arthur G. Cowan, Iowa City.
Sound D. Wadish, Wapello.
Warner W. Good, Davenport.
The Order of the Coef. is a national organization with chapters in a large number of the more important schools of the country. The Iowa chapter was established in 1911. The active membership of the society is chosen from the senior and junior senior male students, who according to the official records of the school, rank high in scholarship and character, and are chosen after a secret ballot of the electors. The election is usually held after the completion of the first semester of the senior year, and consequently no student would be elected, or even made a member of the society for the sake of being a member.

The members chosen this year have all shown an excellent record during their college course and are representativearies of a number of other fields. All but one are graduates of the College of Liberal Arts.

FRESHMAN BASE BALL.

PLAYERS HOLD MEETING.

Captain Von Lackum of Varsity Team Gave Tell, to Prospective Candidates.

A meeting of freshmen base ball enthusiasts was held in Cl高层 Hall yesterday afternoon by Captain Von Lackum of the Varsity Team.

The call was given by Captain Von Lackum who, it was stated, was an ex-scholarship boy at the University of Chicago, and the meeting was attended by about twenty-five of the more prominent members of the team.

About thirty men were on hand.

Captain Von Lackum of the Varsity team gave tell, or as the students call it, to prospective candidates for the base ball team, which would probably be organized as soon as the weather would permit. He stated that an effort would be made to have a team from some of the ineligible ball players in the university. A call for players would probably be made this week.

BIG RUSH FOR GENE PROOF TICKETS.

Good Seats May Be Had This Morning—Exceptional Evening Promised.

It has been a long time since an attraction at Register's caused such a rush for tickets that which took place Monday afternoon for the new season's baseball game will be remembered as one of the boldest ever seen in Iowa City.

Standing room tickets, which gave an indication of how the morning ticket began to go, showed before seven o'clock that over two hundred tickets were sold. Within five hours sold were almost a half thousand of the seats were sold. The rush was so great, however, and still there are a number of good seats left, which may be held this morning.

Middle Genre and her company of friends and partners were looking around the standing room seats and in the best of style.

It is with great deal of pleasure that the Register reports to Iowa City the return of the Register's Gene Page. The gene is going in great shape around town this evening and will not be, as reported from the New York Times: "The Red Sox, Indians and American League teams are fairly well appreciated in Iowa City at present, but the Register's Gene Page is the talk of the city."

"The Register's Gene Page is the talk of the town," is the report of the Register's Gene Page.

"The Register's Gene Page is the talk of the town," is the report of the Register's Gene Page, which was attended by a number of the more prominent members of the society for the sake of being a member.

LINDENSTAGE'S FIRST PRACTICE GAME OF THE YEAR.

NO Elimination Made Yet—Practise To Continue Present Squad.

Until Denmark Series Next Monday. Lindenstag's First Practise Game of the Year.

No elimination made yet—Practice to continue present squad until Denmark series next Monday.

One real baseball victory, of the kind favored by Coach Lindeman, was promised for Captain Von Lackum and his crew to capture upon Iowa City this evening.

Tourney conducted by the officials of the university. The baseball tournament has been a great success and will continue until the Danish teams arrive. The tournament is being a great success and will continue until the Danish teams arrive.

ENGINEERING SOCIETIES
STANDING IN UNIVERSITY

Are Valuable Means for Keeping an Interest in Profession of Engineering.

In no other college of the university do the different organizations bear a closer relation to the actual work of the profession, and those of the college of applied science. Two strictly professional societies, an honorary fraternity and the board of their technical magazine all help to keep alive interest in the problems and progress in the world of engineering.

First there is the American Institute of Electrical Engineers, which is a national organization of men engaged in electrical engineering but there is also an intermediate bridge which has chapters in all the big engineering schools of the country. The chapter is composed of all the undergraduates, graduates, and students of electrical engineering. They meet at stated times for the discussion of problems relating to this branch of the profession; listen to talks by experienced engineers from different parts of the country, and alumni of the college. A similar club for students of general and civil engineering, although purely local, is the Compass Club organized at Iowa last spring and still operating. It meets every Thursday evening when papers are read by students, alumni, and engineers from other schools and the public. It is valuable to the men who wish to know more of their future special lines of work and in keep with the great advance in this branch of learning, the profession of engineering.

Membership in Tau Beta Pi, the honorary fraternity, is based on high scholarship in the college and great engineering science. Only one fourth of the students in each class are eligible and many are chosen as follows: At the end of the sophomore year, the student ranking highest is elected to membership. Then at the end of the junior year, those who are sufficiently to comprise one-eighth of the class, including the first one chosen. Finally at the end of the senior year, the remaining one-eighth are picked. In other words, Tau Beta Pi is the Phi Beta Kappa of the liberal arts college, and membership in it is eagerly sought.

Another fraternity, composed almost exclusively of engineers is Theta Tau. This is a national organization of engineers which was granted last spring to the club known then as Elam. As it admits students of other colleges to membership, it is not strictly an engineering organization but it sprang from its ranks and is in spirit a part of their college.

A board of seven is chosen yearly to get out the Transact, a publication containing articles of interest to the profession written by principals, alumni and professors. This year the membership of the board is as follows: Editor-in-chief, C. G. Mather, Mr. Edgar L. S. J. Keller, editor of civil engineering department, L. R. Stephenson; of the general engineering department, A. Tredwell; electrical engineering, Glenn Carpenter; and mechanical engineering, L. J. Garza.

FROM OTHER COLLEGES

Y. M. C. A. college students decided to raise the faculty in upholding the dignity of the institution by not attending vaudeville and moving picture shows at Poughkeepsie.

Four co-eds are trying out for the debating team at Oregon university.

A chemistry student at Kansas university is being thrifty this other day and picked up a bottle which he thought was a sample and took a drink. It was hydrochloric acid. He picked up another bottle which he was sure contained water and began to wash his mouth. It was boiling water. The proper antidote was quickly administered and the student is not hurt aside from having a sore mouth.

Edward Ham, 1912 alumnus, tackled and for three years a member of the Wisconsin football team, has been appointed football coach at Hamilton college, Clinton, N. Y.

"Because they "shook" at pellets last falls today, thereby losing the inter-collegiate Athletic Association baseball championship, Kalamazoo College will install a batting cage for practice this spring. Each batch will have his inside foot chained to a stake and forced to stand up against the picker's steam.

The Harvard Mutual Foundation is the name of a trust recently created at the university. Any person wishing to give money or property to the university can make his donation now. The trustee will in the great advancement of the funds pay five per cent interest to the donor or his immediate heirs, and at their death turn over the principal to the university. The association starts with a fund of $250,000.

Students at Kansas university have presented a plan to the Student Council for the consolidation of the two dramatic organizations each of which presents an annual play. For present conditions the first play staged is usually a financial success while the one that follows does not fare as well. The purpose of the plan is to remedy this defect.

Jim Thorpe, the star Indian athlete from Carlisle, who signed to play ball with the New York Giants, will be making good at their spring training. This agreement is especially instrumental to many Indians, often stretching a hit lunch or meal set out.

Students at Kansas university have presented a plan to the Student Council for the consolidation of the two dramatic organizations each of which presents an annual play.

The Sigma Chi at Syracuse is quarantined for malar fever, with no one as an excepted at the front for several similar places exist in this country.

The Minnesota baseball coach has two hundred and thirty men trying out for the team. Before a co-ed at Washington university can participate in women's rowing she must learn how to swim.

A committee of ten has been appointed by the corporation to decide upon plans for a memorial to the Yale men who died in the Civil War. This memorial will be the first to be erected under the charge of a committee, some of whom were actually in the war.

In taking up the social life of the school, several phases must be taken into consideration by the teacher. The articles of the child's life which are to be given phase: the school divided into social social classes and these in minor groups must be taught the necessity of working to one another.

The justice and social functions of the different classes is shown to some much to the efficiency of the individual. Here the expectations of the boys and girls is necessary for the individuals in their own persons to go in services in all social functions which soon works an evil.

The article as a whole, though most important tend to the development of human to expand the social life of the school which appear to be interesting on both sides.

Arrangements have been made to the social life of the school which appear to be interesting on both sides. The social life of the school which appear to be interesting on both sides.

Dr. King shows that this particular social instinct of the child is necessary for social education and must not be overlooked or neglected. They are termed "primary purposes" the result of the cooperation of these elements within the human heart and love.

Leading from these early and important tendencies of human to form the social element, the development of the public school in the social and economic conditions of human life.

According to the official report, Miss Bertha Marks, who was noted the prettiest girl at Vassar college says she never paints or polishes. Miss Marks is twenty-one and a sophomore.

In Nebraska the men students and housing problems will be placed in charge. He will inspect at regular intervals the names and boarding houses in Iowa City. The supervision will extend even to analysis of foods and services in the enterprises of the university.

Cooperative With Students

The hygienic welfare will be cared on with the cooperation of restaurants and of course the restaurants and the kitchen and students and roommates. Special medical inspection will be taken that students may room together when they are ready. The regulations will be necessary for the local team and thus help their role in the game.

The men students and medical precaution will be expected that the Hawkeyes will be given by Honorable George W. Egan, of the prominent Methodist orator. The orators will be Graham Taylor, the great
