Since the basketball season -- in which the freshmen were triumphan-t, the women's athletic association has been at its best. There has not been a great deal going on there since the Hall game for the efficient formation has served its time which work is required of all freshmen and sophomore girls. However, the slow time is now a thing of the past, for the girls are now getting ready for a series of baseball games which are anticipated to escape any- thing that has ever been held among the women. The sale of these indoor baseball games has not, as yet, been announced but they will probably be held some time or part of Apr-i, as a result of the basketball season. The series is a dead heat between the different classes. The freshmen girls are looking forward to the championship, as are each of the other classes. There is really more expected of the freshmen than of any of the other classes owing to the fact that they have more than doubled their register.

Immediately after the basketball season the annual tennis tournament, between the classes, will be played. Freshmen and sophomore girls will be more popular every year. There are a few good tennis "fords" in the university. It is understood that they are counting the days until "Old 210" will put up a set of partitions of 2. Flavian and derruy the court enough for a game or two.

The official association is offering a handsome loving cup to the winners of the female series. This fact will keep some more interest and competi-tion in the game and the series. This series title will end the ses-soon for Miss Wilkinson and her girls.

SOME REGULAR GUIDES.

New and often unsought opportunity time there is to be held here several conventions, athletic meets, and other events which will attract visitors from all over the state. On occasion, when the president is in attendance, there is a need felt for a system of guides, who are well acquainted with the university, that they might take charge of this situation and to take care of the visitors on this occasion.

The program with this corps of guides, attractions visiting the city and university would be able to get a much better insight of our great institution. There has been times and recently, too, when guides were needed badly. Several times this year we have met men and women doing various guides for us.

New ASKINGS NOW FROM LEGISLATURE

President Re-Appointed Requests for University as Head of Board's Action.

A $50,000 increase for the university engineering department, $25,000 for the domestic science department and an additional setting of $50,000 for instruction in aeronautics, and additional money for medical education were announced yesterday by President J. G. Bowman as new items in the budget of the university of Iowa which is to be presented to the senate probably Monday and later referred to a sub-committee.

Along with this announcement President Bowman told of the proposed establishment of a physical health department which was to be inaugurated at a cost of $35,000.

Opinion papers in administrative circles of the university as a result of the great success we do the world takes with the university every Friday. Around the president's office every thing is being rushed to get the report of new making to the senate in time for immediate action. President Bowman held conferences all day.

It was closed with Dean Raymond of the engineering college for over an hour and while the latter was there from the president's office the university's chief executive was ready to announce how much Iowa engineering would want from the senate on Monday.

D. M. Murphy of Eldorado, member of the state board of education, and president at the conclusion of his interview with Dean Raymond and accompanied the president on a tour of the university buildings.

President Bowman was the day to tell all about what was going to happen as a result of Iowa's great victory in the upper house yesterday, to the new making, and after the new asking. The figures are all tentative, but the legislature and medical education is estimated.

The engineering request for $15,000 is probably approximate, however Dean Raymond and the president were in communication with a special group of legislators. Plans as to the establishment of the domestic science department are yet to be made.

President Bowman plans in innovation by the establishment of a physical culture institution in connection with the university's gymnasium department. Instructors in the art of physical development and those of the body are to be employed in the scheme.

The new gymnasium has not been tendered a location as yet, President Bowman doubting whether it would be situated in the state capitol or down near the river. The new building is to cost $125,000, which is $10,000 more than was asked in the first budget.
