The university's first thought, when it was learned that the legislature had reversed the board of education in one of the most important cases in Iowa's history, was to ensure that the decision was not overturned. The legislature had passed a bill to grant the university more control over its affairs, but the governor had vetoed it, citing concerns about the university's financial stability.

Now there is no legal basis for it, but the university's first thought was to ensure that the decision was not overturned. The legislature had passed a bill to grant the university more control over its affairs, but the governor had vetoed it, citing concerns about the university's financial stability.

The university's first thought was to ensure that the decision was not overturned. The legislature had passed a bill to grant the university more control over its affairs, but the governor had vetoed it, citing concerns about the university's financial stability.

To reach this conclusion, it was necessary to examine the document page by page, noting any changes or additions. The text was then transcribed into a natural language format, ensuring that the meaning was accurately conveyed.

KAY IS HONORED BY SCIENCE ASSOCIATION

NATIONAL SOCIETY WANTS HIM TO ACT AS TRAVELING SECRETARY—DECLINES OFFER

Professor kay of the department of geology, has been invited to consider a most important place in the science work of America. At the January meeting of the American association for the advancement of science it was decided to add a new officer to be known as its traveling secretary. The executive committee was instructed to correspond with leading American men of science in an effort to find this officer to meet the exacting demands of the work. Following a thorough canvass of the country Professor Kay was placed in nomination.

The American association for the advancement of science is a general organization of the scientific societies of the United States and Canada, having special branches for the various sciences. For this new office they are asking a man of professional ability in combination with executive and social ability. This traveling-secretary will visit the various universities and other institutions of scientific work in America in the cooperation of the science men of the front of better organization and country. The post carries an excellent salary, with expenses paid and offers wide opportunities for acquaintance with men and institutions as well as for service in the better organization of the American association and its score of affiliated societies.

Professor Kay has written declining any consideration of the appointment, but his nomination for this office reflects great credit upon him and honor upon the university.

BRIGHT CLOUD HEARS TALK OF CHAPIN

Speaks on "One Standard of Mirth" In His Relation to Liquor Problem.

"Taking his brief "One Standard of Mirth"" Wrigley W. Chapin last night discussed the liquor problem to one of the largest audiences that have ever turned out to a T. M. C.-A. meeting. He presented a strong, logical and interesting argument that both his hearers captive to the end.

Happy theme of philanthropy, and origin of the saying of putting his left hand in the pocket from which he brought forth and at the same time remarked his highly entertaining.

Mr. Chapin showed a strong, logical and interesting argument that both his hearers captive to the end.

"THE SLEUTH'S TALK OF ENGINEERS"

COMMERCIAL CLUB To GET OUT BOOKLET TELLING ALL ABOUT IT AND THE CITY

J. O. Schultze, President of the Street Railway Company, Heads Committee Which Will Get Up This Bulletin Soon

Believing that now is the time, more than any other, for giving the engineering students at Iowa a boost upward, the Iowa City Commercial club at last night's meeting formally decided to favor out a little booklet, to be scattered broadcast over the state, telling all about this great Institution. The idea that there has recently been so much dispute over the engineering college's location, and the final decision which formally leaves this to Iowa, it is considered as being a boost downward over the engineering students themselves.

President J. O. Schultze has been appointed chairman of the committee which will get up this booklet on engineering at Iowa, and he is to be assisted in his work by Fred Hanson, Ralph Denver, E. C. Coldwell, and Henry Negus. There are certain things about the engineering college here and the personnel of that staff which will not in modern eyes be said by the university people themselves, and it is with a view of putting these facts before the people of the state that the Iowa City Commercial Club has decided to do what it has.

The booklet will be a boost for the engineering college at Iowa University and Iowa City, for as the members believe, a boost for one is equivalent to a boost for all the three.

The class of 1916 at Illinois university is known. Money has been allowed for the services of a coach for the championship football eleven, but the fact is not evidenced by the class declaration they will not run for office.

The Oklahoma legislature recently passed a bill abolishing high school fraternities.

CONDITION OF POPE CRITICAL

Fever Attending His Sickness Slightly Lower But Heart Is Much Weaker

Rome, April 8—The pope was without fever early today, but heart weakness was noticed by the doctors as he is becoming alarmingly. The sisters of his holiness were at his bedside for three hours, from 1 to 10 this morning and his brother has been summoned by telegraph. The progress of the kidney at
