MISS BUDA KELLER
REPRESENTS OLD GOLD

CHosen by Delegates to Conference of University Women

TO Be Host at Madison, Wisconsin
May 2, 4, and 5—Iowa & Iowa State University to Respond to Invitation

Over Three Hundred Voiced the Election

MISS BUDA KELLER has been chosen by the University women to be their representative at the Conference of University Women of the state, as Woman's Self-Government Association of Wisconsin. At this conference, May 1, 2, and 3, representatives of the Universities of the middle west will be well fortified in that department of the game. We predict this by the showing made by the twirlers during the Davenport series. The first family of present-day pageant the first two, two hits safely andanmar the bases loaded twenty-four out in the coming station. Again it was one, two, three in the Iowa box.

At this stage of the game, Lynch was relieved by Brunwick on the mound. Davenport was unable to solve the deceptive delivery of the Iowa hurler. Davenport ran one across the plate in the third. In the Iowa half of the third, Bruckner hit a single, but two walks followed, three on base. With the bases loaded, Lynch was dropped in the sixth inning. In the Iowa half of the same inning, the Iowa bases were loaded with one out. After three walks and an error, Davenport added two more in their four run lead over the Hawkeyes.

Director Schroeder is busy these days with the Gryan class and the annual spring study. Once again there is some interesting and highly contested games on Iowa field between the two. The following table of the scores is the result of the game, the Hawkeyes make the trip with fair prospects of winning the game.

Davenport was again shut out. In the rally was nipped in the bud when Sommers' pop-up. Bruckner continued to squeeze one run Iowa's double to right, contributing to the Iowa baseball river during the Davenport series. First, had control of the situation at decidedly more than three fourths of the game.

Lindaman's proteges gave ed in a defeat of the Old Gold by representatives from the women's colleges.

OUR TEACHER'S SCHOOL

A fresh proof of Iowa's efficiency and reputation on a teachers' college in the work now being done by the teachers' employment committee. W. A. Jesup has already received twelve or many requests for instructors, principals and superintendents which there have been applications filed for those positions. Letters come from high schools, colleges, and not only in Iowa, but from all parts of the country, especially the western states.

The wide and thorough normal training afforded at this university has gained a reputation among educators everywhere. They demand instructors and executive officers, with not only their culture and professional equipment, but both of which can be obtained only with the facilities with which an institution like Iowa is endowed.

Many educators are endowed. Many not only experience but with liberal training.

The credit for bringing our normal school, the department of education, to its high point of usefulness, belongs mainly to Prof. F. E. Bolton, while its present, increased sphere of service is due in large part to the masterly management of Professor Jesup. Such men bring credit to any institution.

The men who move with them are worthy of recognition. In helping to build up a greater university as well as the champion athletes, debaters and orators whom are in the midst of everyone.
