IOWA LOSES TO WEST VIRGINIA FOR TITLE

SCORE WAS 902 TO 944—NATIONAL LEAGUE RECORD BROKEN

West Virginia's Western championship—Will Meet Harvard in the decided National Supremacy—Harv.

Iowa lost to West Virginia in the shield for the championship of the Western Interscholastic League. Alt.

ough the record was the highest for either team, it was not large enough to entitle the score of 888 amassed by their opponents.

This score breaks the record for the national league, being 7 points more than the previous record, which was set by the teams of the other classes.

The national league will be decided on Sunday, April 15, with the possible exception of the game between Iowa and West Virginia, which will be played at the University of Iowa in Iowa City.

The second of the two teams to win the shield will play with the shield holder for the championship of the University of Iowa.

IOWA WILL PLAY CEDAR RAPIDS TEAM TODAY

WINNING'S MEANING—SCHOOL—FIRST TIME IN EIGHT YEARS THAT IOWA TEAM Has NOT WON RAPIDS.

The Iowa baseball team will meet the Cedar Rapids boys this afternoon for a game with the immortal Huyck's pedes
titant team in the Central association.

The leaguers have been playing only a fair brand of ball, indicating Cornell College will lose today.

The Cornell team has only won one game in the season, and this was against the Cedar Rapids boys, but the interest will be manifested by the crowds.

The Old Old Boys from Victory College, which is starting its strongest lineup, will pitch in the game, giving the

hometown boys a chance.

Schroeder is the probable selection as twirler for today's game. With Graham, he has been shooing the best form of the string of pitchers. Wagegood's work in the course of the game was of the very best. One only could be said for the difficulty in locating the band, the band being the best when the visitors scored their only run in the inning.

Stewart, a freshman football star of last season has signed up with the Cedar Rapids team. He is slated to start the game for the professionals.

The hitting of the Iowa team has been improving in the last two games. This is the greatest asset that a college nine can have and one that very few can boast of.

The freshman squad is working hard during the spring term in the hopes of getting the team ready for the spring term. There is some doubt in the minds of the students.

DEAD DEAN TO SPEAK

The second of the talks in the series of lectures on conservation of national ideals at the University of Iowa, on "The维尔克, his topic will be 'Church and Social Problems'. Dr. Was

him a better known and better re-

known for his articles and speeches in the universities and the important business to be transacted.

ALUMNI BUREAU ON COMMENCEMENT

Chances of Every Five Years Back

Will Hold Reunion This Spring

The alumni bureau is having some great plans for the coming commencement. No one has yet come forward ready for an extensive program, but they are working every day, get-

ting letters and circulars, in an en-

try effort to get them on the old grand

scale. The classes of '28, '29, '30, and the year 1931 will be re-

sumed within a few days.

The better which Judge Howell is sending to the alumni of 1932 will be held at the University of Iowa.

If we are going to have a reunion for all the university classes of 1932,

on June 10.

There will be something special going for all of you. Now get busy

and write to as many of your old friends as you can and tell them you are coming and want to meet them.

If you don't come we will all feel that you haven't been able to attend in twenty years to make one.

Write on the enclosed card making any suggestions you may have regarding the matter. This is your own show and you should do, and above all that you will be here. Don't forget this as we want to make some arrangements.

Yours for Tuesday, June 10,

R. P. Howell, '97.

ESCORTS FOR THREE STORY HOUSES

Law Passed Last Week by Legislature to That Effect

Every Society Fraternity chapter house, and sorority home, as well as other residence halls in Iowa City, must be equipped with fire escapes.

The order comes from Des Moines, where the legislature slipped through a law to that effect, last week.

"This knows how are fire drills and rope ladders now.

MEETING POSTPONED

The Classics Art club meeting which was to have been held Thurs-

day evening, April 11, will be post-

poned to Thursday evening, May 1. On account of the unavoidable ab-

sentee of the speaker of the evening, Professor Kay.

HYDRAULIC OPENING IN UNIVERSITY DAM

P ART OF $23,000 ENGINEERING APPROPRIATION TO BE USED FOR IT

New Channel to Be for Experimental Purposes—Installation of a Fourth Stage and Improvement of Labora-

tory series also completed.

A part of the $23,000 appropria-

tion made by the legislature for the college of engineering at the univer-

sity was used in constructing a hydraulic channel and part of the concrete dam that forms the base for the university's hydraulic laboratory.

Iowa Dam. When the dam had been built, a place was left (for a concrete channel which might be used for experimental purposes, such as measuring the flow of water, etc.) that would greatly in increase its use to

suitability to the engineering department.

Other uses for part of the new appropria-

tion will be the installation of a foundry in connection with the workshops, and the construction of the equipment of the laboratory in the physics hall.

INTERDEPARTMENT BASEBALL—PROGRESSING NICELY

Faculty and Liberal Arts To Battle This Afternoon—Hot Game

Doped

This afternoon the faculty will play with the liberal arts baseball squad in a game of the inter-

department. The band, the second of the series of games, shows promise.

The engineering branch will have a good deal to brag about and they are taking advantage of this fact.

The librarians are making the powerful showing thus far but there

is no telling what will happen before the series are ended. They have some good material and may take

some time, but the engineering team will...

PANDEMONIUM MEETING

A business meeting of the Pandemonium players will be held in room 14 of the L. A. building this afternoon.

This meeting is to discuss the important business to be transacted.

The university orchestra under the direction of Professor Grant Schuetz is preparing to give an or-

chastic, attractive program for their concert to be given on Thursday evening, May 1. The concert will be given in the natural science auditorium. Besides the number of the orchestra there will be several solos by Mrs. Marie D. Santa Raphael. Miss West will play a solo flute. Miss Van Doren, leader of the band, will be heard in a trombone solo. Professor Clif

dale is in charge of the orchestra, and must be apologetic. Thus a varied and interesting program se

.. arrange. This concert will be the second appearance of the orchestra before the public this year.

Their first appearance was in con

nection with the annual meeting of the American Mathematics Association, which opera the Chords of Normandy last February.

At this time it was genera-

lly conceded that this was the best and largest orchestra that had ever been gathered together in the State University of Iowa. The university orchestra was engaged in the business of the university for several years. Thus the announce-

ement of a public concert by a university orchestra is doubly gratifying.

The price of admission to the concert has been set at the unusually low price of twenty-five cents. It is to be hoped that the orchestra will have a full house not only be

cause it will offer a good concert but also because a university of the standing of Iowa ought to have a really good orchestra. Its per-

formances will depend upon the support received.

MISS LOUSE BARRE TO SPEAK TONIGHT

Miss Will of the Y. W. C. A., National Convention Which She Attended

An unusually interesting meeting of the Y. W. C. A. is promised tonight in view of the fact that Miss Louise Barre has just returned from attending the National Biennial Conference of the Y. W. C. A. at Rich-

mond, Va. She reports a glorious time at the biennial convention.

She will relate her experiences at the convention this evening at the regu-

lar meeting of the women's union. Women should miss hearing her story, and respect for work she attended.

Special music will be a part of the program.

MISS WALKER IN-WRECK

Miss Alice Williamson, head of the physics department and the only woman in the University of Iowa, was in the Rock Island train, which might have plunged over an embankment, as a ditch crossed that territory, where the accident hap-

pened, near Graham last night.

PROF. WASMANN TO LECTURE

Dr. C. W. Wasmann will give the second talk in the series of lectures on conservation of national ideals at the University of Iowa on April 11, when he will give a talk on "Practical Aspects of National Problems." His topic will be "Church and Social Problems." Dr. Was-

mann is a better known and better re-

known for his articles and speeches in the universities and the important business to be transacted.

INTERESTING STORY IN
"A MODERN EVE"

Anticipated to be Host Production
Played on Local Stage This Year

Seldom in the history of musical comedy has a more interesting story, more humorously told, been concealed from theatregoers than that contained in the Berlin musical comedy success, "A Modern Eve," which H. H. Singer will present at the Englert theatre.

The story deals with the attempt of a dozen-minded woman, who has assumed control of her household, to rear her two daughters along lines of uncomprehending thinking. Each of the girls, one of whom is a weakling and loves a specimen of insanity. One of her daughters becomes an artist, the other a physician. When love comes to the daughters of this modern Eve, the conflicting emotions implanted by nature and incalculable by even the best reasoning give broad scope to witty Dentist. 2

TRACK SHOWING UP BETTER NOW
Security of Men in Practice With Weighting-Queens Points Well Represented

Another afternoon's practice served to show up the track team in a much better light. The regular bunch of men were out working consistently on their various events. Cook, a new man, made his appearance in a true high jump.

Hannell is back working at the high jump. He will be a great asset to this squad by the time of the season's meet. Kofr is showing up well in the high hurdles, so is Chase, but both of these men need their stride and tone under better control. It is hoped, however, that they will be consistent by the time of the first meet.

There is a dearth of men for the weights. Gabrielsson, a left hander, is losing the discus with Street and Schubert. He is getting into business on good shape and seems fair to make a winner in a short time.

Sprints are making good with the shot, but the men who are going to make a name in this event to any advantage, the sprinters are taking care of themselves these days. Tyler, Purcell, Davis, Frey and several others are out every evening making the squatters fly to the tune of about 400 rods in the 220-yd. dash; around 50 sec. in the 440-yd. dash; close to two minutes in the half mile; several seconds to five minutes in the mile; and around ten minutes in the two mile.

FORD ON PROGRAM
Professor Arthur Ford, head of the department of electrical engineering in the University of Iowa, and the engineer who will be on the program of the thirteenth annual convention of the Iowa Electrical Association at Waterloo, Ia., April 23 and 24.

Professor Ford will speak on the second day of the convention. His subject is "Switchboard Equipment for the Parallel Operation of Attractors."

Among those who are on the pro-

Wisconsin University has a "voca-
tional adviser" whose purpose will be to advise young women students who do not want to become teachers and are undecided as to what other fields of
work to enter. Last year fifty
second year students came to her for advice regarding their work after leaving college.
