ROCKWOOD TELLS OF BIG DEMAND

Speech Last Night Was First of Series of Lectures on Important Professions

The fact students in the University of Iowa may have full information concerning prospective professions is shown by a series of lectures recently given by the Rev. Dr. John E. Rockwood, the head of the department of chemistry. The series, which began last Thursday evening, is intended to give a general idea as to the demand for certain professions.

In his first lecture, Dr. Rockwood discussed the demand for chemists. He pointed out that the supply of chemists in the industrial world is far from meeting the demand.

In making his address, Dr. Rockwood said: "The supply of chemists in the industrial world is far from meeting the demand, and not likely to be met for another ten years. This means that there is a demand for chemists who can meet the requirements of the industrial world."

He said there is no branch of chemistry which is not expanding in modern times. The demand for chemists is increasing every year. He pointed out that the demand for chemists in the field of agriculture is much greater than in the past.

The President of the Iowa Agricultural College, speaking of the demand for agriculture, said: "The demand for agricultural chemists is increasing every year. The supply of agricultural chemists is far from meeting the demand."

In concluding his address, Dr. Rockwood said: "The demand for chemists is constantly increasing. The young men who enter the field of chemistry must be prepared to meet the demands of the industrial world. They must be prepared to meet the demands of the agricultural world. They must be prepared to meet the demands of the industrial world."
Are you going to be a "paristie" this summer and loaf... or work from the chin down for two dollars a day? Would you rather work from the chin up and make five times this amount?

This article will show you a way IT WILL ALSO HELP YOU ORGANIZE THAT TEAM. THAT TEAM HAS BEEN DEVELOPING ALL YEAR AND TURN THE SAME INTO MENTAL DYNAMITE. This will stir up the desert and help you find the gold mine, both of which are located under your hat.

GENTLEMEN

If you have any desire to make for yourself from $350 to $1000 or more this summer. Do you have the qualities of leadership in dealing with men, making them come your way and think as you think, feel as you feel and act as you want them to act. Then consider and investigate my proposition.

I have given contracts to 200 hundred men in the last thirty days. I still have considerable desirable territory open but this will last only, WILL YOU BE ONE OF A HUNDRED MEN WHO WILL MAKE OVER FIVE HUNDRED MEN FROM IOWA WHO WILL MAKE OVER $50 dollars THIS SUMMER.

I do not want you to sell books or any other dead proposition where you have to create your own demand and sell your talk or use the sympathy (working through college) arrourer, and persuade the people to do a charitable thing. something they do not want and will never use. Because these kinds of propositions have been all that is usually presented to the student for summer work. You just pick something against canvassing for you that is next to impossible to make any money with. Any men who could make $150 selling books can easily make a $1500 with my proposition.

I DO NOT WANT YOU TO PEDdle OR CANVAS. I WANT YOU AS A REPRESENTATIVE OF THE HOUSE TO DRIVE THROUGH THE COUNTRY AND TAKE ORDERS FOR SIME SEED CORN DEYERS YOU HAVE NO DELIVERY OR COLLECTING TO MAKE. Delivery is made at a future date as the company directs. The demand for this proposition is already created. Every one is preaching to the farmer to take better care of his seed and to pick it early. He is picking it early and knows he must insure strong sure seed but to hang it up so that it will dry quickly and evenly is a tedious, bothersome and much disliked job. As soon as he sees the SIME DRYER he sees its utility to him and the low price causes him to buy almost with your first canvas seats. $9.90 each for canvas seats. 2,500 people can easily be seated in the tent.

All Afternoon at the
Iowa City Speedway

Have you made your date yet? If not, better get a hustle on.

Making Big Plans for Motor Races

Track Will Be in the Best of Condition—Some Fine Machines

Here

With the motor races at the Iowa City Speedway only three more days away, interest in the exciting event is beginning to center strongly. The association which has these races in charge announces that they have a brilliant program fixed up for Friday afternoon, May 30, and promises a day of thrilling sport for all who attend.

Although the recent rains have hindered work on the track somewhat, there is no doubt, but what the saucer shaped oval will be in the pink of condition by Decoration Day. Trotters are kept going on it from morning to night and the almost constant practice by the drivers for the past few days has sufficed to pack it wonderfully.

In point of entries thus far, the list has not been completed. It is known positively however, that there will be at least a dozen contestants for the motorcycle primes, and about seven automobile entries, among whom are Guy Fink, Guy Kurose and J. B. Wilson of this city; Charles White of West Liberty, an unknown entry from Washington; Iowa; and Paul Horn and R. B. Martin from Cedar Depots.

For the big Tree for all auto events, Hunter and his Cole is deputized as a probable winner although Waite with his big Moon and Fink with his 45 horse power Great Western has given him a close run for the first place. In the light car event, Wilson and his E. M. P. is the favorite, with Buck and his Hudson 38 as a close second.

Hymn of Praise to Be Given Tonight

Choral Society Production to Be Presented at Methodist Church

Clarence Kiddy, William Clare Hall and More, Des Moines North to Assist the Big Chorus in the Event's Program.

The University and Iowa City Choral society presents its spring offering at the Methodist church this evening. The first part of the program will be an organ recital by Clarence Kiddy, the fabulous organist and the latter part the rendition of Mendelssohn's "Hymn of Praise" by the chorus, under the direction of Guitar Schottelle. Miss North, soprano, and William Clare Hall, tenor, will assist in the production. Following is the program.

Organ Recital by Mr. Clarence Kiddy
1. Festival Prelude and Fugue on Old Hundred—Clarence Kiddy.
2. "In Springtime"—Alfred Gals, tenor.
3. Variations de Concert—Joseph Benedict. (Directed by Clarence Kiddy.)
4. "Le Secret d'Amour"—Octave Koldo. (Arranged by Clarence Ed.)

Part II

Sacred Cantata—Mendelssohn.
1. Chorus—"All Men, All Things.
2. Spiritual Solo and Women's Chorus—"Praise Thee, Lord." 
3. Tenor Solo, "Hail Cynthia—All You Servants."—Refrains—"Sing for Peace.
4. Chorus—"All Ye That Gird On Your Loins." 
5. Soprano and Tenor duet and Chorus—"If Walled Up for the Lord.
6. Tenor Solo and Tenor Duet—"My Song Shall Be Always The Mercy of God." 
7. Chorus—"To Nations Other Than Thee, Lord." 

The University and Iowa City Choral society is organized with the following officers:

President—W. F. Pratt.
Secretary—Frank Beiegel.
Treasurer—Walter T. Welch.
Executive Committee—The President, the Secretary, the Treasurer and Directors.

director—Guitar Schottelle.

THE MOVIES HAVE COME AND ARE GONE

PICTURE MAX WORKED YESTERDAY AFTERNOON CATCHING STUDENTS.

Many Phases of Student Life Are Caught by Picture-Making Staff and Track Men Close the Program — Film Successful.

If you did not get your morning's entertainment in front of the moving picture camera yesterday afternoon have class and come out to show you are lost for the picture man is themselves. The same process was gone through with at the dental building, the law building and the hall was also caught in the real.

Next the center went down to the University hospital and the nurses. Rushing up the housekeepers' naves and the chemistry students were grouped between the two buildings so that both could be taken in one exposure. Clear hall was next put on the film.

Here the machine took a jump and did not show in the film. Next in the hospital, the film is the university dam. Nevertheless a fine picture of the old Iowa river was taken from the bank. Coming back to the university, the media were taken near the anatomy building.

The view was on the athletic field. First the cadets staged a regimental review. Next the cadets were caught in the competition and lastly the cadets lined up and did some fancy work in front of the machine.

The idea of a moving picture of the activities between the headquarters of H. N. Harwood of the pathology bureau. The bureau expects to use the film in advertising the university to prospective students in the state. Thomas A. Brown was instrumental in bringing the picture man here. The film taken will be shown at Brown's Fridley, Hurst, and Bender.
