STATE CHAMPIONSHIP GAME WITH GRINNELL

The University and Iowa City Choral Society made its final public appearance for the season last night at the Methodist church, giving Mendelssohn's sacred cantata, "The Hymn of Praise." Preceding this part of the program Mr. Clarence Kdy entertained with an organ recital. The vocal portion of the instrumental and song and recitative and made many favorable comments upon the whole program.

Mr. Kdy played his program announced in yesterday's number of the Iowan. In both technique and expression he proved himself a master of the instrument and was quite up to the fourth number, "La Séract d'Amour."

The rendition of Mendelssohn's "Hymn of Praise" by the choral society was an entire success. The mastery in which this production was given speaks much for the high training and direction of Prof. Gustav Schoettle. The sweetness and purity of Madame Nadia's soprano was especially commended upon. Wilbur Claggett, who did a splendid job in the cantata, carried his part very creditably, showing a fine tenor voice.

The society will hold a meeting next Tuesday to discuss officers and plan for the coming year. Next season the first production will be presented before the Christmas holidays and two concerts will be given for the spring festival.

DEAN KLINKENBERG TO TALK ON WOMEN'S WORK

W. Y. C. A. Meeting Tonight Will Be Given to Discussion of Vocations Open to Women.

Dean Klinkenberg will speak at the W. Y. C. A. meeting tonight on "Vocations for Women." The meeting will be held at Crown Hall and will promptly at seven o'clock.

The purpose of this talk and discussion is to show the woman of the university that many vocations are open to her beside the traditional roles of teaching. Miss Klinkenberg has wide and out-of-the-ordinary training and experience and will be well prepared to talk upon this important question.

OVER 150 ATHLETES TO BE HERE ON SATURDAY

GREAT TIME IS PROMISED TO HIGH SCHOOLERS BOTH BEFORE AND AFTER MEET

Meet Promises to Be Big Hold Indoor State. This Year—Twenty-Five High Schools Represented—Many Records May Be Smashed by Men

Although the annual Iowa Interscholastic field and track meet which is to be held on Iowa field next fall was several months under the auspices of the university, in the last high school crack meet in the state this year there were to be over one hundred and fifty athletes. They will represent at least twenty-five high schools.

Already the entries for twenty-five Iowa high schools are in Madgey Kepner's office and one or two more are expected today. The score booklets are being printed and all arrangements are being completed as rapidly as possible.

There will not be a slack minute for the high school men when they arrive in Iowa City Friday evening. Of course they will not be given enough entertainment before the meet to hurt them any but they will be well taken care of. After the track season is over they will be given the time of their lives.

From the reports that have been coming in from all over the state this past few days there has not much doubt but that this interscholastic meet will be one of the finest that has ever been held in the state. The fact arises because this is the last meet of the season and the men from practically every high school are in the best of shape. The weather is something that every other meet of the state which means that several records here will be smashed. This weather is conditions ideal for the men over the state, as it will put on the finishing touches wherever needed and with a good sunny day hereafter, will be well taken care of. After the track season is over they will be given the time of their lives.

**PERSONALS**

John Wasmann, a member of the class of '16, visited friends and relatives in Clinton the last week of the month. Dr. Robert L. A. '16, was in Des Moines over Saturday taking in the state track meet and visiting relatives.

J. E. Miller, Davenport '15, visited in Cedar Rapids the early part of the week.

The Centennial Society will hold its last meeting of the year Friday evening. The officers for the ensuing year will be elected at the business place in readiness for next year.

Professor Clarence Wassam will take a trip away this week giving commencement addresses for several high schools throughout the state. He will return Saturday.

Nearly a dozen students of the geology department will go to the northeastern part of Iowa this summer to study geological conditions in that section of the state which affords excellent opportunities for such work.

Miss Ruth Nicklin, L. A. '14, has just returned from visiting relatives and friends at Elgin, Iowa.

Miss Gladys Schomb, L. A. '15, spent a few days visiting at her home in Pomeroy, Iowa.

**ARE YOU GOING TO SUMMER SCHOOL?**

**JUNE 16—JULY 26**

The Twentieth Century call for efficiency, the theme of "Economy of Time" and "Full utilization of plant" has been heard by the colleges, with the result that we have in this country over six hundred summer schools with an attendance of over 130,000 students.

Many of the old fashioned summer schools resemble chautauquas, others are for students who had flunked. In either case the session lacked the tone and spirit of the regular session. Today this is all changed. The heads of the departments are in charge and the courses are so arranged as to co-ordinate with those of the regular year or with the succeeding summer. The summer students are drawn from the class of young men and women who wish to make every minute count, others who wish to take extra courses or to shorten the time for graduation; graduate students, who wish to take advantage of unusual opportunities to do research work; others who feel the need of some special courses in order to increase their efficiency.

The summer session today attracts about all of the serious minded students who do not have to spend the summer in earning money for the next year's return.

Are you going to join the army of S. U. L. summer school students?

Fred M. Powlson, B. A. Iowa, Pharmacology Instructor; gives interesting talk on Cocoa to Pharmacists.

Saturday evening in pharmacy lecture room, Miss Eda Cooper, Ph. C. instructor in the Pharmacy college, gave a lecture before the Mortar and Pestle club on cocoa, its uses and preparations. The following is an interesting extract gleaned from her lecture.

The word Cocoa is derived from the Spanish, Meaning tree. The use of cocoa was not known in England until 1574, but the African short game had used it for years in religious services, thinking it came from God.

The cocoa tree is now cultivated largely in the Andes. It is in the form of a shrub, and grows to a height of from 3 to 6 feet, the leaves being light green above the yellow below, the flowers having a pink odor when green.

The modern form of the word Cocoa, Chocoholism, has been derived through Mexico and Peru. The taste of the drink makes it a pot boilder. The effect of cocoa on the system is that of a stimulant, with an after effect of quietness and sleepiness. The African aborigines used it all through life, however, and seems not to be injured by it.

It has been a common opinion for the modern cocoa product to take its name from the locality in which it is grown, i. e. Brazil, etc. In the warm climate it is possible to harvest the cocoa fruit twice a year, at Christmas and in early June. It is cut from the stalks with machetes, and the juice is extracted from the berries and pods by various ways, one being by pumping and dancing on them with the bare hands.

The great producing points of Cocoa are Hamburg, Lisbon, New York, London and Rotterdam. Rubide cocoa was first prepared in Holland. In 5 hours one of the most great international beverages, cocoa, tea and coffee were made.

Miss Cooper stated that the German school children live almost entirely on bread and chocolate, taking a lump of cake chocolate and some bread in their school lunches, and subsisting on that alone through out the day.
