ENGINEERING HAS TAKEN NEW PHASE
Trade Engineering to be Taught as.street—Professional Work at University

Trade school engineering will be established at Area next year, according to an announcement just made by the board of state educators. This will be the first real effort of the state toward the teaching of the industrial classes of the state, and is made as the result of a special appropriation by the legislature. The establishment of trade school engineering at the agricultural college has been urged for several years as a step in the beginning of a proper differentiation in the technical work of the agricultural college and the state university. It is predicted that within a couple of years there will be a large enrollment in trade engineering at Area. There is a dearth of trained industrial engineers, plumbers, gas-fitters, painters, etc., over the state.

ELECTRICAL ENGINEERS HOLD FINAL MEETING
Professor Ford Gives Interesting Lecture

Professor Ford gave an interesting lecture on "Past Year's Work." The University of Iowa branch of the American Institute of Electrical Engineers held its annual election last night and the following officers were elected: Chauncey, Leon Egan, Vice-president; W. E. Schrader, Secretary; Professor A. H. Ford, Treasurer.

Professor A. H. Ford, who holds a fellow membership in the national organization, gave a short report of the work of the past year. The meetings have been remarkably interesting. The weekly programs have usually been taken by students in some subject of their own choice, and have been very successful. Professor Ford declared the fact that promotion and sophomore seemed afraid of these meetings, as they might be led to believe that attendance at them would be a necessary part of the course of study, so they will be able to attend these meetings without being compelled to do so. It is the intention of the faculty to have as many as possible of these meetings as well.

FALL IS ANOTHER MAJOR EVENT

The weekly programs have usually been taken by students in some subject of their own choice, and have been very successful. Professor Ford declared the fact that promotion and sophomore seemed afraid of these meetings, as they might be led to believe that attendance at them would be a necessary part of the course of study, so they will be able to attend these meetings without being compelled to do so. It is the intention of the faculty to have as many as possible of these meetings as well.

CHORAL SOCIETY AT LAST MEETING
O bars for Next Year Chosen—Will Sing at Banqueteaux Exercises

The Iowa City and University Choral Society held its final business meeting last night in the liberal arts building. Reports of the season's work were given and officers for next year elected. President W. I. Pratt gave the report of the society. His report showed that the Chimes of Nim- mandy had proved a financial success. $110 having been cleared. But the society has incurred a debt of nearly $110. In other ways, however, the society has made real headway and its continu- al success is a sure thing for next year.

The following officers were elected: President, W. I. Pratt; Vice- president, Rev. H. Brooker; Secretary, Frank H. Kepel; treasurer and librarian, M. W. K. Ford; commis- sion board, Professor C. F. An- drey and George Schreiber; librarian, Prof. W. W. Hayes.

The social society will sing at the banqueteaux exercises next Saturday night. The Iowa City Junior College and the University are expected to be present. Both institutions will be represented at the next meeting of the society.}

GOVERNOR'S DAY FOR CAFÉ REVIEW FRIDAY

Trophies and Medals Will Be Awarded—President Bowman Who Will Give Some From the Corporation —Last Drill of Your For Cafés

On Friday, Governor's Day, occurs the first event of the commencement exercises, the review of the cadet regiment by the governor of Iowa. Following the review, the trophies and medals will be awarded. The review will take place at 1:30 on Iowa field, and will be an impos- sible ceremony. Word has been re- ceived from Governor Clarke that he will be here in person if he can pos- sibly arrange it and the staff will ac- company him. This is the last drill for the cadet regiment for this year, and all the cadets must be present to make arrangement for the marching orders and the cadets will be present in their uniforms.

Immediately after the review, Gov- ernor Clarke will present the cadets with the trophies and medals.

When this has been done, all the trophies will be won by the regiment and by the University of Iowa. President, Bowman, will carry over for the University the trophies won by the rifle team, and will present to the regiment and rifle team the trophies which they have won. Besides medals for the rifle team, the Coast award and the Life saver will be awarded to the winning team, and med- als will be awarded to the winners of the individual races.

SCHOLARSHIP TO MYERS

Walter L. Myers, instructor in English, has been awarded a scholar- ship to study in Great Britain this coming year. He has been granted a leave of absence by the university and will enter the eastern school at the beginning of the fall term. The scholarship is highly prized and confer considerable honor on the recipient. Mr. Myers is to be con- gratulated on his success in obtaining such a scholarship.

C. F. D. ELECTS

The C. F. D. society held its annual election of officers Saturday afternoon, May 31. The following officers were elected for the coming year: President, Agnes O'Callahan; vice president, Mildred Law; secretary, Helen Baldwin; treasurer, Florence Lang; assistant treasurer, Alice Horning.

WILLOW GIVES ADDRESSES

Miss Willow of the Liberal arts college will give two addresses this afternoon: one at 1 o'clock and the other at 3 o'clock. Miss Willow will deliver a commencement address for the high school of that place. Thurs- day she is to give a commencement ad- dress at Highaw.

CHANGE IN PLANS MADE AT THE ELEVENTH HOUR BY COM- MITTEE

This is Done to Guard Against These —is it Believed That Everything Can be Better Handled—Other Plans Tuesday in the Day.

Iowa Field is to be the scene of the senior floods this year, instead of the city park. Such was the announcement made yesterday by the university publicity bureau. The change of the fratic location was made for several reasons, chief of which was the fact that many of the students could not move to the arena in case of rain; this protection was not available otherwise. The crowds could also be handled much easier in case of rain, the arena building furnishing sufficient accommodation in case of a downpour.

The ceremonies will start today afternoon. A big automobile parade will start in the city the first event will be the alumni baseball game. The faculty member of the faculty than Jimmy Barry will pitch the first ball. With P. C. Vitalis acting as marshall of the day the complete set of dances will then run their regular order. Every senior class will put on a stunt, each one to be staged as a unit in front of the immense concrete bleachers.

The committee in charge follows: 21 C. of Commerce, 6 A. S. A., Director, of Anamosa; Clifford Powell, of Red Oak; C. E. Chitty, of Nevada; C. G. Morehouse, of Des Moines, and P. C. Morehouse of Fort Benton's bluff. This committee will meet Saturday morning to perfect arrangements for the big series of events for the benefit of the visitors.

SOME GOOD WORK
Two recent editions of the Ottumwa Currier contained interesting accounts of the Ottumwa school's new building, built by Superintendent H. G. Blackmar, who was until recently being from denominational colleges.

Eight of the nine Justices of the supreme court of the United States are college superintendents, according from denominational colleges.

Recent statistics show that the men of Wabash university are bet- ter students than the peers. The per- centage of failures among the men being almost double the per cent among women.

President: GIVES ADDRESS SUNDAY
Will Speak the Farewell Message to All the Senior Classes

President John G. Bowman will deliver the baccalaureate address to the graduates at the natural science auditorium at four o'clock. The seniors of all classes are expected to attend the service. They will wear the academic costume as is customary on such occasions.

The idea of the president of the university giving the address in the graduation was inaugurated by Presi- dent Bowman last year. This is revival of the custom that the presi- dent of the university should use the baccalaureate service to give his last message to the men and women who are to leave their alma mater.

Last year the heads of large col- leges over the country commented favorably on the president's innovation. It seems fitting, according to several who have expressed themselves, that the head of any institution should give some word of counsel to the men and women who are leaving the care of the institution. The bac- calaureate service offers an excellent time for this, as the graduating class will have opportunity to carry away with them the God-speed of the man who leads the institution that gives them their diplomas.

CHANGES AT KANSAS AND OTHER SCHOOLS

ENGINEERING OF UNIVERSITY GRADE ABOLISHED AT THE AGRICULTURAL COLLEGE

Professional Engineering in Kansas, Utah, North Dakota has been Concentrated at State Universities Engineering Requires Liberal Arts Education.

Kansas is the latest state to abol- ish engineering of university grade at the State Colleges of Agriculture and Mechanic Arts. All through the central west, there appears to be a movement in this direction, taking place largely out of the concern of professional engineering at the univer- sities, and the development of trade schools and industrial engineering at the agricultural colleges.

Professional engineering in Utah, North Dakota and Kansas has been relieved concentrated at the state universities. The order went into effect in Utah some time ago, and has resulted in an immense increase in the number of agricultural stu- dents at the agricultural college. North Dakota has abolished the granting of professional degrees in engineering at the agricultural college, and has established trade schools, industrial and agricultural engineering in its place. The Ken- tucky authorities have just announced the change, to go into effect next fall.

The reason for this change in technical education was recently set forth by Professor Whipple of Har- vard university, who said in a public address: "It is partly because of this de- mand for broad-minded engineers, and partly because science itself in becoming to be taught more and more in our universities."

The students at Pennsylvania universities have started a campaign to send the lumber boys of their state to a summer camp.

The students of Kansas university have decided to eat raw eggs for two years for the benefit of the medical profession.

Plans are under way whereby stu- dents in the colleges of Virginia and Virginia University have been urged to elect field work in the new school of photography.
