The Electric Watch Dog

Ever hear of such a thing? A thing we talk about as being so little and so unimportant, it has very little effect on life. It can make us think of a dog that can be trained to do various tasks. A dog that can be made to follow us around, do tricks, and even put out fires. It can be made to do almost anything we want it to, as long as we train it properly.

Anso Camera, a new invention, can automatically make pictures of us and even put out fires. It can be made to do so many different things.

AMES-IOWA CONTEST DESCRIBES STATE TITLE

(Continued from page 1) regularly in all of his contests.

Practices, last evening, was con-

ceived as a light signal practice, the

coaches not willing to take a chance

of having men injured on the eve of

a big battle. During the short exer-

cises all were given evidence of pro-

ducing as abundance of the sources

of paper and no signs of stalemate

were visible. The team was domi-

nant early with the instruction to be at

the armory at four o’clock today from

which point the customary trip to

the country club will be started.

After the practice, last night, the

coaches announced that unless an un-

expected excape area, Curlyhead

would not play tomorrow.” His side

is still bothering him and it is

thought advisable to give it time to

heal. This means that Bowen will

be laid in the corner, although

though his hip is giving him consid-

erable trouble. Gunderson will be

forced to start the other end in spite

of the fact that his ankle is still weak.

At this writing it is doubtful if Patson’s injured shoulder will per-

mit his playing.

To those who have had feasts so far in the weather conditions for to-

morrow’s big contest, Manager Kellogg announced last evening, that advice

received from the United States

Weather Bureau at Des Moines station that there is no storm in sight be-

tween, Iowa City and the coast.

It is also announced that unique

Soccer Football Lineup Given

Positions Not yet Defined—Chance for Others—Close Game

Certain

Director Schroeder completed the

probable lineup for the soccer foot-

ball team for the coming battle with

Central. Because of the smallness of good material the difficulties of selecting the team were by no means

light. The lineup given below is not final but is in the most probable

by the quality of the work

displayed on the field thus far.

There are several men possible for

each position and just which one

will be successful candidate is not

yet known. The lineup is as fol-

lows:

Forward—Derrickson, Pitchard,

Galley, Bublik, Barry and Derrick-

son.

Halfbacks—Graham, Davenport, De-

mow, Wilh, Gubik, and Nays.

Fullbacks—Brush, Pugh, and

Perley.

Goal-keeper—Ganna and Blaschke.

As free forwards, three half-backs, two full-backs and one goal-keeper are needed. There is a multiplicity of men for each position. At a meet-

ing last night Brush of the engi-

neering college was chosen presi-

dent of the team.

There are a large number of men

who have been practicing only on

Saturday who still have a choice to

make the squad if they show better

form than those listed above. It is

extremely difficult to select a team early in the season because of the

fact that this is the first time that a

team has been organized here for the purpose of playing with another insti-

tution and consequently the di-

rector has no lines on the material

that turns out for practice. How-

ever the team has been at work for several weeks and a close contest is

almost a certainty.

STORY OF JIMMIE'S LIFE

San Francisco, June 23rd:

NOW ON SALE IN MORNING

"Japan Night" to be Held Next Saturday Evening - Music, Fencing and Julia Tats

If you are interested in the use of arms, designations are acceptable.

New appointments will be made.

Broken heads, damaged sources and bruised allies marked last evening's drill of the cadet regiment. For the first time in the history of Lieutenant Phinney's recruits wereentrusted with the implements of war. Verifications of General Shearman's standing statement were heard on all sides, and to many of the rookies the trusty rifles proved deceptive indeed. As the supply of Krags now loaned to the university by the War Department is but 289 and the number is exceeded by more than 100 cadets, all the companies cannot be supplied with guns until an additional supply is received.

Arrangements have been made to provide further amusement. It is thought that the new pieces will be ready on hand in a few weeks. Until they arrive the companies will alternate in using the rifles and those each company will drill with the guns two nights a week and without them the other night. Only the radium in the handling of the Krags were taken up tonight as it is deemed most important that the men know how to handle a rifle properly before any complicated work with it is taken up. The drill periods next week will most likely be given over to further instruction in handling the rifle.

Under the head of General Orders No. 2, Lieutenant Phinney, Commandant of Cadets, has given out the following announcement:

"The resignation of First Lieutenant and Battalion Adjutant, Karl Brandtmann, 1st Battalion, and 2nd Lieutenant Adolph Kohlsted, Company D, is announced.

Henceforth all exercises for absences must be made in writing and submitted to the Commandant within 48 hours from the date of absence.

Failure to comply with the above, records against your record, 20 demerits for each absences and 25 demerits for each lateness.

All absences must be made up before a student is given any credit for work in this department.

No appointments should be made to fill these vacancies but new incumbents will probably be chosen within a week. Lieutenant Phinney; discours was received unanimously by the competitive examination held by Congressman Prophet for aspirants for the West Point appointment and will now devote his time to preparation for the West Point entrance examinations which will be held some time during the winter.
