CAST FOR PINAFORD IS WELL PREPARED

WORK ON MUSICAL-COMEDY GIVES AN IMPORTANCE TO MUSIC THOROUGHLY FINISHED

Will he be a Laugh from Start to Finish? By Those Who Know-Music To Be of the Best-Characters Well Fitted to Parts.

"What are they, the names of the islanders?" was the question asked by the program printer of English theater when handed the title of the new little children's "Pinaford," which is to be staged this evening.

Several productions and few professional companies have a cast either one for either or for quality of music. And "some" music too that will be whaled on the grand stage tomorrow and for several weeks to come, and the kind groups do social gatherings love to sing.

Here have been both "Pinaford" but it seems no stress should be placed on as it is a musical play. The plot is built about the comic, the characters parts require comic and the cast is best with those who can properly contain this comedy. Dr. Max Alfred as Dick Dopey, the half-blind, crippled reprobate has played in "Pinatnes" on the road and brings the comic action. It is worth the going.

Dr. George Charles Murray is well known locally for his acting and he is especially good in comedy. The impersonation of the part conducted for Joseph Porter, Lord High Admiral "Plinafore" is excellent.

The regular sessions of the convention will be held in the main chamber of the Old Capitol building. The banquet which ends the convention is to be served in the new Jefferson Hotel, Monday evening, December 27. His subject will be announced later.

The members of the Iowa Union have proved that they can when they try. Over one hundred and fifty men joined the organization. The work of getting them was done in a few hours. The total membership is now nearly five hundred.

At the rate of yesterday the men running the membership campaign believe that they can get one thousand members before Christmas holidays.

Members of the board of directors and officers of the union met last evening to discuss ways and means of collecting the ten thousand dollars. Talks by H. M. Harwood, Professor Room and President McCreary of the Pi Kappa National faculty gave many pointers and added many ideas to the list prepared by the members themselves.

A ballot scheme will be employed but its exact nature has not been definitely settled but its working will be arranged and then the board will start to gather the dollars.

A resolution was presented to the president of the university yesterday asking for the furniture that was used by the former union. This furniture is now in the school of music, and is being used by that department.

JUNIORS

MONDAY, DECEMBER 15

IN THE LAST DATE FOR HAVING THE JUNIOR PICTURE TAKEN.

ALL JUNIORS AND THOSE WHO EXPECT TO BE JUNIORS BY THE SECOND SEMESTER MUST HAVE THEIR PICTURES TAKEN BY THE ABOVE DATE. POSITIVELY LAST CALL.

NEGATIVE DEBATE LEAVE FOR URBANA

NEGATIVE TEAM WILL DEPART WITH PROFESSOR MURRAY FOR CONTENT WITH ILLINOIS

None Team This Year- -History of Members of Team Given.-Short Preliminary Drill to Be Given- Iowa Situation Uncertain.

The negative debating team consisting of Leonard Barker, Orville Harris and George Murray together with Professor Murray, the coach, leave this morning for Urbana, where the next annual meeting of the Central Debating Circuit will be held with Illinois. They will leave on the 10:17 train and will arrive at the University campus tomorrow. The debate will be spent in a short polishing up of the debaters for the final debate, which will be in the evening. The debate will be held in Morrow Hall of the university of Illinois.

Iowa is sending an especially strong team this season. Leonard Barker, the leader was one last year's debaters while Orville Harris and George Murray were on the debate team last year, and as such they have won the university championship. The history of the members of the team follows:

Leonard Barker was born in Warrenton, Iowa, in 1891. He is a member of two high school debating teams, and winner of several high school prize teams which won the state championship. He was leader of the Zetagathian freshman team and winner of the Intercollegiate Debating tournament. He is a member of the Intercollegiate Debating team last year. He is treasurer of the Zetagathian and is on the Hawkeye debating team.

Orville Harris was born at Jefferson, Iowa, in 1892. He was a member of the freshman team of the Zetagathian society, and leader of the Hawkeye debating team. He is prominent in high school dramatics. Harris is a member of the Zetagathian and Newman societies.

George Charles Murray's home is in Sheldon, Iowa; but he was born in Seattle, Wash. He is prominent in high school dramatics. He is a member of the Zetagathian and Newman societies.

The Illinois team is composed of...
Come in and come in and see our new and interesting works purchased especially for the success of the meeting. Wallis, and two Reefi, the alumni and friends of Iowa, are to be held in the counties of Iowa one Saturday. and two interesting works on art will be found in the original Ranney collection constitutes one of the finest libraries of art in the middle west. Among some of the more recent works purchased are "A History of Painting," "Great Painters," "The Most Excellent Painters," "The New Spirit," and "The Art of Dancing." The library now has an unusually complete collection of works on art. Both the practical and appreciative sides of painting, architecture and sculpture are up to date. These works have the finest collection of rare samples of book binding in the original Ranney collection constitute some of the finest libraries of art in the middle west. What now remains is for the students to cooperate and work with a will for the success of the meeting held in the counties of the state. It is from the returning students that the alumni and friends of Iowa, now, that the meeting may be a success in every particular. Many new devices and much improvement on former ones will add materially to the advancement of Iowa throughout the state.

ISAAC NEWTON'S SUCCESSFUL EXPERIMENT

The senior engineering students have recently been undergoing psychological tests at the hands of Professor Irving King, of the department of education. The tests have been given at intervals of six weeks and the results are soon to be announced. The survey was made for the purpose of determining the various mental abilities of the students and the final results promise to be interesting.

Illinois will be represented in the national shooting contest for the first time. Their recently organized rifle club has been recognized by the national association, and they will meet twenty-six teams this year.

Howard and Son's shining stand for ladies is much appreciated these few days.

PROFESSOR F. G. HIPHES

Aned to Editorship

Magazine is Monthly and Devoted to Designing Draughtsmen and Engineers

Professor F. G. Hiphes, head of the department of descriptive geometry and drawing in the engineering college, was the recipient of a signal honor yesterday. He was notified of his election to the executive council of the American society of engineers for the year 1917. The journal is a monthly publication devoted to the interests of designing draughtsmen and engineers. Its headquarters are in New York City and a branch office is maintained in St. Louis. The American society of engineering draughtsmen which it represents is an organization of professional men all over the country, taking rank with the societies of similar rank in civil or electrical work. While Professor Hiphes's duties on the publication will be largely along the line of an editor's usual tasks, he will also be asked to contribute a considerable amount of material.

The appointment to the position comes at a recognition of long period of service in the particular line of work in which the journal deals. Mr. Hiphes has been professor of descriptive geometry and drawing in the university for the past eight years and during the time has been recognized as a national authority on the subject.

An interesting thing to connection with Professor Hiphes's appointment is an article which appeared in the Boston Globe. The article deals with a certain chemical operator which the student is required to learn the art of, without previous experience in that line. The articles are urged to turn out promptly.
