ABOUT PROTECTION OF OUR BIRD LIFE

FEDERAL INSPECTION OF MIGRATORY BIRD LIFE WAS IN CITY YESTERDAY

Question of Protecting Migratory Bird Life was a Hot One Today

The shooting of wild animals, birds especially, is a subject which is causing states to pass rigid laws, and even the governments are taking a hand. E. A. Cloosly, federal inspector of the migratory bird life, was in the city yesterday, conferring with men in the university who are interested in the preservation of the wild birds.

"The question of the preservation of the migratory birds is becoming very serious," said Mr. Cloosly yesterday. "It is not merely the question of the extinction of the bird life, and species but, the great work of destroying. Insect life which are menacing our farms, will have to be undertaken by man when the insectivorous birds are made extinct."

If the government can prevent, the state can prevent too, he declared. On October 1, 1915, President Wil­son signed federal laws and regulations for the protection of the migratory game birds. At present this federal law:

Following are some of the more important purposes of the law:

1. The protection of the migratory bird life is highly desirable in the interests of the bird, because they are allowed a daily feeding and resting period.

2. To provide protected flight lines along at least two of the large navigable rivers. There are many good reasons for it.

3. To prohibit hunting the nesting season to not more than three months during any one year.

4. To make the seasons nearly equal in length in the different parts of the country.

5. To regulate the hunting season according to latitude and time of migration, and to adjust them so the birds will be reasonably opportunity of securing thirty days absolutely

Adapted from page four:

PANEL HELLENIC DATE WILL BE CHANGED

Big Intramural Party Will Be Probably Held Week Later Than Announced

The date for the Pan-Hellenic Ball, which was announced last week for Friday, April 17, will in all probability be held a week later than the committee has definitely notified.

This change will be made out of deference to the wishes of the student body who are tired of attending parties.

The Drake Relay races will be held at 8 o'clock on Saturday, April 18, music and sports tasks, and the admission will be the same as for the Pan-Hellenic Ball, and also there will be tickets for extra time to succeed in making this the biggest and best Intramural party which has ever been given at the university. The tickets, which they say are trying to accomplish.

But to the hardy types, with which the plans for the intercollegiate tennis and track meet are made, this idea has been given up and a regular tournament will be held.

Each fraternity will be represented by a team of five men which will compete in the semi-final round with three other teams, the two winning teams will compete in the final round, probably a long time trip, to the winning team.

SECOND UNION MIXER TO BE HELD NEXT THURSDAY

Arrangements are practically made for University Mixer Thursday

—Good Program Planned

Arrangements are practically concluded for the second Iowa Union Mixer which will be held at the Union room next Thursday evening. Many members of the university are looking forward to this affair.

Chairman McHenry of the social committee has arranged a splendid program of dancing and other entertainment, the program promises to be an enjoyable one.

Refreshments will be served also. One or more of the rooms occupied by the second union will be used by the Society of Friends for dancing and the guests will have the opportunity of taking in the refreshments and entertainment.

The program is as follows:

Ballroom Dancing and "The Life of the Party"

Religious Union Mixer

Social Union Mixer

Science Union Mixer

Zeta Kappa Mixer

Graffiti

The program will be a social one.

GROCERY WAGON UPSETS

The grocery wagon of a local gro­cery store was upset yesterday when the driver attempted to drive the horse near the street car tracks and turned the corner the horse went through the east door of Old Science Hall. No damage was done except a few broken in the front end of the wagon.

Friday Morning, Jan. 16, 1914.

IOWA CAN DO IT

We have heard conflicting opinions concerning the Hawkeyes, prob- ably in basket ball. Since the game, with Carroll, is there is a growing feel- ing that Iowa can put up as strong a team as any other university in the conference. We were surprised to learn romantic which seemed to come from Iowa could probably hold Chicago and Minnesota down to a low score. Despite the fact that Chi- cago has five "C" men playing on her basketball team, the Hawkeyes are not prepared to go into a game against the university of Chi- cago, opposing a team of superior players. The Hawkeye team is old, in age. Just as strong physically, they have as good a knowledge of basket-ball. Equipped with these facts, the lack of confidence in the ability of our athletic team is just as strong as it is capable of winning as Chicago, Minnesota, Wisconsin, or any other university, who has become famous for his athletic teams.

"THE ONLY SON"

In which Mr. Richmond Kent is appearing this season. Mr. Kent's "Richard III" which ran on Broadway, had its premiers at the Gaitey Theatre, New York. The author of this play, has provided a story, a kind of plot, the result of which, the audience, brought to the heart, and holds the interest from the moment of inception to the finish. It is a tragedy, a type of a boy's love for his mother. Of a father's love for his son, and finally of the death of the 1915 summer who found the experience is human nature and in business methods in dealing with about six hundred people each, in business methods in dealing with about eight hundred people each, in both the higher institutions of learning there will be provided five days each week.

Committees at Wisconsin are in- teresting the controversy of fresh- men not wearing the green button, which was adopted as the official in- signia of the class.

Mrs. K. B. Brown yesterday re- solved the sad news of the death of her sister at Red Oak, Iowa, and left her place of residence, to bring the sale of present tickets at Wis- consin is very poor this year. Aboli- tion of house parties is suggested as a reason for difference among the students.

Roland C. Kords, Eng. 17 is at the University hospital where he under- went a successful operation yesterday.
