MISS FINCH

STEVENSON SOUTH AMERICAN

“Judge the following: 1. Ralph E. Ireland, Iowa, Watson.

The jury consists of negro folklore, southern folk lore, and Christian elements.

Miss Lulie Finch spoke more that filled all expectations last night in the program of negro folklore stories. In many respects this was the most unique and yet pleasing entertainment ever given at the university. She held her audience throughout with her discussion of the vivid and dramatic manner in which she interpreted the old African myths.

There were a number of stories were a curious mixture of negro folklore, southern folklore, and Bible stories. This fact seemed to please the audience. Miss Finch other forms of public speech. Isaac counted as given out by the committee.

There was not “Simon Peter” and the rest of the legends interesting in themselves, but as an exhibition of his remarkable ability to make the story

EXPENSE ACCOUNT OF UNION MADE PUBLIC

No Grant Confirmed With Management of Union, Say Committee—Committee on Finance—First Dance Friday Night

“There is no grant connected with the management of the Iowa union, but we are simply trying to give to the students a good social time for a reasonable expense.” This was the statement of one member of the dance committee last night, relative to suggestion of grant in connection with the announcement of the coming dance.

In proof of the statement that the committee are not making any fortunes out of the social affairs of the union, they have made public their expense account of the first dance held Saturday night. The statement of receipts and expenditure shows a profit of $18.68, which amount will be used to help pay expense of other entertainment.

Another dance is announced for next Friday night after the basketball game. The miner has been postponed on account of its conflict with the “Sedgewick’s” revival.

Following is the statement of the receipts as given out by the committee:

"LITTLE Miss MIX-UP"

As a special feature for the bill at the Englert theatre, commencing Thursday, Jan. 12, Johnny and Ella Galvin will present a cabaret musical revue "Little Miss Mix-up" with the original stars, an exceptionally strong cast and a chorus of pretty girls.

Johnny Galvin is one of the newer types of comedians, abandoning the slap-stick methods and low comedy of the old-timers. He succeeds by his own cleverness in making the audience wear the smile that won't come off. Ella Galvin, whose dancing and_ dancing is a nerve-tingling source of delight, shared the honors with her brother. Chronicling in her youth, navio and grace, with a beautiful singing voice, she has her following under her spell from the moment she appears. In this bill Miss Galvin has the best opportunity of her entire artistic career and makes the most of it.

The show is metropolitan in every sense of the word and is described as being a good deal the best and brightest thing in the way of a musical revue that has been produced in many years, advocating in every music, beautiful scene, amusing incidents and witty dis-
Michigan Aggies Only Such to Beat Iowa Thus Far in League—Have Not Heard From Princeton

Iowa made 615 in last week's match of the Intercollegiate Rifle League. The score from Princeton, Iowa's opponent, has not yet been certified as yet, but it is thought unlikely that the Easterners were able to equal Iowa's good mark. Princeton has not been showing much excellence so far, and the local team should have a comfortable margin. The results of last week will fall to be issued from Washington in a few days and the outcome of the match will then be published.

Iowa's marksmen are going exceptionally well thus far, and last week they were 39 points ahead of the corresponding week last year. If this record is kept up the team should make an enviable showing for the season, and Iowa should be well to the front by the end of the season.

They detailed scores of last week's shoot follows:

Iowa vs. Princeton

St. Pr. Tot.

Arthur J. Ammon ....... 95 93 188

Verne W. Stong ....... 92 93 185

Jim H. Chapman ....... 93 92 185

Paul G. Ingham ....... 94 96 190

Total 1st team ... 471 484 955

George W. Cade ....... 92 98 190

Raymond L. Jaeger ...... 92 81 173

Arnold W. Oehl ...... 91 96 147

John W. Brooks ....... 92 94 186

Hase Kuhmann ....... 94 93 187

Total 2nd team ....... 445 477 922

Tryouts for the team:

Atwell Taller ..... 92 94 186

Norris R. Smith ....... 90 90 180

The Intercollegiate Rifle League has been re- ceived, and it shows the following results in Class A, the highest class of the league for the week ending January 8th.

Minnesota 940

Georgia Aggie 564

California 918

Mass. Tech. 931

Michigan 935

Illinois 983

Iowa 952

West Va. Univ. 945

Princeton 917

Mass. Aggie 943

Purdue 918

Norwich 908

Harvard 987

The teams representing these six schools are classed as the best in the United States in indoor shooting. These teams form a distinct class, and meet each other only, as the old geographical classification has been done away with. Although Iowa has just made the Midwinter Aggie record, it is a noticeable fact that her score was more than sufficient to defeat any other team in the league that week. Harvard, who showed a much remarkable progress last year, does not appear very strong in the first match, but great development in the coming weeks. J. L. Chapman of the Iowa team with 125 total had the highest individual total of any man in the league for the week. Chapman is a new man on the squad this year.

OTHER COLLEGES.

"Young college men and women whose responsibility is upon you go-pair your efforts in this struggle with the liquor traffic. Your generation must solve the problem. I only urge your opportunity.—"Re-Gov. of Ind., before a state convention of college students.

The sum necessary to maintain your university's position as a factor in interscholastic athletics this year will exceed $15,000.

Senior students have been re- garded with favoritism because they failed to report for physical examinations as per the regulations.

President Grose, of De Pauw university, travelled over thirty-four thousand miles last year, in making speeches, addresses and lectures.

Marlon Mounts, a senior in the college of liberal arts, has taken a class in Medieval History, in the Iowa City high school for the coming semester.

The student body of Ripon recently voted to make the prizes at year book, "The Crimson," part of the semester bill. In this way every student will receive the book and the annual becomes a permanent thing for all of high school and college life.

GEORGIA AGGIE: How many times would you say a piano tuner is to a hundred men as a Scotch terrier is to a hundred dogs?

PATTLEWIRE: Well, I could not say, but I know the piano tuner is to a thousand men as a Scotch terrier is to a thousand dogs.

GEORGIA AGGIE: That is quite a figure.

PATTLEWIRE: I have heard of the piano tuner being called the great benefactor of music, but to me he is second only to the Scotch terrier in the department of canine benefactors.

GEORGIA AGGIE: It is a pity that the piano tuner is not more generally appreciated.

PATTLEWIRE: It is. But I am sure we have not always given him his due. I have often heard it said that one piano tuner made a hundred pianos.

GEORGIA AGGIE: Yes, but I think it is more correct to say one piano tuner made a hundred pianos.

PATTLEWIRE: Perhaps that is the way it is, but I believe it is more correct to say one piano tuner made a hundred pianos.
