UNION DANCE WILL BE HELD AFTER GAME
FLOOR WILL BE IMMEDIATELY CLEARED AND DANCERS WILL HAVE FULL SWAY.

Second of Series of Dances by New Organizations—Admission Price to Be Donated to Non Members of the Class.

The second dance of the Iowa Union will open this evening at the Armory immediately after the Grinnell basketball game. This will be another "cost price" dance with an admission price of 10 cents. The price will be donated, however, for members of the class. Tickets may now be sold so that the men who have joined the organization may share in its benefits for the fullest extent.

But there will be arrangements so that all who care to dance may do so at the price. Tickets may now be procured from Professor Elwyn or from the secretary of the Union, L. B. Harker. Members of the class may have tickets at any time the Union is in use at this armory, this evening so that any woman desirous may provide themselves with credentials. All who take advantage of the low rate of admission will be able to participate in the evening. Granada will be paid a salary necessary for tango, close hall, etc. A call has just been received by the secretary of the Union will occur at 8:00.

There has been some mistaking as to when a dance could be started after a basketball game. This has been arranged to the convenience of the Union in charge of dances. A special force of men will be on hand to clear the floor immediately after the game, and it is estimated that the time the crowd from the game is off the floor it will be ready in time for the dancers. A slick floor is essential for dancing, which will probably hold away during the evening.

The floor will be smoothed, however, so that it will be in good condition for dancing while the leaves are being collected.

Over a hundred couples attended the last Union dances and it is firmly believed that those in charge that this number will be increased greatly at the coming dance.

COSMOPOLITAN CLUB MEETING

The regular business meeting of Cosmopolitan Club will be held at Oslo Hall Saturday evening, January 24 at six o'clock. This is the last meeting of the semester, and election of officers will take place. All members are urged to be present.

MRS. WIGHT POTTERT HERE

Mrs. Dwight Potter of Chicago, arrived today as a visitor of the T. W. C. A. She will give an informal talk to this afternoon to all women of the city at 1:45 o'clock.

DR. ROWEN BEGINS WORK IN MEDICINE

Give First Lecture to Medics Yesterday—Well Qualified for Position.

Dr. Rowen, the newly elected head of surgery at the University Hospital, held his first class today. His magnetic personality and clear forceful handling of the subject made an immediate impression on the faculty.

The arrival of Dr. Rowen increases the most valuable addition to the department, and best of all, the new surgeon is especially well qualified for the chair he now holds, having been associated in surgical work with Dr. Charles Dana Haynes, the head of the Department of Surgery there, and author of the standard text book on general surgery.

\( \text{ARAGUCAN GOVERNMENT} \)

WANTS IOWA TEACHERS

Minister From Nicaragua, Alva University for Teachers for Granada, Institute

A call has just been received by the Bureau of recommendation of teachers of the State University, from the Nicaraguan minister of education. He has traced this institution for the Institute of Granada, and several other teachers at least, four of whom must be men, for four months training in special schools of about 400 pupils each, which the Nicaraguan government proposes to establish in Managua and Granada.

The Director of the Institute of Granada will be paid a salary of from $1,000 to $1,500 per annum. The appointments for all positions will be made for three years. It is desirable that all the professors and teachers write and speak the Spanish language, that they are members of the Catholic Church, and that they have had successful experience in Public School work in the United States.

The above is only a sample of calls that come in daily to the Bureau, which acts as a means of placing University graduates. The demand for highly trained teachers always exceeds the supply.

\( \text{GRADUATE CLUB RECEPTION} \)

Dean and Mrs. E. B. Blackmar will entertain the Graduate Club at an informal reception at their new home, 611 N. Linn street, on Wednesday evening, January 19th. It is urged that every member of the club attend this annual reception.

NOYES PLEASED LARGEST AUDIENCE

Famous English Poet Pleased by Enthusiastic Audience at April Auction Last Night.

All expectations were more than realized last night in the readings given by Alfred Noyes. The poet received an audience larger than the most optimistic of his readers had dared to hope would be present. All present listened to him with rapt attention throughout the hour; and he was encored by prolonged applause after the close of the program.

Mr. Noyes read "The Barred Owl," "Forty Stepping Stones," "Sherrwood," "The Highwayman," all noted and well-known poems, besides a number of shorter selections not so widely read. But the reading which held the attention of these present in the most remarkable manner was his latest effort, "The Wine Pyon," not published in this country.

His poetry is an attempt to make the world realize the horrors of present-day wars, having as its background the recent struggle in the Balkan States.

In Mr. Noyes' contribution to the cause of universal peace, a subject dear to his heart,

In a financial way the coming of this poet to the city will make a very prosperous success.

All expenses are fully met, and a small surplus will remain on hand.

HILL—KIRBY

The wedding is announced of Walter Glenn Kirby, B. B. in Chemistry, 1911, to Miss Amy Hill, of West Abbeville, 1910. After completing the chemical course Mr. Kirby was appointed Chemist in the Michigan, Indians.

Plant of the United States Rubber Company at Los Angeles, a distance of 3,700 miles. This training will bring him into the way of gaining practical experience in the rubber industry. Upon completing his training he will be transferred to another factory in the South of Michigan, where he will be engaged in research problems connected with the rubber industry.

CAJUN'S NOTICE

The physical training classes of the German Club have been discontinued. Company K and F will report in uniform at 7:00 A.M., Tuesday, the 21st Instant.

IOWA HOSPITALS

HOLD ANNUAL INITIATION

At the Irving Institute literary society their annual initiation at Clare Hall last night. The following were initiated:

\( \text{THE DAILY IOWAN} \)

PUBLISHED BY THE STE MENTS OF THE STATE UNIVERSITY OF IOWA

JOHN S. DENT, President

IOW A CITY, IOWA, FRIDAY MORNING, JANUARY 20, 1914

NUMBER 25

\( \text{FRESHMEN vs ENGINEERS 7-15} \)

THREE LECTURES WILL FEATURE PROGRAM FOR "MUNICIPAL LIGHTING DAY" FORUTURE IOWA STUDENTS TO BE ON PROGRAM during the Lecture, "Municipal Lighting Day," February 1, when the new extension division of the University of Iowa will entertain the civic officials of the state who are interested in bettering their communities.

Charles P. Chase, of Clinton, Ia., a prominent engineer, and a former student at the University of Iowa, will speak at the morning session on "Public Improvements, Their Planning and Execution."

The second lecture will be illustrated and will be given at 1:30 in the afternoon by Prof. A. H. Ford, head of the Department of Electrical Engineering of the University of Iowa. His subject will be "Street Lighting."

This will be followed by an inspection of the modern system of street lighting that has been adopted in the University of Iowa.

Prof. W. G. Raymond dean of the College of Engineering in the university, will speak on "Elements to be Considered by Councils in State Making for Public Utilities." It is expected that these lectures and others to be given in the coming weeks in the course of "The Unpro."

Much interest has been aroused among city officials of the state by the letter sent out by the head of the University of Iowa engineering college with regard to a series of discussions and debates at the round table conferences which are to be held in the coming weeks in the city.

THE DAILY IOWAN

REOUIRED FOR FARMING, MORE THAN 150 MILES FROM DURHAM, a junior in Civil engineering, gave a talk before the Compass Club on February 1. The data was given refered to a constructional undertaking which he recently managed in California.

"The work was the running of a pipe line from Buena Vista Lake to Los Angeles, a distance of 150 miles. Mr. Hands was resident engineer in charge of the work. In his talk he discussed the work in detail, including the water, earthmoving, materials, labor, and economy, and the outlook for the business; and the work, and also outlined the methods used to pipeline the placid his laborious and other irregularities in the rough country."

GRINNELL FIVE HERE TONIGHT
Fast scarlet and Black Train to Play on Local Floor Tonight—Championship Title at Stake.

The speedy five representing Grinnell College will meet the Hawkeyes tonight in the armory in the first of the two encounters between the two teams. Several hard luck stories have emanated from the Grinnell camp in the past few days but it is likely that they will be able to utilize their full strength into the fray. The Iowa team has had rather light work since the strenuous battle with Minnesota on Monday evening, and is in condition to put up another great battle against the tough Grinnells. It is likely that the locals will start the meeting with the same line-up which has appeared in previous games. The Grinnell players are to the basketball floor what the Ames game is to the gridders, and that tonight fray will be a battle royal, there is no doubt. The freshman and engineer fresher will play a curtain raiser at 7:15, while the main event will be started at 8 o'clock.

Private Tango Lessons $1.50 per Hour, Miss Welch Dancing Instructor, Company 1 Army, Phone 415.
