WATSON PLEASED AT TURNUSTOR FOR TRACK
Eighty Men Out and Move to Cove
—Lack of Experience Will
Cringle Tours

To say that Watson is pleased with
the prospects for track is putting it
modestly. He sees the manner
that won't come on and officials in talking
of the many coming changes who
foresee the army. There is an absence
of an organized material in
the university that will show up excep-
tionally well with a proper length
of time. Behind the record of the
track team up will be the
verdict of the able teacher.
There is, however, according to him
no chance of taking highest honors this
season because many of the men never
had on a spiked shoe until they turned
out for training this month.
At present about eighty men are
expected to be turned out, and
there is still a chance of incoming out-
later. Many who are taking part in a
few of the winter sports will come out
to fill the spots that are being vacated
and the teams will benefit from
the addition of many men.
