"WORK TO BE DONE" IS CRY OF IOWA WOMEN

WOMEN OF THE UNIVERSITY EXP.

LECT TO DO GREAT THINGS

THROUGH LEAGUE

spirit of Democracy President Among Iowa Women Calls For

Purely Democratic Organization Everyone to Cooperate

There is a big work for the Woman's League here at the State Col-

lery of Iowa, and there are spec-

tacular events in the Literary society and out church, members without

exclusion. It is governed by an

Executive Council elected by the

students of both sexes. It is 10 for bringing up the spirit of camaraderie

among all women. Moreover, the League will provide the opportunity for social, service

that is really broad. Broadly speak-

ning it will have general administra-

tion over the Inter University Houses, it will form students' forums

UNION MIXER IS

TO BE HELD SOON

Iowa Union Planning Bowling Time

In Union Rooms Next Thursday Night

The second Iowa Mixer staged

since the formation of the organiza-

tion will be held in the Union room

next Thursday night.

The mixer will be held in connec-

tion with a special meeting of the

Union members, called for that

evening. The meeting will be

great importance and business which

is vital to the Union will be brought

before the mothers at that time.

The mixer itself will be worth

worthy of remembering. Men have

been working on the "scouts" to

be staged since the time of the appoint-

ment of committees several

months. They now state that they are

prepared to put on the best mixer ever held by either the Union or any

other organization.

The union committee stage plans to

at several new features in the en-

tertainment line which they will put

in Thursday night although the

exact plans have not been divulged

yet.

Following the program of events and the brotherly meeting, "scouts

will be served with a small charge.

Arrangements are also being made to

try and provide every man with

"munches" in abundance so that he

is ready to partake. The White Union

is Universal approach, and the requirements for membership are so easy that there is no

reason why every girl in school

should not harbor with the or-

ganization. The opportunity offered

in the unique one of jeering and solving

the first organization of its kind in the

school. The wide awakes and up-

and-down women of the school are

moving the possibilities and poten-

tialities of such a league. It rests with

them, now, to show their support and co-

operation on such a bountifully by

helping to swell the roll of member-

ship.

To the athletic board of the State
college of Iowa, and to other

ments, the sensible men will con-

support the measure. We the

sensible men will raise a tablet in

memory of the late James T. Trickey, the students

will circulate a petition for the pur-

pose of furthering the movement

in the future. No, we are not

back to the old style of architectu-

re, and in aid of the finest Ames ludge in the

United States. The organization

was founded at Amnon in 1964. Later

chapters were organized in the

University of California, and in Ohio, at

Harvard, Ill.: Boston, Pennsylvania, Min-

nesota, Missouri, Cornell, Purdue,

Columbia, Stanford, Texas Tech,

University of Iowa and other

colleges and universities.

BE PROGRESSIVE! SHOW HAWKEYE SPIRIT! JOIN THE WOMAN'S LEAGUE.
LAYSAN ISLAND EXHIBIT OPEN AT COMMENCEMENT

HUNGS, WATER, SANTS AND DIS-ENT PIGEONS WILL BE THERE.

Will Be Boast of Two Years of Ted-Cam of Laysan Island Ex-Placed Out by a State University—Eills Four Hundred Square Feet

A little island, not much larger than an Iowa farm, surrounded by hundreds of miles of unbroken Pacific Ocean on every side, in the subject matter of the Laysan Island Ex- hibit, which now it is announced will be opened at the University of Iowa at Commencement time next June. Birds, waders, waterfowl, sea birds and flowers will fill the exhibit. The exhibit is in effect an important record of the most remarkable bird center on the globe, which probably in a few years will be the subject of studies of its wealth of life.

In no museum in the United States has so ambitious an exhibit been under-taken, and probably no exhibit has been carried out with more faithf ul attention to detail and with such killing artistic effect. The announcement that this famous exhibit would be open to the public for the first time next June 14 to June 17, was made by Professor C. C. Nutting, head of the department of zoology yesterday.

Four hundred square feet of floor in the Hall of Natural Science has been covered with material tak- en from the Laysan Islands. For two years experts have been preparing this remarkable exhibit. Groups of birds are to be seen everywhere, some flying and others on the ground, while birds and rock have been transported, so the actual being is present, and it breaks all the laws of design, ground so that the observer cannot tell that it is real and which is painted.

It is probable that a special program will be arranged for Commencement week in honor of Profes sor Nutting; Homer P. Field, and others who have made this exhibit possi- ble.

POSITION OF LEAGUE IN OTHER COLLEGES (Continued from page 1)

The Second aim of the club is to offer an opportunity for friendly, helpful fellowship among all the members. It is the feeling of mutual responsibility and a higher regard for both liberty and order, and to be a medium by which the social standard of the university will be set and maintained for the promotion of self government, and the Woman's League constitutes such an organization.

The work of the college in the interests of the women is the responsibility of the executive body. At present an effort is being put forth to prepare for the honor system at Missouri.

THE WOMAN'S LEAGUE. As an honor society, its purpose is to permeate the hearts and souls of the students, both men and women, the women of the university are actively engaged upon what is destined to be an honor- able work. We believe that the "Woma n's League" is a large idea for the women here at the state university of Illinois. The new league proposes to further demo- crats the women of this institution and to further every interest of the university. This it is hoped that every member of the society shall take part in this movement and yet keep with the approval and support of every woman in the university.

Tomorrow and Friday is set aside by those who have the membership in charge as a day for joining the new league. It is the duty of every woman who is a student in the uni- versity to help her support by sub- scribing to this worthy cause.

M. Van De Zee, "Eiseen thou- at one time as it was in the beginning?"

"It is quite a good idea to get the five hundred mark, and practically every member is a work- ing, enthusiastic booster. The ad- ders of the club feel that this year the club has more nearly approached its ideal than any other year.

Those closely connected with the activities of the Girl's Club feel that its work has just begun. They feel that there is plenty of need for a uni- versity Women's building, and have petitioned for the erection of such a building. But while waiting for the building of the Girl's Club the club is advocating and working for all that will make the university of Nebraska and its state college better and greater to the presence of the woman. The Woman's League of the uni- versity of Illinois has been established for twenty years. Until this year its function has been altogether ac- tual, and its object, to promote better feeling among women in the school. Several petitions are given during the year, and a system of letter advisers is in operation during the summer. However, a movement toward the betterment of the government, which originated with the Pan-Helena association, is still alive, and the league is con- structed with this idea in view. The Missouri Woman's League is an almost self-governing in its powers. Its authority has been increased from time to time until present in its present form, and the executive consists of the following: Under the supervision of the club, the activities of the classes and colleges are under the superintendence of the dean of women. The city is divided into geographical districts, each of which is a department with a chair and a few other members who are to keep in touch with the girls under their jurisdiction and to report to the executive body. At present an effort is being put forth to prepare for the honor system at Missouri.

GOOD SUPPLY OF BATTERY MATERIAL

Baseball Projects Looking Up Enthusiastically at Present Time

That there is no dearth of pitchers this year is evidenced by the appearance of the baseball list. Twelve men with pitching ability have signed their intention to go out for practice. There is, as yet, not much material for the other positions but as it is early in the season any improvements in their appearance will be of the greatest importance. The best and supplied position is that of catches. Nine men will begin practicing as soon as the season opens.

The men lined up thus far are:

Pitchers—Murray, Baird, Lowen, E. Zager, Ingham, Moe, McVey, Swenson, Hanson, Stewart.

Wright and Bruckner.

Catchers—Hocher, Shaulis, Fehlman, Swenson.

The first practice will consist solely of limbering up exercises. It will be an indoor workout until the weather permits training on the field.

WHAT IOWA WOMEN THINK OF PROHIBITED WOMEN'S LEAGUE

Following is Opinion Given Out by Two Women Interested in Work

A Woman's League at "Iowa." If you succeed in gaining a foothold here, you will be of the utmost value to the university. It will bring all the women into closer relationship and more perfect harmony. It will serve as a real aid. But a greater significance lies in the opportunity which such an organization affords for setting certain questions and accomplishing certain objects which pertain to women's activities in the university. No one, of course, can set up one small group of persons to settle matters which pertain to all the women, here, but a strong union will carry a great deal of power. Its decisions will carry weight, its ambitions will be respected and its accomplishments will be appreciated.

Not until a union is merely local. Iowa is one of the few universities of the United States which does not support a Woman's League. For this reason, it has been unable to derive the benefits of the exist-

COMMUNITY INSTITUTE—held at Audubon, IA.

EXTENSION DIVISION OF UNIVERSITY OF IOWA.

CLINIC INSTITUTE

Despite the blizzard and the cold weather the "Community Institute" conducted by the extension division of the university of Iowa at Audubon was well attended. The institute ended yesterday after three days' program.

From the opening session, which was attended by over 300 people who crowded the court house, to the final number on the program, "Helping the Boy Find Himself" by Prof. Holli

New Tango Pumps at Stewart's.
