KNIGHTS OF MECCASCIUS PREPARE FOR "BIG DAY"

Plan to Give Show Two Nights- Proceeds of Second to Be Used to Boost College "500 in 15" is Slogan

Other things besides the ground-breaking went into retirement last month. These other things were the news they had examinations on hand. Nothing like examinations to solve the problems in a race. But now quizzes, and exams and finals and all their brothers have passed and things that have been bickering off in the college of Applied Science in the few days before they went.

Most prominent of these are more plans for the annual spring celebration, now only a little more than a month off. A meeting of the Associated Students of Applied Science is scheduled for tomorrow night. In which a variety of points regarding the celebration will be called up. All the special committees will report and definite line of action is to be batted out. In all probability Resolutions, here, last year's accomplishments of the Associated Students and now an instructor in descriptive geometry in the college, will be desired to give a talk. He had charge of last year's celebration and is in a position to give some interesting pointers on the subject.

A new idea as to the manner of starting this year's show has been circulating around among the students. The idea is that the show will be a race. It is proposed to run the races two nights in succession this year, as annual the single performance of previous exhibitions. This is the plan:

Managers to Stage Big Tag Day Next Monday—To Give Best Leather Book to Any Body not Represented in Book

That the 1915 Hawkeyes will be truly representative in every respect is apparent from the guarantee of the managers and the editors, that not a single student is to be left out in the book. If anyone whose name appears in either the first or second semester's directory fails to find his name in the book, he is notified in the usual, the reward will be a beautifully bound leather copy, the $2.50 edition. Thus the annual will be representative not only of every department and college of the university but every individual student. It will be a comprehensive directory of every faculty member and one of the 2700 students at Iowa.

The pins of the book have been shown to many influential persons of the university and they have declared it to be the best at any average, annual.
