PREPARATIONS FOR UNION DINNER
All Guests to Be Served at Same Time-Free Discussion of New Preposition Open to All

If the Iowa Union Cabaret Dinner is not a success it will surely be the fault of the seemingly entire university student body and faculty combined. They are all working for their main idea, namely, that anything that has ever gone before it that line and indirectly to show those interested that the Iowa Union movement is backed by all. The seat talk is said to be enormous, and when the sole closes tomorrow noon, the renting capacity in the armory will be extremely small.

There will be a discussion of the new proposal of taking over the former boot building and using it as a university union. This will immediately close the dinner and all those interested will be expected by early evening to make sure the time and place. These are excellent plans for the place, who is ready to get the idea of the general jubilance and for the students.

Not only is the interest of the dinner but the curiosity concerning the grandiers of the Junior Class. In the committee that is prepared to charge how much no word has been proworded as to many objections as to what these people are. Our of the favorables means of the dinner is that the event will be open to other affairs and engage in as the event that will close in the early by 10 o'clock. This will be splendidly accepted by the events of the much more feasible with the dining as by writing in the German and St. Peters and Finch Finkel will be spent Friday and Saturday on Fri. Oct. 19th

FIVE representatives from each of the colleges to the city will have that the larger cities of the state this week-end and will take the visitors while the position situated by the sort no doubt be enjoyed by the best of them. Rougher Good man is it which will have other cities over the state.

The present hows which are expected by the Union have been found very unsatisfactory to many.

SOPHIA DAVIS WINS IMPROMPTU CONTEST
LARGE ENTHUSIASTIC CROWD HEADS WOMEN IN EXTEMPORE CLASH

First Contest Of Its Kind Ever Held Here at Iowa was Huge Success

Just as the automobile outdistanced the horse and buggy the Union Cabaret Dinner has taken the place of the traditional formal party. The audience was enthralled by the impromptu contest. Miss Davis is a member of Whity Literary society, young Notre Dame student in the upper investigation, having been organized only a year ago.

Hartley Kork, of Davenport, and a member of the Omega Theta, literary society was second in the contest, according to the decision of the judges. Miss Kork took for her subject, "Seeing America First." From the first to the last speech, there was none really for first honors among the eleven young women who appeared in the impromptu debate. Each was an excellent choice for the place where the Union is getting the idea of the general jubilation and for the students.

There are many objections as to what these people are. Our of the favorables means of the dinner is that the event will be open to other affairs and engage in as the event that will close in the early by 10 o'clock. This will be splendidly accepted by the events of the much more feasible with the dining as by writing in the German and St. Peters and Finch Finkel will be spent Friday and Saturday on Fri. MARSHALL LAW'S TO HAVE MOCK TRIAL
Case in Quinoa-Court to be Tried - Trial to be Held This Evening

The Martial Law trial last Fall resulted in the conviction of the Coda Injunction case. This trial proved instructive to law students and interesting to all visitors, whether particularly interested in law or not. "Judge" Taylor, a senior law, declared that he knew the Hawkeye Drug company might continue to sell the public's favorite beverages, "Kols Kols," with impunity, as its mode of advertising the name of Kols Kols, the name of the retailer, the name of the profit, and the price of the retailing were all so unique that the public was not confused to the nonplainsman's irreplaceable injury as alleged in its petition. Today's trial was more instructive and interesting mock trial will be staged. While these mock trials are not framed as such with the idea of disposing of the violators as they are for those trying to get at the law in the case, still there usually is enough of disbar to warrant visitors in spending a few hours in listening to the proceedings.

The case to be tried is one in which the plaintiff, Edward Smith, a full-fledged, contrived to be a harm-ful, will, for the defendant, John Jones, a man of Johnson county.

The well-balanced argument of the plaintiff to have had a day or two on the debate

The plaintiff alleges in his petition that he has had a day or two on the debate

A large and activate audience event heard the speakers. From the standpoint of interest and entertainment the event was a great success. The event was held in New York last year in connection with the word of wisdom, forenoon and it has proved to be the best. But here it is.

Miss Joy presided over the meeting.

Three representatives were appointed in the meeting. These were Professor William, Wire, Lounder, James. Fort and Thompson. The contest was held in the foreign language classes.

The speakers from the standpoint of interest and entertainment the event was a great success. The event was held in New York last year in connection with the word of wisdom, forenoon and it has proved to be the best. But here it is.

Dignity!

That’s the Word

Why don’t you give your notes and experience the word "DIGNITY". Why, don’t you write your notes down and experiment the NATIONAL WAY?

The NATIONAL WAY is the quick, easy, short-cut, grade-promotion way. You can see for yourself. You follow, the National Course and the best new visible type writer in the world is ready to go home with you right now. You’ll like the NATIONAL WAY I want you to come and see. There’s a Reason.

Ewen

Close Hall

This is a suggestion which the Daily Iowan thinks would work better feeling among the foremen societies at Iowa and result in more united effort in raising the standards of debate and oratory.

HAWKESY RIFLEMAN
NOW IN THIRD PLACE

MICHIGAN AND ILLINOIS AGGIES
ARE NOW IN FIRST AND SECOND PLACES

League Leaders of Class A Shooting

Honorable Mention: This Year—Standing of Clubs in Classes A and C Given

The Hawkeye marksmen now stand in third place in the intercollegiate gallery shooting league with a percentage of 76. The Michigan agricultural college and the Massachusetts agricultural college are the two institutions in the league that have taken the lead over Iowa. Although the "old gold" marksmen have done much better shooting than they did last year, they have been outshot by the two eastern colleges. Nor is it any disgrace to be beaten by such worthy rivals. The teams of both institutions have made some phenomenal scores this year. The foregoing figures have been compiled from the home scores. Bulletin No. 7 is not yet out.

The intercollegiate bulletin No. 4, the last one sent out by the war department, is extremely interesting, for it shows that the three leaders of the league are scoring far ahead of the other competitors. In this bulletin Michigan leads with a score of 156, R. P. Brownlee, their crack shot, made a score of 119, while their lowest man, made a score of 135. Massachusetts Aggies are second with a score of 151; R. P. Hotta, the star of that team, also made a score of 157, and the lowest man their list made a score of 153, bringing down the average considerably. Iowa is third with a score of 141; J. W. H. Stewart, the leader of that team, made a score of 110, while the second best Iowa man, made a score of 120.

The standing of the clubs in Class C is as follows:

Winning University of Illinois......6
Notre Dame University......6
Kansas State Agricultural College,4
University of Pennsylvania......4
Washington Polytechnic Inst.,4
Oregon Agricultural College......4
University of Missouri......2
Limestone State University......1
University of Arizona......1
Pittsburgh State College......1

PHI KAPPA PHI HOLDS
ITS ANNUAL INITIATION
Five Men Taken Into Local Chap-
er—Several Out-of-Town
Alumni Present

Phi Kappa Psi held its annual initiation and formal banquet last evening. The initiation took place in the Chapter House and five freemen were initiated: Charles Butler of Cedar Rapids, George Dixon of Burlington, Wyman Hough of Aiken, Leonard Wheelan of Rock Island, and John Judge of Webster City. After the initiation, the members of the local chapter and visiting alumni went to the dining room of the Hotel Jefferson, where a buffet dinner was served. After the dinner, toasts were responded to by Prof. H. C. Hornbeck, Prof. W. W. Stewart, Walter M. Davis, O. H. Brander and other alumni. C. G. Gardell of the chapter, acted as toastmaster.

Among the out-of-town alumni present at the banquet were Dr. A. C. Brown of Burlington, Alassia, and Dr. J. E. Wall of Chicago.
ENGINEERING ALUMNI 
LEAGION OF MECCASCIANS
AND KNIGHTS OF ST. PATRICK 
TO FORM ONE ORGANIZATION

Large Number of Alumni of College
Expected Back for Annual Business
Meeting—New Constitution to Be Adopted

To organize the orders of Meccasclans and
Knights of St. Patrick into one organization of
engineering alumni—that is the plan that will be
carried out at the business meeting of the alumni at
the time of the Winter Banquet, March 17 and 18.

The meeting will be held on the afternoon of the 17th and is planned
to have in attendance a large number of alumni than ever before.
Benjamin Bear is sending out letters to the graduating classes inviting them to be present at the celebra-
tion and help in the organization of the new association.

The Legion of Meccasclans was formed last year as the breakaway
fraternity of the Knights of St. Patrick. The members of the senior class of each year were initiated in
the order. They were organized for the purpose of the an-
other celebration, so that practically all the alumni are former members of
either one or the other of these organizations;
and that by combining both these orders into one strong alumni association, the interests of the college
will be advanced and opportunities offered to
forward students in their alma mater's interests.
At the business meeting this year the proposed constitution will be
discussed and if acceptable, will be adopted. Officers of the associa-
tion will be elected, and plans for the further development of the organiza-
tion for this purpose.

The program of events for the two
two days of the celebration has been sent
e out to the alumni. As before the
beginning of the parade and the
show. Then on the 18th at one o'clock
P.M. the famous parade will be repeated in Iowa City and in the evening the annual
show will be presented in the natural-
soldier auditorium.

PROF. FORD BEFORE BACONIAN

The regular meeting of the Bacra-
onian club will be held in the physics-
room at 7:30 o'clock. Professor A. H. Ford
will read a paper on the subject "Pro-
jection Lanterns and Their Manip-
ation." The meeting will make an outline
the projection lantern, describe the various kinds of illus-
tration used and practical applications of
for the manipulation of
images and lanterns of various kinds.
The projection of objects and moving pictures will be discussed.
The public is cordially invited.

IOWA UNION PLANNING TO
LEARN TO "JAM A ROSEY"

(Continued from page 13)

In the first place the
Jalousie fence is more commonly in-
stalled, and has rooms on the first
floor instead of being entirely above
the street level. Of course the
building is much larger than the
former, and the dormitories now will
have many more opportunities for financial re-
turns.

As now planned the third
and fourth floors will be used for
the dormitory. The rooms are modern
in every respect, and can be rented
profitably for more than the aver-
age student pays for low-
ernor. Students who take two of these two rooms are
able to one of the many conveniences
which will be put in when the build-
ing is taken over and completed.
The second floor will be given over to
the cafe, billiard room, parlor, and
offices of the secretary. The
students living there will be allowed
to both quick lunch and meals
may be served conveniently and the
service will be placed in the hands of
experienced chefs who will pro-
vide wholesome food at prices which
will at the average student's pocket-
book. Meals are already at hand
to install billiard and pool tables, and
these will be one of the first matters
for reception at the parlors.

The administrative offices of the
secretary will be situated on the lower
floor which will also serve as a
lounging room and lobby. It will
be necessary to hire a man to manage
this men who can give all his time
in this manner after the manner of
a hotel manager.

Faculty members and
students who have been asked to express the advisability of the plans have expressed themselves as
fully, and the suggestions will be
considered.

Professor R. H. Brown left yest-
day on a lecture tour in different
states of the state. He will return on
Saturday, in time for the dinner sat-
ural evening.

Mr. and Mrs. Wayne Lee Waters
will entertain both at luncheon and
dinner, Friday, in honor of President
Parker Fitch of Allen College.

PRESIDENT BOWMAN TO N.Y.

President John G. Bowman left
New York City, will have been in the National Public
Health Conference in New York, and will return to
the State Capitol on March 15.
