Petition Is Circulated In Outside Cities Of State
Charge Managing N. A. Kellogg With Incompetency—Other Charges

The faculty members of the print and circulating a petition asking for the removal of N. A. Kellogg as athletic director of Iowa became public last evening. The petitions have been circulated almost almost in outside cities, and the intent of those in charge of them was to keep the matter quiet until the April meeting of the state board of education, to which they were to be presented.

The petition alleges Kellogg's inattention to the affairs of the university, both as to finances and as to such other affairs as provision for the entertainment of the students and the general health of the student body.

As a sequel to the petition, the president recommends Migeey L. Kyd, an alumnus from 1899-1904, football coach in 1898 and 1899, and assistant coach here for the past six years. Mr. Kyd is at present employed in the law offices of Mr. James H. Trow, who is member of the state board of control, at Cedar Rapids.

These charges in the petition are not based, however, on any action of Kellogg, but are charges on the grounds of his inability to handle the affairs of the outside cities, and to such other affairs as provision for the entertainment of the students and the general health of the student body.

MANAGER N. A. KELLOGG

Practically every student in the university will be surprised and ashamed when they learn that certain alumni of the university have been asking for the removal of Manager N. A. Kellogg. The petition charges Kellogg with incompetence and bad business methods, though not charging dishonesty. It was the original purpose of the petition to charge the manager to keep the maintenance fund of the athletic department in the best possible condition. The petition does not charge the manager with failure in the maintenance of the athletic department of the university. We believe that the student body, the faculty and the alumni are well acquainted with the methods in which the athletic contests have been conducted.

We believe that there has been no managerial taxation in the direction of any way in which the athletic here have been conducted. We have been in close touch with the athletic department since Mr. Kellogg has been in his official position, and, so far as the charges outlined in the petition, are concerned, we believe that they are based upon the late hour that the news was received last night, it has been impossible to make extensive investigation of the charges made. However there are some things potent that and if they exist, it may be that their armor exists between the coaches of the athletic teams and the members of the team, which is the exception of the football team. So far as we know, the difficulty which existed in football circles was a simple one and easily adjustable.

Concerning the finances and the business of the various athletic teams which have been stated, Manager Kellogg has the hearty recommendation of the athletic department, as well as of the members of the teams. The business method which is used in conducting athletic contests here is the same as that used by the university and has the endorsement of the university authorities. The university has the advantage of being in close touch with the athletic teams, which is the exception of the football team. So far as we know, the difficulty which existed in football circles was a simple one and easily adjustable.

The petition, under discussion, states specifically that Iowa athletes have been responsible for an enormous deficit in the athletic fund. This is an error. Our administration, in the past three years, has been responsible for the deficit.

**Spring style show now ready**

**Young men's clothes are our specialty**

Hart Schaffner & Marx fine suits and overcoats are here

If you will look with some care at our illustration, you'll get a pretty good idea of the way we can dress any young man in this town. You notice that there's a smart, snappy, very dressy style about this young man; nothing "flashy" in the cut of his clothes, nothing ultra or extreme; just a well-dressed, high-toned young gentleman; young looking in his clothes as well as in his face. That's the way

**HART SCHAFFNER & MARX**

do things; and that's the reason we make such a feature of their goods. We believe the young men of our town appreciate such clothes; the styles are very smart, and up-to-date; the creations of the best and cleverest designers in the world. But there's more than style in such clothes; there's all-wool security in the fabrics; there's the finest tailoring known; there's correct and permanent fit.

You'll choose from a lot of new and beautiful fabrics; many new imported weaves, and the usual large variety of American goods. Smart new patterns and colorings.

The illustration is only a suggestion of what you may expect here; you've got to see the clothes to know how good they are.

Suits and overcoats $18, $20, $25, $30, $35; and higher if you choose
